Contracting and Contract Law in the Age of Artificial Intelligence Martin Ebers,Cristina Poncibò,Mimi Zou,2022-06-30 This book provides original, diverse, and timely insights into the nature, scope, and implications of Artificial Intelligence (AI), especially machine learning and natural language processing, in relation to contracting practices and contract law. The chapters feature unique, critical, and in-depth analysis of a range of topical issues, including how the use of AI in contracting affects key principles of contract law (from formation to remedies), the implications for autonomy, consent, and information asymmetries in contracting, and how AI is shaping contracting practices and the laws relating to specific types of contracts and sectors. The contributors represent an interdisciplinary team of lawyers, computer scientists, economists, political scientists, and linguists from academia, legal practice, policy, and the technology sector. The chapters not only engage with salient theories from different disciplines, but also examine current and potential real-world applications and implications of AI in contracting and explore feasible legal, policy, and technological responses to address the challenges presented by AI in this field. The book covers major common and civil law jurisdictions, including the EU, Italy, Germany, UK, US, and China. It should be read by anyone interested in the complex and fast-evolving relationship between AI, contract law, and related areas of law such as business, commercial, consumer, competition, and data protection laws.

How to Write and Get Published Tammy Ivins,Anne Pemberton,2019-04-22 Written by two librarians with extensive publication experience, this book provides practical techniques and tools to prepare librarians to publish successfully. This book is neither a research methodology nor a 'craft of writing' book. Instead, its sole goal is to help librarians (and other information science professionals) start writing, identify an outlet for publication, and publish successfully. It dispels the mythos surrounding "scholarly writing" by providing practical tools and advice to help soon-to-be authors get started on the publication journey now. This book will guide aspiring authors step-by-step through the writing and publication process, from nurturing an idea to fruition all the way to enjoying a successful publication. Along the way, readers will learn how to identify the best publication type and venue, gather the needed information to make a convincing argument, and skillfully manage even the most complex project. Topics range from cerebral (such as how to maintain motivation through a project) to technical (such as common grammar and vocabulary errors), but all are designed to be practical and of immediate use to a writer. Whether a graduate student at the beginning of your career in the field of information sciences, a newly minted librarian fresh out of graduate school, a library administrator at the peak of your career, or somewhere in between, publishing can keep you engaged in the issues facing the profession and enhance your career and professional success. Readers will be inspired and ready to contribute to library scholarship and start building their own successful scholarly habit.

Project Management in Practice Garry N. Boychuk, 2021-09-15 This book is a practical guide to more effective delivery of capital infrastructure projects. This book addresses how to effectively deliver infrastructure projects and provides practical tools, methods, and procedures to enable a diligent project manager to increase their productivity and delivery of infrastructure (from typical 35% to as high as 95%). To enable effective implementation, strategies are laid out for a conscientious Project Manager to better communicate clearly, completely, and effectively with all project stakeholders.

College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration - Third Edition James M. Gaitis, Carl F. Ingwolson, Jr., Vivien B. Shelanski, 2014-01-01 This third edition of The College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration has been substantially expanded not only to ensure that it is up to date but, also, to incorporate several new chapters on diverse subjects, including intratribunal relations, arbitrators' fees, eDiscovery, and hybrid arbitration processes. Summary of New Material •Twice as long as the second edition •Substantial revision and expansion of existing chapters •Four new chapters (Arbitrators Fees & Expenses, eDiscovery, Intratribunal Relations, Hybrid Arbitration Proceedings) •Updated to take into account evolving case law and to address newly emerging issues relating to

the management of commercial arbitrations •Comparative tables regarding certain aspects of in major international rules and international arbitration institution policies •Revised to take into account: ♦The new 2013 CPR Administered Arbitration Rules ♦The 2013 revisions to the AAA Commercial Rules ♦Various protocols and guidelines relating to domestic commercial arbitration ♦The 2011 revisions to the JAMS International Rules ♦The 2012 revisions to the ICDR Articles ♦The 2010 revisions to the UNCITRAL Rules ♦The 2013 IBA Guidelines on Party Representation in International Arbitration ♦The 2010 revisions to the IBA Rules on the Taking of Evidence in International Arbitration ♦Various protocols and guidelines relating to domestic commercial arbitration

