Adventures in Authentic Learning Kristin Harrington,2022-08-17 This insider's guide from a seasoned technology coach provides classroom teachers with ideas and strategies to help students develop real-world projects to support authentic learning. Not every teacher has a dedicated coach who can support them in the classroom. Even those who do can benefit from additional ideas and support from a seasoned coach. Written by an experienced instructional technologist, this book is designed to help fill this role, showing teachers how to empower students to take charge of their own learning and provide creative and authentic opportunities for students to demonstrate their knowledge through projects. With this book, teachers will get the guidance they need to help students engage in learning experiences that allow them to reflect on their level of knowledge and what they need to learn, while exploring topics that correspond with their interests. Instead of providing text-based slideshow presentations that students read off a screen, teachers will learn to guide students in creating tutorial videos, providing peer reviews, curating their own resources and participating in debates. The book: • Shows how to take the fear out of edtech projects and presentations, while helping educators solve the problem of finding time to develop and manage authentic projects. • Offers a blueprint for implementing high-quality strategies and lesson ideas in classes, with a plethora of practical resources to inspire students. • Demonstrates the importance of pedagogy before tech, with some activities highlighting a blend of hands-on learning and technology. • Aligns projects to the ISTE Standards, providing a road map for creating valuable opportunities to help students become successful lifelong learners. • Includes at least three project lesson plans in every chapter, with adaptations for brick-and-mortar and online learning; as well as templates and student examples. For those just beginning to implement projects in their classroom, this book provides a framework for getting started. For those who have been incorporating student projects successfully for years, this book provides fresh ideas and strategies to help students further develop as creative communicators.

apps and tech tools that support the Common Core Step-by-step guidelines to breaking down a Common Core standard for your grade and subject Teacher-tested, lesson ideas and teaching strategies Replicable resources, including prewriting activities and writing templates Real-life examples You don't need to be in a 1:1 school to do amazing things with technology. With just a few devices, you can engage a whole class! Delve into the Common Core ELA standards by having students experiment creatively with the tech tools at hand for a more meaningful and resonant learning experience. The book contains a tremendous collection of actionable ideas that can be seamlessly implemented to make a difference in all aspects of the classroom. A must-own guide that will surely be a teacher's go-to resource to help bring the standards to life. Adam Bellow, Founder of eduTecher / eduClipper Plainview, New York Catlin Tucker provides great ideas for student use of technology tools that cross the curriculum areas and allow the students to showcase their mastery of content. Students will love how the traditional classroom assessments are transformed! Kathy Schrock, Educational Technologist, Adjunct Instructor Wilkes University, PA

Inclusive Learning 365 Christopher Bugaj,Karen Janowski,Mike Marotta,Beth Poss,2022-08-03 Designed to be read one day – and page – at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes: • Explanation of how to use the strategy to design inclusive educational experiences. • Examples of tools that can be used to implement the strategy. • Alternative ways to use the strategy to extend student learning. • Images illustrating the strategy or tool. • Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources. The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

The Maker Playbook Caroline Haebig,2022-08-15 For School Leaders and K-12 Educators Get concrete strategies for designing and implementing cultural and instructional supports for maker learning, and equipping makerspaces to model universal design for learning (UDL) in action. School leaders and classroom teachers alike are looking for ways to integrate maker learning into their work in meaningful ways, but they simply don't have the time, capacity or resources to review, synthesize or adapt existing models into their own school systems. The Maker Playbook offers a vision and the tools needed to streamline the process, including high-impact strategies you can put directly into action to foster an inclusive maker learning environment. In these pages, you'll find ready-to-use strategies and resources to guide learners in the design thinking maker learning process. With the Universal Design for Learning (UDL) Guidelines as a basis, you'll get ideas for helping all students learn, and guidance for developing the scaffolding to help all learners reach levels of higher-order thinking and engagement. The book: • Offers strategies that can be implemented on a personalized and systemic level to build a maker learning culture and program from the ground up. • Highlights "Go Remote" tips with each strategy to assist you in implementing the ideas in a virtual environment. • Includes recommendations for prioritizing and choosing from the strategies provided to help with planning and implementation. • Offers resources for engagement, representation, action and expression to improve accessibility and boost students' executive functioning skills. • Includes QR codes and links to digital versions and templates for scaffolding learning to help you jump into action. Whether your school system has begun this journey and is looking for ways to enhance established maker learning and makerspaces or is ready to start laying the foundation for providing maker learning experiences for all learners, this book is designed to help educators make maker learning more accessible for all.

Handbook of Research on Teacher Practices for Diverse Writing Instruction Hodges, Tracey S.,2022-05-20 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in

use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians.
