Increase your income, work when and how you want, get your clients get incredible results..... and live your desired lifestyle. The Seven Figure Agency is designed to solve these issues you may be experiencing such as: * Too many agencies hit an income ceiling, and never make the kind of money (or the kind of impact) that they are capable of. They get stuck at one of the 3 plateaus: Startup, Struggle or even Success * Most agencies blame themselves, and try to work on their MINDSET -- But nothing changes because it's not your mindset that's the problem. It's the MODEL that needs to change. * The model that you bought into when you started your agency business is completely unscalable (Manual prospecting to get a few leads, chasing prospects down rather than getting them to come to you... and living off of project revenue so there's never consistent income or time for you). * For the last 5 years, the author has been working with a select group of agencies, taking them from Struggle to Success, Scale and Significance. Josh Nelson has a very new approach and he shares the very best of what is working in his business & for the agencies he works with to build million dollar agencies. This book is essential reading for agencies of all types and experience-levels and is of particular value for anyone looking to start a digital marketing agency to short cut growing pains and accelerate their growth to Seven Figures & Beyond. Forget the old concept of a general, digital marketing agency that takes years to establish - there's no need to wait when you have The Seven Figure Agency Roadmap. Whether your dream is to control your schedule or earn six figures in a month, The Seven Figure Agency Roadmap is your manual. This set of turn-by-turn directions to building a digital agency teaches: * How Josh went from virtually bankrupt to running a hypergrowth agency that made the Inc 5000 list of fastest growing companies in the Untied States 4 years in a row * How to build the team that will manage the day-to-day

operations * How top agency owners grow to seven figures within a year * How to add \$5,000 in monthly recurring revenue to your agency every single month * How to rapidly establish authority in any niche, so clients ask to work with you When you purchase the book you get access to a workbook that help you put the ideas into action: * Multiple case studies & long form interviews with members of Seven Figure Agency Coaching who have grown their revenue to seven figures, hired teams to replace themselves, or sold their agencies for a nice profit * Josh's templates you can copy for setting goals, designing your marketing, and tracking performance * How the Seven Figure Agency principles create a life shaped to your goals

Your Money, Your Goals Consumer Financial Consumer Financial Protection Bureau,2015-03-18 Welcome to the Consumer Financial Protection Bureau's Your Money, Your Goals: A financial empowerment toolkit for social services

programs! If you're reading this, you are probably a case manager, or you work with case managers. Finances affect nearly every aspect of life in the United States. But many people feel overwhelmed by their financial situations, and they don't know where to go for help. As a case manager, you're in a unique position to provide that help. Clients already know you and trust you, and in many cases, they're already sharing financial and other personal information with you. The financial stresses your clients face may interfere with their progress toward other goals, and providing financial empowerment information and tools is a natural extension of what you are already doing. What is financial empowerment and how is it different from financial education or financial literacy? Financial education is a strategy that provides people with financial knowledge, skills, and resources so they can get, manage, and use their money to achieve their goals. Financial education is about building an individual's knowledge, skills, and capacity to use resources and tools, including financial products and services. Financial education leads to financial literacy. Financial empowerment includes financial education and financial literacy, but it is focused both on building the ability of individuals to manage money and use financial services and on providing access to products that work for them. Financially empowered individuals are informed and skilled; they know where to get help with their financial challenges. This sense of empowerment can build confidence that they can effectively use their financial knowledge, skills, and resources to reach their goals. We designed this toolkit to help you help your clients become financially empowered consumers. This financial empowerment toolkit is different from a financial education curriculum. With a curriculum, you are generally expected to work through most or all of the material in the order presented to achieve a specific set of objectives. This toolkit is a collection of important financial empowerment information and tools you can access as needed based on the client's goals. In other words, the aim is not to cover all of the information and tools in the toolkit - it is to identify and use the information and tools that are best suited to help your clients reach their goals.

Flip the Script Oren Klaff, 2019-08-13 THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say yes (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to

sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.
