Keahlian komputer saja belum cukup jika tidak dibarengi dengan kemampuan berkomunikasi dalam bahasa Inggris dengan baik. Buku ini hadir khusus bagi mahasiswa yang kuliah di Ilmu Komputer karena berisi beberapa teks bahasa Inggris yang berkaitan dengan dunia komputer yang sering muncul di internet. Selain itu, buku ini juga mencakup keterampilan bahasa Inggris dasar lainnya seperti Listening, Speaking, Reading, dan Writing. Selain itu, ada Grammar dan bahkan pembelajaran lengkap TOEFL. Tidak hanya itu, buku ini juga memberikan teknik dan strategi belajar bahasa Inggris untuk masing-masing skill. Sebagai pelengkap, juga terdapat link sumber belajar yang akan membantu mahasiswa belajar bahasa Inggris secara mandiri. Bahkan kami juga menyediakan tutorial Belajar TOEFL secara lengkap di channel Youtube kami Yanto Tanjung yang oleh Kompas.com dipilih sebagai salah satu channel belajar TOEFL terbaik di Indonesia. Harapan kami, mahasiswa Ilmu Komputer mampu menyanggah keahlian mereka di bidang komputer dan keterampilan berkomunikasi dalam bahasa Inggris. Dosen dapat menggunakannya di kelas sebagai buku teks utama dan buku ini juga bisa digunakan mahasiswa untuk memahami semua aspek bahasa Inggris secara komprehensif.

*Quick Hits for Teaching with Technology* Robin K. Morgan, Kimberly T. Olivares, 2012-02-29 "A wealth of good ideas" for using technology in education, from increasing student engagement to managing hybrid and distance learning (Teachers College Record). How should I use technology in my courses? What impact does technology have on student learning? Is distance learning effective? Should I give online tests and, if so, how can I be sure of the integrity of the students' work? These are some of the questions that instructors raise as technology becomes an integral part of the educational experience. In *Quick Hits for Teaching with Technology*, award-winning instructors representing a wide range of academic disciplines describe their strategies for employing technology to achieve learning objectives. They include tips on using just-in-time teaching, wikis, clickers, YouTube, blogging, and GIS, to name just a few. An accompanying interactive website enhances the value of this innovative tool.

**Designing and Implementing Program Evaluation for Teaching and Learning Centers** Susan Hines, Catherine Ford, 2024-12-20 This practical guide equips educational developers with a clear, systematic approach to evaluating the

impact of their center's programs. Evaluation data and evidence can serve as powerful tools to demonstrate alignment with strategic priorities and to construct compelling narratives that highlight the value added by educational development opportunities. Drawing from 10 years of in-depth research investigating how teaching and learning centers evaluate their programs, this book provides a four-phase model flexible enough to fit centers of any size. The authors' accessible, outcomes-based approach outlines essential steps and strategies in designing and implementing an evaluation plan tailored to their center's specific needs. The illustrative figures, practical examples, customizable templates, and real-world scenarios ensure that the model is comprehensive, while also being straightforward and easy to apply. This book is an indispensable resource for directors and staff working in teaching and learning centers, chief academic officers and deans, and administrators responsible for educational development at the college level.

**Popular Science**, 2007-01 Popular Science gives our readers the information and tools to improve their technology and their world. Effective Project Management Through Applied Cost and Schedule Control James Bent, Kenneth K.

Humphreys, 1996-05-01 This work outlines a state-of-the-art project control and trending programme, focusing on advanced applied-cost and schedule-control skills for all phases of a project at both owner and contractor level. It contains information on the three major aspects of the total project programme: the techniques and procedures utilized for a project; the exper

*Introduction to Text Analytics* Emily Ohman, 2024-11-01 This easy-to-follow book will revolutionise how you approach text mining and data analysis as well as equipping you with the tools, and confidence, to navigate complex qualitative data. It can be challenging to effectively combine theoretical concepts with practical, real-world applications but this accessible guide provides you with a clear step-by-step approach. Written specifically for students and early career researchers this pragmatic manual will:

- Contextualise your learning with real-world data and engaging case studies.
- Encourage the application of your new skills with reflective questions.
- Enhance your ability to be critical, and reflective, when dealing with imperfect data.

Supported by practical online resources, this book is the perfect companion for those looking to gain confidence and independence whilst using transferable data skills.

