*Re-Bound* Jeannine Stein, 2009-07-01 A DIY book making guide that repurposes easily-found items into handcrafted books, perfect for gift giving. Re-Bound is a beautiful book on bookbinding with a fun green twist—all the projects use recycled and upcycled materials. This book shows you how to take everyday materials from around the house, flea markets, thrift stores, and hardware stores and turn them into clever and eye-catching hand-made books.

[The Book Block](#) Rúben R Dias, Rui Oliveira, Fábio Duarte Martins, Ricardo Philippe Dantas, 2019-12-01 The Book Block is a manual of industrial binding techniques, the first in the Making a Book collection, which focuses on manuals for graphic book production. With the aim of elevating knowledge about graphic production among designers — helping them to produce better books and communicate more effectively with all those involved in the process — The Book Block brings together the 17 most common industrial binding techniques in 6 categories, exploring each one in detail, describing them and showing what is possible to do in this day and age. Conceived from scratch to be bilingual, in Portuguese and English, the book seeks to systematize Portuguese terminology in the printing industry, while providing the same information in the lingua franca of today's global market: English. In an international context, with customers, employees and producers sprinkled throughout

the world, this book provides the perfect tool for an effective communication. Developed by experienced book designers and bookbinders — Itemzero and Maiadouro — this book is a summary of decades of know-how, now easily made available.

*The Art of the Fold* Hedi Kyle, Ulla Warchol, 2018-10-02 The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all - Sew magazine A wonderful insight into the work of a truly skilled artist - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years.

As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

[The Kraken Wakes](#) John Wyndham,2022-04-19 An “ingenious, horrifying” (The Guardian) first contact story by one of the twentieth century’s most brilliant—and neglected—science fiction and horror writers, whom Stephen King called “the best writer of science fiction that England has ever produced.” “Few books capture the obscure, elliptical way that threats move from the background to the foreground of reality like *The Kraken Wakes*. . . . Feels all too familiar in today’s age of anti-vaxxer disinformation and QAnon conspiracists.” —Alexandra Kleeman, from the Introduction What if aliens invaded and colonized Earth’s oceans rather than its land? Britain, 1953: It begins with red dots appearing across the sky and crashing to the oceans’ deeps. At first, many people believe that these aliens are interested in only what’s down below. But when the polar ice-caps begin to melt, it becomes clear that these beings are not interested in sharing the Earth and that humankind might just be on the brink of extinction. . . .

*Adventures in Bookbinding* Jeannine Stein,2011-06-01 Each project in this book combines bookbinding with a specific craft such as quilting, jewelry making, or polymer clay, and offer levels of expertise: basic, novice, and expert. Illustrated step-by-step instructions and photographs demonstrate how to construct the cover pages, and a unique binding technique, easy enough for a beginner to master. Each project also features two other versions with the same binding geared to those with more or less experience. The novice version is for those who have no knowledge of the craft and want shortcuts, but love the look. For the quilter's book, for example, vintage quilt pieces become the covers so all that's needing in the binding. Or if you're interested in wool felting use an old sweater. This offers great opportunities for upcycling. The expert version is for those who have a great deal of knowledge and proficiency of a certain craft - the master art quilter, for example. For this version, an expert guest artist has created the cover and the author has created the binding. This offers yet another creative opportunity - the collaborative project. Since crafters often get involved with round-robins and other shared endeavors, this will show them yet another way to combine their skills. No other craft book offers the possibilities and challenges that *Adventures in Bookbinding* does. Readers will return to it again and again to find inspiration and ideas.

Writing Better Books the Agile Way Clemens Lode, 2018-09-22 The craft of writing and marketing a book has changed significantly over the past 10 years. It is no longer enough to just write a good book; you have to write for a specific audience and connect to your readers long before the book hits the shelves. Releasing part of your work early allows you to make adjustments to your book—or even discard your project entirely in order to invest your time into a better book idea. Using modern project management methods, you can organize your work into individual steps (user stories), and reuse them to market your book. Organizing the book into logical sections helps you to create preview materials for blog posts or newsletters. In addition, this will ensure that you make steady progress, avoid getting lost in the details and achieve high quality consistently throughout your book. --- Do you recognize yourself in one of these people? This book is for Peter. - First-time author. - Has a complete script, had a friend look at it, and now wants to publish it. - Might need (unsolicited) advice to properly edit it instead of just going through a self-edit. - Needs to be reminded about the difficulties of selling a book. Has no idea about marketing. - Has not worked with an editor. - Creates his own book covers. - Would benefit from a pep talk. This book is for Mary. - Writes novels in Word but now wants to write a non-fiction book. - Undecided about what tools to use. - Works with an editor, but she and her editor have no real work structure. - Does not know how to market, find market niches, etc. Her past successes were random, and she never knew if her latest novel would sell or not. This book is for John. - Professional editor seeking to expand his services from merely editing Word files to helping release books online. - Also is looking for better project management techniques to help guide an author along the way. - Often works in scientific fields and thus has to manage a lot of bibliographical references. - Spends lots of time indexing books. - Is OK with a LaTeX template but seeks to get a head start by making adjustments to it. This book is for George. - LaTeX expert who wants to publish his work as an e-book. - Needs basic direction and then figures out the rest on his own. - Plans to do a series with a

glossary and often needs to reuse blocks of text. - Needs some help in terms of book design, polishing, and graphics. - Loves to share work and collaborate with others. This book is for Tina. - Professional self-publisher who is seeking additional ideas to improve her publishing process. - Looks for ways to establish herself as a brand and create a network of readers. This book is for Clara. - Wants to write a book about her profession in order to establish herself as an expert but has no idea where to start. --- Table of Contents: - Great Expectations - Incorporate Books into Your Professional Career - Starting a New Book - What to Keep and What to Remove - Selecting Personas - How to Organize Your Ideas - How to Organize Your Ideas (Fiction Books) - The Rules of Your Book - How to Optimize the Work Process - How to Get Early Feedback from Readers - How We Can Help with Project Management
