Implementing Virtual Design and Construction using BIM Lennart Andersson, Kyla Farrell, Oleg Moshkovich, Cheryle Cranbourne, 2016-04-14 Implementing Virtual Design and Construction using BIM outlines the team structure, software and production ecosystem needed for an effective Virtual Design and Construction (VDC) process through current real world case studies of projects both in development and under construction. It provides the reader with a better understanding of the successful implementation of VDC and Building Information Modeling (BIM), and the benefits to the project team throughout the design and construction process. Online animations, interviews with practitioners, and downloadable templates, forms and files make this an interactive and highly engaging way to learn a crucial set of skills. While keeping up with current industry practice is a minimum requirement, this book goes further by helping you prepare for the next level of virtual design and construction. This is essential reading for project managers, construction managers, architects, design managers, and anybody with a role in BIM or virtual construction.

Scary Close Donald Miller, 2015-02-10 When it comes to authenticity, is being fully yourself always worth the risk? From the author of Blue Like Jazz comes New York Times bestseller Scary Close, Donald Miller's journey of uncovering the keys to a healthy relationship and discovering that they're also at the heart of building a healthy family, a successful career, and a

trusted community of friends. After decades of failed relationships and painful drama, Miller decided that he'd had enough. Trying to impress people wasn't helping him truly connect with anyone--and neither was pretending to be someone he wasn't. He'd built himself a life of public isolation, but he dreamed of having a life defined by meaningful relationships instead. At 40-years-old, he made a scary decision: he was going to be his true self no matter what it might cost. Scary Close tells the story of Miller's difficult choice to impress fewer people and connect with even more. It's about the importance of knocking down old walls to finally experience the freedom that comes when we stop playing a part and start being fully ourselves. In Scary Close, Miller shares everything he's learned firsthand about how to: Deconstruct the old habits that no longer serve us Overcome the desire to please the people around us Always tell the truth, even when it's hard Find satisfaction in a daily portion of real love Risk being fully known in order to deeply love and be loved Apply these lessons to your everyday life If you're ready to drop the act and find true, life-changing intimacy, it's time to get Scary Close.

Why buy a book you can download for free? We print this book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the latest version from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these large documents as a service so you don't have to. The books are compact, tightly-bound, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. Execution Larry Bossidy, Ram Charan, Charles Burck, 2009-11-10 #1 NEW YORK TIMES BESTSELLER • More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: • Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. • Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. • Governments will take on new roles in their national economies,

some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. • Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a “vision” and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.