The aim of the Guide is to identify best practices that arbitrators can employ to provide users of arbitration with the highest possible standards of economy and fairness in the disposition of business disputes. This third edition of the Guide refines the guidance contained in the first and second editions to take into account developing case law, revised institutional rules, advancements in arbitration techniques and thinking, and also addresses newly evolving issues such as electronic discovery. There are significant differences in the ways in which arbitrations are conducted in different substantive fields of commerce and among different arbitrators in the same field. Techniques that are appropriate and useful in one case may be quite unsuited to another. For this reason, it is not possible to prescribe a single set of best practices that commercial arbitrators should invariably follow in every case. Rather, this Guide attempts to identify the principal issues that typically arise in each successive stage of an arbitration and to explain the pros and cons of various preferred ways of handling each issue. From this perspective, the best practice for an arbitrator is to carefully consider the merits of alternative techniques available for dealing with a particular issue and to then select the technique best suited to the situation. In addition, the Guide attempts to identify the full array of practices available for use in complex arbitrations, which can be adapted and streamlined for simpler cases.

Formed in 2001, the College of Commercial Arbitrators is a non-profit organization composed of prominent, experienced commercial arbitrators who believe that a national association of commercial arbitrators can provide a meaningful contribution to the profession, to the public, and to the businesses and lawyers who depend on arbitration as a primary means of dispute resolution. Its mission includes promoting professionalism and high ethical practice in commercial arbitration, adopting and maintaining standards of conduct, providing peer training and professional development, and developing and publishing best practices materials. This work is the College's principal vehicle for fulfilling several aspects of its mission. Many seasoned and knowledgeable practitioners generously contributed their time and insights to the creation of this Guide.

Not-for-Profit Law Matthew Harding, Ann O'Connell, Miranda Stewart, 2014-05-08 The law and policy applicable to the not-for-profit sector is of growing importance around the world. In this book, legal experts address fundamental questions about not-for-profit law from a range of theoretical and comparative perspectives. The essays provide scholarly analysis of not-for-profit law, organised around four themes: (1) Politics, in the broader sense of living as a community, and the narrower sense of political power; (2) Charity, how it is defined and changes in its meaning over time; (3) Taxation, including the rationale for government support of the sector through the tax system; (4) Regulation, which is of increasing significance as governments establish increasingly complex forms of regulation of not-for-profit activity. The fundamental aim of the book is to deepen our understanding of not-for-profit law and of the rationales and modes of government support for the not-for-profit sector.

The Handbook of the Law of Visiting Forces Dieter Fleck, 2018 The legal position of visiting forces transcends domestic and international law and is of growing importance in our increasingly globalized and insecure world. 'In area' and 'out of area' operations, both for the purpose of establishing and maintaining peace and in connection with the conduct of other military operations and training, are likely to become more frequent for a variety of reasons. Finding where the applicable law places the balance between the interests, sensitivities and needs of the host state and the requirements, often practical in nature, of the visiting force is a key objective in ensuring that the relationship between hosts and 'guests' is and remains harmonious. All of this must be achieved in an increasingly complex legal environment. This fully updated second edition of *The Handbook of the Law of Visiting Forces* addresses the issues surrounding visiting forces and provides a full overview of the legal framework in which they operate. Through an analysis of jurisprudence and historical developments, it offers a comparative commentary to the UN, NATO, and other SOFA rules. The Handbook then continues its analysis through cases studies of visiting forces in key countries, including a fully updated chapter on Afghanistan that considers the various stages of the conflict, before offering conclusions on the current state of the law and its likely future development.