**Conversational AI** Michael McTear, 2022-05-31 This book provides a comprehensive introduction to Conversational AI. While the idea of interacting with a computer using voice or text goes back a long way, it is only in recent years that this idea has become a reality with the emergence of digital personal assistants, smart speakers, and chatbots. Advances in AI, particularly in deep learning, along with the availability of massive computing power and vast amounts of data, have led to a new generation of dialogue systems and conversational interfaces. Current research in Conversational AI focuses mainly on the application of machine learning and statistical data-driven approaches to the development of dialogue systems. However,

it is important to be aware of previous achievements in dialogue technology and to consider to what extent they might be relevant to current research and development. Three main approaches to the development of dialogue systems are reviewed: rule-based systems that are handcrafted using best practice guidelines; statistical data-driven systems based on machine learning; and neural dialogue systems based on end-to-end learning. Evaluating the performance and usability of dialogue systems has become an important topic in its own right, and a variety of evaluation metrics and frameworks are described. Finally, a number of challenges for future research are considered, including: multimodality in dialogue systems, visual dialogue; data efficient dialogue model learning; using knowledge graphs; discourse and dialogue phenomena; hybrid approaches to dialogue systems development; dialogue with social robots and in the Internet of Things; and social and ethical issues.

**Project Management in Practice** Garry N. Boychuk,2021-09-15 This book is a practical guide to more effective delivery of capital infrastructure projects. Current manuals tend to be impractical and heavy on terminology with an unnatural focus on the project management requirements over the actual deliverable, the infrastructure. This book addresses how to effectively deliver infrastructure projects and provides practical tools, methods, and procedures to enable a diligent project manager to increase their productivity and delivery of infrastructure (from typical 35% to as high as 95%). To enable effective implementation, strategies are laid out for a conscientious Project Manager to better communicate clearly, completely, and effectively with all project stakeholders.

Arbitral Awards as Investments Maximilian Clasmeier,2017-01-01 The rise of international investment arbitration has resulted in the emergence of a number of intriguing legal and political challenges. One of those is the question of whether or not arbitral awards may constitute investments pursuant to existing investment treaties. In approaching the problem, it is the interconnection between theory and practice that delivers solutions. This book presents the first detailed analysis of the existing tribunals' approaches to date. In examining the principles of treaty interpretation, their application in arbitral practice, shortcomings and their ramifications and possible routes to improvement, the book addresses the following questions: - What is the foundation of interpretation in public international law and when is it adequately carried out? - Can arbitral awards constitute investments, offering relief from frustrated enforcement attempts? - Is there a trend of convergence of commercial and investment arbitration? - Do respective interpretative outcomes stem from adequate interpretation? - What are the ramifications, if interpretation is not fully adequate? - What are the feasible routes to greater

interpretive discipline? The book is mindful of the underlying public international law principles, such as state sovereignty and the increasing legal and political dynamics of international investment law. This is the first in-depth treatise on arbitral awards' qualification as investments within international investment law. Its detailed analysis of the interpretive approaches, their foundation and consequences will, from a theoretical and practical point of view, prove of great value to international tribunals, counsel and sovereign entities. Maximilian Clasmeier has gained international arbitration experience in the dispute resolution practices of international law firms in Frankfurt, Düsseldorf and Singapore and worked for the World Bank Group in Washington, D.C.

*Public Health Ethics: Cases Spanning the Globe* Drue H. Barrett, Leonard W. Ortmann, Angus Dawson, Carla Saenz, Andreas Reis, Gail Bolan, 2016-04-12 This Open Access book highlights the ethical issues and dilemmas that arise in the practice of public health. It is also a tool to support instruction, debate, and dialogue regarding public health ethics. Although the practice of public health has always included consideration of ethical issues, the field of public health ethics as a discipline is a relatively new and emerging area. There are few practical training resources for public health practitioners, especially resources which include discussion of realistic cases which are likely to arise in the practice of public health. This work discusses these issues on a case to case basis and helps create awareness and understanding of the ethics of public health care. The main audience for the casebook is public health practitioners, including front-line workers, field epidemiology trainers and trainees, managers, planners, and decision makers who have an interest in learning about how to integrate ethical analysis into their day to day public health practice. The casebook is also useful to schools of public health and public health students as well as to academic ethicists who can use the book to teach public health ethics and distinguish it from clinical and research ethics.
