Act Like It's Your Business Jonathan Flom,2013-07-18 Many actors treat their profession as a purely artistic endeavor, rarely conceding that there is more to making a living than simply showing up on stage or in front of a camera. By refusing to seriously acknowledge that self-promotion is vital to their livelihoods, many performers can get quickly discouraged by the vicious circle of audition and rejection. However, with a little foresight and planning, actors can learn how to become their own best advocates for a career in the business of show. In Act Like It's Your Business:Branding and Marketing Strategies for Actors, Jonathan Flom helps actors and others in the arts understand the power of branding. This guide walks the reader through the process of creating a personal brand for a small business and then marketing that brand and broadcasting it through every step of the process—from choosing clothing, arranging headshots, and designing resumes to selecting a repertoire, building a website, obtaining business cards, and networking. Flom also offers advice on such real-world issues as

goal-setting, finances, contracts, and day jobs and provides insight and guidance on how to approach agents, auditions, and casting directors. A book of empowerment meant to shift the balance of control to actors themselves, *Act Like It's Your Business* is aimed at professional performers as well as students who are getting ready to transition from college to career. Structured logically and step by step, this accessible guide will become the standard for nearly anyone hoping to build an enduring career in the performing arts.

Free and Easy Website Design for Museums and Historic Sites Kelsey J. S. Ransick, 2015-12-16 Museums and historic sites faced with small budgets and staff can find it intimidating to redesign or create a website from scratch. Concerns over resources make coding and designing (or hiring someone to do so) daunting and expensive. It does not have to be so. Content creation is inescapable when making a website, but designing and constructing a unique website can be as simple as taking an afternoon to use a color chart to pick a color scheme and paste in text from a Word document. All of the tools discussed in the book are free at the base level, and some offer upgrade packages with even more features. The advice and techniques are all created with an eye to making websites work for smaller institutions with limited budgets and timeframes. Every museum professional has come across issues when adapting general software for an institution's specific needs, and the information in this book will anticipate some of these needs by offering easy-to-implement workarounds and information on related software or services that integrate with each website. Features include: Howto guides for Wix, Weebly, WordPress, and Google Sites Detailed comparisons of WYSIWYG (What You See Is What You Get) editors by cost, features, and ease of use so that you can easily identify which platforms meet your needs Mythbusting of common website and computer assumptions Step by step content and design planning guide Basic HTML coding tricks and tips for the slightly more advanced users (or those who want to become so) • A free companion Web site includes links to online resources, ongoing updates to this book to keep it current, and links to other free online tools and software. Do As I Say, Not As I Did Michael N. Marcus, 2015-07-08 LAUGH & LEARN This bestselling book is a collection of amusing anecdotes and useful advice on a wide range of subjects: money, relationships, parenting, business, work, cars, food & drink, life & death, education, health, technology, media, aging, time, animals, baseball, sailing, sex, writing & publishing and law. The book is the sad—and also humorous and helpful—story of what the author did wrong over a lifetime and what he learned from his mistakes, plus what he learned from observing other people, companies, animals and events. Marcus often fantasizes about traveling back in time to warn himself not to make stupid mistakes. He says, The ten-, twenty- and sixty-year-old me might have ignored the advice of parents, teachers, doctors and accountants—but not the advice of me. If I talk to myself I have to listen. While technology will not yet allow me to go back and talk to myself, I can warn and advise anyone else who's willing to pay attention. That's why I wrote this book. And maybe by looking back I can influence my own future.
