Slides for Students Gary D. Fisk, 2018-10-16 300 million powerpoint presentations are given daily, yet there is a disconnect between the amazing technology of powerpoint and a mediocre student learning experience. To unleash the full potential of powerpoint presentations, we must do a better job of creating presentations that fit the educational needs of students. Slides for Students does just that. Slides for Students is an open and honest discussion about powerpoint in the classroom. A need exists for thoughtfully designed and implemented classroom instruction that focuses on the learner rather than on the technology. This book was written to translate academic research findings into practical suggestions about powerpoint that educators can use. Divided into two parts, Slides for Students discusses the history of powerpoint, explores academic studies on the topic, and demonstrates how to design slides to best suit educational needs and engage with students to avoid the dreaded death by powerpoint.

Egyptian Gods & Goddesses Britannica Educational Publishing, 2014-01-01 Gods and goddesses—in human, animal, and other forms—were central to the ancient Egyptian way of life. Identified with the natural world, daily living, and the afterlife,

they maintained order and prevented chaos from permeating the human world. The figures documented in ancient hieroglyphics are given dimension in this absorbing volume, which examines the characteristics and significance of many of the Egyptian gods and goddesses and also looks at related topics such as ancient symbols and the influence of Egyptian mythology on other cultures and belief systems.

The Curse of Beauty Lauren Lee Merewether,2022-02-15 Before the Muses spoke of Medusa, a woman inspired the myth. In a time of political turmoil and shifting power in Ancient Greece, Thais, daughter of the Tiryns chieftain, navigates a treacherous landscape filled with danger, betrayal, unexpected love, and shallow alliances. When King Oceanus arrives with his army, intent on seizing control of Tiryns, Thais finds herself torn between her father's desire for peace and the council's thirst for war. But even as the city faces a threat from without, the greatest danger may lie within, as long-held secrets and hidden agendas threaten to tear Tiryns apart. Desperate to end the conflict, Thais strikes a deal with the enemy, setting in motion a chain of events that will change the course of history and test the limits of her strength, both in love and courage. Perfect for fans of epic historical sagas, slow-burn romance, and mythic retellings, this standalone installment of the Ancient Legends series offers a compelling and imaginative take on the historical roots of Greek mythology's most enduring myths. The Oxford Handbook of Egyptian Epigraphy and Palaeography Vanessa Davies,Dimitri Laboury,2020-02-28 The unique relationship between word and image in ancient Egypt is a defining feature of that ancient culture's records. All hieroglyphic texts are composed of images, and large-scale figural imagery in temples and tombs is often accompanied by texts. Epigraphy and palaeography are two distinct, but closely related, ways of recording, analyzing, and interpreting texts and images. This Handbook stresses technical issues about recording text and art and interpretive questions about what we do with those records and why we do it. It offers readers three key things: a diachronic perspective, covering all ancient Egyptian scripts from prehistoric Egypt through the Coptic era (fourth millennium BCE-first half of first millennium CE), a look at recording techniques that considers the past, present, and future, and a focus on the experiences of colleagues. The diachronic perspective illustrates the range of techniques used to record different phases of writing in different media. The

consideration of past, present, and future techniques allows readers to understand and assess why epigraphy and palaeography is or was done in a particular manner by linking the aims of a particular effort with the technique chosen to reach those aims. The choice of techniques is a matter of goals and the records' work circumstances, an inevitable consequence of epigraphy being a double projection: geometrical, transcribing in two dimensions an object that exists physically in three; and mental, an interpretation, with an inevitable selection among the object's defining characteristics. The experiences of colleagues provide a range of perspectives and opinions about issues such as techniques of recording, challenges faced in the field, and ways of reading and interpreting text and image. These accounts are interesting and instructive stories of innovation in the face of scientific conundrum.

Human Dimension and Interior Space Julius Panero, Martin Zelnik, 2014-01-21 The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With Human Dimension and Interior Space, these standards are now accessible to all designers of interior environments.

Harem Years Huda Shaarawi, 2015-04-03 A firsthand account of the private world of a harem in colonial Cairo—by a groundbreaking Egyptian feminist who helped liberate countless women. In this compelling memoir, Shaarawi recalls her childhood and early adult life in the seclusion of an upper-class Egyptian household, including her marriage at age thirteen. Her subsequent separation from her husband gave her time for an extended formal education, as well as an unexpected taste of independence. Shaarawi's feminist activism grew, along with her involvement in Egypt's nationalist struggle, culminating in 1923 when she publicly removed her veil in a Cairo railroad station, a daring act of defiance. In this fascinating account of a true original feminist, readers are offered a glimpse into a world rarely seen by westerners, and insight into a woman who would not be kept as property or a second-class citizen.
