Guerrilla Publishing Derek Murphy,2017-01-24 TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can

focus on writing your next bestseller. **FAST AND EFFECTIVE BOOK MARKETING** This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. **LAUNCH BIG EVEN IF YOU'RE STARTING SMALL** Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.

Book Marketing Is Dead Derek Murphy, 2013-12-31 How to sell a ton of books (even if you're starting with no platform). If you've found this book I'm assuming you have or will soon have a book out on the market, and are exploring ways to turn it into a best-selling powerhouse that will slaughter the competition and pay for your retirement. The indie publishing world is thrilling because of the possible returns, and I hope you and your book do well. You're probably searching for things like book marketing and book promotion so you can learn how to find readers and convince them to buy your book. But almost everything you read will be wrong. That's because marketing in general is dead. Advertising is dead. Selling and convincing people to buy: also dead. The new law of book sales is this: if you're talking about your book, promoting your book, sharing your book... you're screwing it all up. Don't make Old School marketing mistakes that will sabotage your efforts! This book will help you to... Avoid the common mistakes that kill book sales Set up an author platform quickly that will triple your results Use Social Media (like an expert) without being annoying Advertise for maximum impact (at the lowest cost) Make powerful friends online who can move thousands of books Before you spend a lot of money on book marketing services or author publicity... Make sure you've plugged all the holes in your sales funnel so you're not throwing money away. If you're looking for a Bestseller Campaign but don't have a big budget... This book will show you plenty of ways to improve sales without spending a dime.
