Lovability Brian de Haaff, 2017-04-25 Love is the surprising emotion that company builders cannot afford to ignore. Genuine, heartfelt devotion and loyalty from customers — yes, love — is what propels a select few companies ahead. Think about the products and companies that you really care about and how they make you feel. You do not merely like those products, you adore them. Consider your own emotions and a key insight is revealed: Love is central to business. Nobody talks about it, but it is obvious in hindsight. *Lovability: How to Build a Business That People Love and Be Happy Doing It* shares what Silicon Valley-based author and Aha! CEO Brian de Haaff knows from a career of founding successful technology companies and creating award-winning products. He reveals the secret to the phenomenal growth of Aha! and the engine that powers lasting customer devotion — a set of principles that he pioneered and named The Responsive Method. *Lovability* provides valuable lessons and actionable steps for product and company builders everywhere, including:

- Why you should rethink everything you know about building a business
- What a product really is
- The magic of finding what your customers truly desire
- How to turn business strategy and product roadmaps into customer love
- Why you should chase company value, not valuation
- Surveys to measure your company's lovability

Brian de Haaff has spent the last 20 years focused on business strategy, product management, and bringing disruptive technologies to market. And in preparation for writing this book, he interviewed well-known startup founders, product managers, executives, and CEOs at hundreds of name brand and agile organizations. Their experiences, along with headline-grabbing case studies (both inspiring successes and cautionary tales), will help readers discover how to build something that matters. Much has been written about how entrepreneurs build innovative products and successful businesses, but the author's message is original and refreshing. He convincingly explains that there is a better path forward — a people-first way grounded in love. In a business world that has increasingly emphasized hype over substance and get-big-at-any-cost thinking over profitable and sustainable growth, it's time for a new recipe for company success. Insightful, thought-provoking, and sometimes controversial, *Lovability* is the book that you turn to when you know there has to be a better way.

Grow Your Business with Cold Emails Jeremy Chatelaine, 2015-06-21 Cold email is how I started my business. I originally used it to get interviews to gain knowledge on a particular market, then to get feedback on what I was building and finally to get demo calls to gain new customers as well as expand my network as a founder. It's what made my business profitable, so I know first hand that it can be a really lucrative channel when executed properly. The problem is what most people tell about cold email on the Internet is highly subject to the survivorship bias (meaning it worked for them, failing to realize that what really made things work was actually something else), often outdated regarding what works in 2015, at best grossly inaccurate (revealing only half of the story, or tested with just 50 emails), or worse just plain wrong and totally misleading. So be ready for a ride because all those fancy posts you read on the Internet on cold emails won't account for a fraction of what you'll learn in this book. For example: - I'll let you know about the number 1 reason why cold emails fail or succeed (based on real data after analyzing both winners and losers). - I'll explain why almost everyone is wrong in the way they build

their cold email campaigns and how to fix this easily. - I'll tell you about every possible ways to build your prospect list - I'll show you how to setup up cold emails so you can get people thanking you for your emails and perseverance while not even spending a second on it. - I'll share with you 5 email sequences built for different purposes and all performing at more than 50% reply rate in 2015. And many more things that will give you all the tools you need to crush it with your cold email campaign.
