Washington State Notary Public Guide Washington State Department,2019-04-06 The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.

Gravel Roads Ken Skorseth,2000 The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been more of an art than a science and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Idaho Notary Public Handbook Idaho Secretary of State,2019-04-06 Everybody knows what a notary public does, right? Actually, there is much misunderstanding and confusion about what the proper role and duty of a notary is. A notary public does not legalize documents, or verify the accuracy or truthfulness of the content or statements made in a document, and yet the role that a notary plays in ascertaining the identity of the person who signs a document, placing that person under oath, if required, and determining the signer's intent and willingness to consent to the transaction is vital in modern

society. A notary public is a public official commissioned by the Secretary of State to administer oaths and affirmations, take acknowledgments, witness signatures, and perform other duties as permitted by state law. A notary should be familiar with the Idaho notary laws and to follow the standards of reasonable care for performing a notarial act.

The Big6 Curriculum Michael B. Eisenberg,Janet Murray,Colet Bartow,2016-05-26 This practical, hands-on book explains how to ensure that your students are information and communication technology literate—that is, competent with a range of tools, technologies, and techniques for seeking out and applying information. The importance of teaching information and communication technology (ICT) literacy is clear: without it, students will be ill-equipped to find and use information in all its forms as well as produce and present information in all forms. Unfortunately, most ICT literacy educational programs are irregular, incomplete, or arbitrary. Classroom teachers, teacher librarians, and technology teachers need a complete ICT program—one with clearly defined goals and objectives, planned and coordinated instruction, regular and objective assessment of learning, and formal reporting of results. This book explains how to integrate the objectives of ICT literacy into your school's established curricular structure. The book explains the rationale for having a comprehensive ICT program, describes how to develop a Big6 by the Month program, and defines the challenges in the areas of information-seeking strategies, location and access, use of information, synthesis, and evaluation. It also includes templates for grade-level objectives; a scenario plan, program plan, lesson plan, and unit plan; summary evidence and criteria; performance descriptors; a presentation readiness checklist; and Big6 by the Month checklists for instructional leaders, teachers, and teacher librarians.
