Story Engineering Larry Brooks,2011-01-27 What makes a good story or a screenplay great? The vast majority of writers begin the storytelling process with only a partial understanding where to begin. Some labor their entire lives without ever learning that successful stories are as dependent upon good engineering as they are artistry. But the truth is, unless you are master of the form, function and criteria of successful storytelling, sitting down and pounding out a first draft without planning is an ineffective way to begin. Story Engineering starts with the criteria and the architecture of storytelling, the engineering and design of a story--and uses it as the basis for narrative. The greatest potential of any story is found in the way six specific aspects of storytelling combine and empower each other on the page. When rendered artfully, they become a sum in excess of their parts. You'll learn to wrap your head around the big pictures of storytelling at a professional level through a new approach that shows how to combine these six core competencies which include: • Four elemental competencies of concept, character, theme, and story structure (plot) • Two executional competencies of scene construction and writing voice The true magic of storytelling happens when these six core competencies work together in perfect harmony. And the best part? Anyone can do it!

Mission Transition Matthew J. Louis, 2019-09-24 Mission Transition is an essential career-change guide for any transitioning veteran that wants to avoid false starts and make optimal career choices following active duty. Every year, about a quarter of a million veterans leave the military - most of whom are unprepared for the transition. These service members have developed incredible leadership, problem-solving, and practical skills that are underutilized once they reach the civilian world, a detriment to both themselves and society. Well-intentioned Transition Assistance Programs and other support structures within the armed forces often leave veterans fending for themselves. The mission-first culture of the military results in service members focusing on their active duty roles in the year leading up to their separation, leaving them little time to adequately prepare to join the civilian world. President of Purepost, a next-generation staffing solution and public benefits corporation, and author Matthew J. Louis guides military personnel through the entire process of making a successful move into civilian professional life. In Mission Transition, this book will: Guide you through the process of discovering what path you want to take going forward Teach you the strategies that will make your résumé stand out Provide suggestions to help you prepare for and ace the interview Discuss ways to acclimate to your new organization's culture and pay it forward to other veterans Each chapter includes advice from other veterans, illustrations of key concepts, summaries, and suggested resources. Let this well-written and easy to follow guidebook help you transition out from the military and commit to being successful in the next chapter of your life.

Fear Less Pippa Grange,2020-07-23 'Pippa Grange has something to teach all of us when it comes to letting go of perfectionism and anxiety, and living with open hearts rather than clenched fists. Fear Less is a total game-changer.' Brené Brown If we were truly free from fear, what could we achieve? We strive for success, but we are rarely happy. The more we try to win - putting on a brave face for work or family - the more we risk losing ourselves. And even reaching our goals can feel strangely hollow. The culprit? Fear. It makes us anxious, or shameful, or turns us into perfectionists. We pretend to be someone else while aiming for a status that's never truly satisfying. There is another way. A way to find our true voice, to win on our own terms. Building that open mindset is at the heart of this mould-breaking book by Dr Pippa Grange, the psychologist who helped transform the England team, taking them all the way to the World Cup semi-finals in 2018. In Fear Less, Pippa Grange shows all of us how, by starting to live with less fear, we can find our real passions and deeper fulfilment. Her simple manifesto enables us to replace stress with courage, and connect with the people around us on a far deeper level. This type of success isn't about trophies or beating others, it's about winning at the very deepest level: winning from within. It's time to fear less.

High on Design Robert Klanten,Santiago Rodriguez Tarditi,Gestalten,2020 Today, weed is en vogue and has evolved into a good-looking business. High on Design showcases the new brands, designs and creators behind this revolution. While cannabis is a recreational drug still strongly associated with Western subculture, it has recently become a huge industry. Over the past few years, consuming the herb and using its derivatives have become legal in several countries, and a wave of entrepreneurs has come through, looking to generate and bank on a new generation of consumers. Through insightful texts, High on Design reflects on the novel aesthetics, people, and trends of contemporary cannabis culture, and provides a wider view of the phenomenon. Addiction, crime, science, the marketing of weed as a booster of creativity and a medical aid, and the use of hemp in clothing are all considered.

Adorno, Foucault and the Critique of the West Deborah Cook,2018-11-27 The alliance of critical theory between Frankfurt and Paris Adorno, Foucault and the Critique of the West argues that critical theory continues to offer valuable resources for critique and contestation during this turbulent period. To assess these resources, it examines the work of two of the twentieth century's more prominent social theorists: Theodor W. Adorno and Michel Foucault. Although Adorno was situated squarely in the Marxist tradition that Foucault would occasionally challenge, Deborah Cook demonstrates that their critiques of our current predicament are complementary in important respects. Among other things, these critiques converge in their focus on the historical conditions-economic in Adorno and political in Foucault-that gave rise to the racist and authoritarian tendencies that continue to blight the West. Cook also shows that, when Adorno and Foucault plumb the economic and political forces that have shaped our identities, they offer remarkably similar answers to the perennial question: What is to be done?

Romancing the Beat Gwen Hayes, 2016 What makes a romance novel a romance? How do you write a kissing book? Writing a well-structured romance isn't the same as writing any other genre—something the popular novel and screenwriting guides don't address. The romance arc is made up of its own story beats, and the external plot and theme need to be braided to the romance arc—not the other way around. Told in conversational (and often irreverent) prose, *Romancing the Beat* can be read like you are sitting down to coffee with romance editor and author Gwen Hayes while she explains story structure. The way she does with her clients. Some of whom are regular inhabitants of the New York Times and USA Today bestseller lists. *Romancing the Beat* is a recipe, not a rigid system. The beats don't care if you plot or outline before you write, or if you pants your way through the drafts and do a beat check when you're revising. Pantsers and plotters are both welcome. So sit down, grab a cuppa, and let's talk about kissing books.
