Mainardi, 2016-01-12 How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In *Strategy That Works*, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies: • Commit to what they do best instead of chasing multiple opportunities • Build their own unique winning capabilities instead of copying others • Put their culture to work instead of struggling to change it • Invest where it matters instead of going lean across the board • Shape the future instead of reacting to it Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.

**The Purchasing Chessboard** Christian Schuh,Joseph L. Raudabaugh,Robert Kromoser,Michael F. Strohmer,Alenka Triplat,2011-11-27 The approach used on a given spend item should largely depend on the balance between supply power and demand power. That is the logic behind the bestselling *Purchasing Chessboard*®, used by hundreds of corporations

worldwide to reduce costs and increase value with suppliers. The 64 squares in the Purchasing Chessboard provide a rich reservoir of methods that can be applied either individually or combined. And because many of these methods are not customarily used by procurement, the Purchasing Chessboard is also the perfect tool for helping buyers to think and act outside the box and find new solutions. A well-proven concept that works across all industries and all categories in any given situation, it is little wonder that business leaders and procurement professionals alike are excited by, and enjoy strategizing around, the Purchasing Chessboard. This second edition of The Purchasing Chessboard addresses the new realities of a highly volatile economic environment and describes the many—sometimes surprising—ways in which the Purchasing Chessboard is being used in today's business world. Yet despite all of the great achievements of procurement executives and their teams, they do not always receive the recognition they deserve. In response, the authors have developed and outlined within the book an unequivocal approach to measure procurement's impact on a company's performance—Return on Supply Management Assets (ROSMA®).

*The Peter Principle* Dr. Laurence J. Peter, Raymond Hull, 2014-04-01 The classic #1 New York Times bestseller that answers the age-old question Why is incompetence so maddeningly rampant and so vexingly triumphant? The Peter Principle, the eponymous law Dr. Laurence J. Peter coined, explains that everyone in a hierarchy—from the office intern to the CEO, from the low-level civil servant to a nation's president—will inevitably rise to his or her level of incompetence. Dr. Peter explains why incompetence is at the root of everything we endeavor to do—why schools bestow ignorance, why governments condone anarchy, why courts dispense injustice, why prosperity causes unhappiness, and why utopian plans never generate utopias. With the wit of Mark Twain, the psychological acuity of Sigmund Freud, and the theoretical impact of Isaac Newton, Dr. Laurence J. Peter and Raymond Hull's *The Peter Principle* brilliantly explains how incompetence and its accompanying symptoms, syndromes, and remedies define the world and the work we do in it.

**The Discipline of Market Leaders** Michael Treacy, Fred Wiersema, 2007-03-20 The classic bestseller outlining tactics for any business striving to achieve market dominance What does your company do better than anyone else? What unique value do you provide to your customers? How will you increase that value next year? Drawing on in-depth studies and interviews with the top CEOs in the country, renowned business strategists Michael Treacy and Fred Wiersema reveal that successful companies do not attempt to be everything to everyone. Instead, they win customers by mastering one of three value disciplines: the highest quality products, the lowest prices, or the best customer experiences. From FedEx to Walmart, the companies that relentlessly focused on a single discipline not only thrived but dominated their industries, while once powerful corporations that didn't get the message, from Kodak to IBM, faltered. Presented in disarmingly simple and provocative terms, *The Discipline of Market Leaders* shows what it takes to become a leader in your market, and stay there, in an ever more sophisticated and demanding world.
