The Ridiculously Simple Guide to Google Slides Scott La Counte,2019-08-19 How many times do you work on a presentation that you will get absolutely no feedback on and want no help? Maybe you're the type that likes to whip something up and have no practice or feedback at all? Most of us are the former. Before we stand in front of a group of people, we want to make sure we're as polished as possible. The problem is PowerPoint wasn't built like that. It was built as a desktop program that one person would use at a time. Google realized the problem and seized the opportunity when they launched Google Slides over ten years ago. Google Slides is a cloud-based presentation editor that can replace PowerPoint or Keynote. If you'd like to get the most out of the software, then let's get started! Note: This book is the Google Slides portion of the larger work: *The Ridiculously Simple Guide to Google Apps (G Suite)*

The Ridiculously Simple Guide to Google Apps (G Suite) Scott La Counte, 2019-09-11 Chances are you grew up a Word and Office user. Maybe you were a rebel and committed your herd to OpenOffice, or, dare I say, WordPerfect—but for the majority of people, our lives were loyal to Microsoft. In 2005, a small little startup named Upstartle developed something unheard of at the time: a web-based word processor called Writely. It pioneered the idea of writing on the “cloud” and changed the way people thought about word processing. Google noticed the little upstart, and in 2006, they acquired the company. The software was abandoned and turned into what everyone knows today as Google Docs. It disrupted the industry—namely, Microsoft's industry. Today, Google has a whole suite of productivity apps; from documents to spreadsheets, you can do just about anything from the cloud. Microsoft and Apple have each made big attempts to create cloud-based environments of their own for office productivity, but Google pioneered the idea and its collaborative, online environment make it hard to beat. It's become so feature-rich that many businesses are finding it to be the preferred way to conduct business. If you are thinking about making the switch to Google, or have already made the switch but want to make sure you are using it correctly, then this guide will walk you through it. It will show you all the basic features to make sure you can get up and running as quickly as possible. It covers Google Drive, Google Docs, Google Slides, Google Sheets, and Google Forms. Let's get started!
