

how does this happen in the places we hold dear—the home, workplace, and in our communities? We often feel overworked and overrun, defeated and discouraged. The world says be productive so that you can get all you can out of this life. The Bible says be productive so you can gain more of the next life. In *Redeeming Productivity*, author Reagan Rose explores how God's glory is the purpose for which He planted us. And he shows how productivity must be firmly rooted in the gospel. Only through our connection to Christ—the True Vine—are we empowered to produce good fruit. This book shows how we can maintain the vitality of that connection through simple, life-giving disciplines. Readers will discover manageable applications like giving God the first fruits of our days. Additionally, Reagan discusses how our perspective on suffering is transformed as we see trials as God's pruning for greater productivity.

How to Market a University Teresa Flannery,2021-01-12 How can universities implement strategic integrated marketing to effectively build and communicate their value? At a time of declining public support, a shrinking pipeline of traditional college-bound students, and a steady rise in tuition and discount rates, higher education leaders have never been under more pressure. How can they ensure steady or growing enrollments while cultivating greater philanthropic support, increasing research funding, and diversifying revenue streams? In *How to Market a University*, Teresa M. Flannery argues

that institutions can meet all of these goals by implementing strategic integrated marketing in ways that are consistent with academic culture and university values. Flannery provides a road map for college leaders who want to learn how to build value—both in terms of revenue and reputation—by differentiating from competitors and developing personalized, supportive, and long-lasting relationships with stakeholders. Defining marketing while identifying its purposes in the context of higher education, Flannery draws on nonprofit marketing scholarship, the expertise of leading higher education marketing practitioners and administrators, and her own experiences over two decades at two different institutions. She teaches readers how to • set up their marketing leadership for success • find or build the necessary organizational capacity • set a firm foundation through market research • establish a differentiated value proposition and strong brand strategy • encourage enterprise-wide integration of marketing and communications • consider technical and resource requirements to succeed in digital marketing • develop appropriate and rigorous measurement • plan for appropriate investment • anticipate and prepare for future trends This practical guide reveals how to cultivate student, alumni, donor, and partner loyalty through strategic marketing. How to Market a University offers leaders and their CMOs the language, examples, and even questions they should discuss and answer in order to build or refine their marketing strategy.
