A Meeting Planner's Guide to Catered Events Patti J. Shock, John M. Stefanelli, 2008-10-20 Food and beverage is the

largest portion of a meeting budget, but most meeting and event planners have no formal background in purchasing and managing this expense. This guide helps event, meeting, and convention planners save money, negotiate contracts, deal with catering managers, and successfully manage the food and beverage aspect of their event. Covering everything from styles of service to on-premise and off-premise considerations to food and beverage contract negotiation, this book is a comprehensive and accessible reference for event planners and students.

Hack the Experience Ryan Dewey,2018 This is a book for artists, but it is also for curators, art school faculty, landscape architects, gallerists, archivists, post-disciplinary multi-hyphenates, museum program staff, and anyone who wants to know about the ways art and cognitive science come together to engage an audience.--Cover.

Events as a Strategic Marketing Tool, 2nd Edition Dorothe Gerritsen,Ronald van Olderen,2020-03-19 Fully updated and with new case studies throughout, this second edition reviews the way organizations use events to connect with their visitors. It covers the development of the experience economy, the steps from strategy to concept, event design and touchpoints. It also considers the areas of marketing within which experiences play a role, such as branding, relationship marketing and city marketing. Concluding with a chapter on effect measurement and evaluation, and including a wealth of internationally relevant examples, the book gives a thorough insight into the way events can help reach strategic marketing goals.

Events Exposed Lena Malouf,2012-01-03 Author Lena Malouf is a renowned expert in the special events industry. She has won countless accolades for her work, including a recent Lifetime Achievement Award from The Special Event, and has served in major leadership positions in several industry organizations, including as International President of the International Special Events Society and an advisory board member for The Special Event. This book will feature straightforward advice on operating a successful special events business, gleaned from Malouf's 40+ years in the event planning industry. The book will include guidance on developing a strategy, identifying potential clients, developing proposals, building an event budget, coordinating with contractors, and much more. And beyond the business components, the book will also include a section on designing successful events, including tabletop, ceiling, and wall decor, while a chapter on developing thematic concepts will illustrate how an event planner can successfully bring a theme to life. With full-color photos in two 8-page inserts and practical checklists throughout, this will be a must-have reference for industry professionals, special events students, and aspiring event planning professionals everywhere.

Catering and Convention Service Survival Guide in Hotels and Casinos Lisa Lynn Backus,Patti J. Shock,2017-05-08
The role of the catering and convention service manager (CCSM) is diverse and must juggle event components. This book imparts authors' in-depth knowledge of what a CCSM does, what emotional and technical skills are required, how to relate to planners, and execute contracts. It covers communication, food and beverage information, banquet service styles, menu planning, and event space setup standards. Included are best practices of working with nonprofits, social, wedding, association, corporate, VIP, celebrity events, and tradeshow. The authors also discuss how this industry operates within casino properties. Then, the revenue upsell opportunities for all stakeholders, industry accounting, and the paperwork that pulls it all together.

Intelligent Systems in Production Engineering and Maintenance Anna Burduk,Edward Chlebus,Tomasz Nowakowski,Agnieszka Tubis,2018-07-31
The book presents a collection of 103 peer-reviewed articles from the Second International Conference on Intelligent Systems in Production Engineering and Maintenance (ISPEM 2018). The conference was organized by the Faculty of Mechanical Engineering and CAMT (Centre for Advanced Manufacturing Technologies), Wrocław University of Science and Technology and was held in Wrocław (Poland) on 17-18 September 2018. The conferences topics included the possibility of using a wide range of intelligent methods in production engineering, presenting and discussing new solutions for innovative plants, research findings and case studies demonstrating advances in production and maintenance from the point of view of Industry 4.0 - particularly applications of intelligent systems, methods and tools in production engineering, maintenance, logistics, quality management, information systems and product development. The book is divided into two parts: the first includes papers related to intelligent systems in production engineering, while the second is dedicated to special sessions focusing on: 1. Computer Aided methods in Production Engineering 2. Mining 4.0 and Intelligent Mining Transportation 3. Modelling and Simulation of Production Processes 4. Multi-Faceted Modelling of Networks and Processes 5. Product Design and Product Manufacturing in Industry 4.0 This book is an excellent source of information for scientists in the field of manufacturing engineering and for top managers in production enterprises.

Readying a Company for a Catastrophic Event Paul C. Constant Jr.,Paul C. Constant,2010
Disasters are possible -- maybe inevitable. Although their consequences may be uncontrollable, the effects are, to some extent, and in many cases, quite controllable, if proper attention is given to planning for a disastrous event. An organization cannot necessarily depend on help when a disaster strikes. It must be prepared to tackle the disaster on its own. This is especially true if the event is

area wide, regional, or national in scope. This book essentially is a stand-alone publication that provides the how to ready an organization for a catastrophic or lesser event. It is a template for an organization to internally develop in a cost-effective manner a plan to cover prevention techniques to minimize potentially adverse consequences from a disastrous event; how to prepare for an event, such as, planning, training personnel, and acquiring and maintaining the supplies and information that will be crucial in responding to and handling a crisis event, as well as recovering from the event. Strategic methods are given on these processes, whether the event is natural, technological, or man-made. The disaster management system is defined through its seven principal tools. Numerous examples are given to facilitate a better understanding of the disaster management system. Required teams and task forces are identified, as well as internal and external information that may be needed, Guidelines are given for determining an organization's critical assets; determining their vulnerability and rating and ranking critical assets. Other areas covered include pre- and post-financial issues; impact determination; fiscal analyses and decisions needed to be made (pertinent questions to be asked) in order to make prudent decisions); organizational areas of concern (legal, security, HR, business, etc.); incident and crises responses to be undertaken; plans to be developed; training of personnel; recovery and closeout operations; tabletop exercise scenarios; and much more.

The Kaizen Event Planner Karen Martin, Mike Osterling, 2017-07-27 Kaizen Events are an effective way to train organizations to break unproductive habits and adopt a continuous improvement philosophy while, at the same time, achieve breakthrough performance-level results. Through Kaizen Events, cross-functional teams learn how to make improvements in a methodological way. They learn how to quickly study a process,

Creating a Trading Floor Charles Smith, 2007-02-03 The design and successful implementation of a new and technically ground-breaking trading floor is one of the most challenging and exciting projects a senior IT professional can undertake. Not only must the project arrive faultlessly to time, incorporating some of the most advanced technologies available, but it must do so within a highly regulated environment, complying with international legislation, data security and corporate governance. Creating a Trading Floor, set to become the project manager's bible, draws on the author's vast experience to provide a uniquely authoritative and comprehensive reference source and practical step-by-step guide for project teams undertaking the design and implementation of new trading floors and data centres. Its core premise is that, although language and cultural issues must be addressed, the same rules of engagement, strategies and project management techniques can apply in all of the world's major financial centres - New York, Chicago, London, Frankfurt, Paris, Singapore,

Tokyo and Hong Kong.

Incident Command for EMS Karen Owens, 2012 Whether fire or EMS, career or volunteer, training on the Incident Command System structure is necessary for the most effective incident operation. Integrating the EMS provider into the ICS structure is vital to ensure that ICS positions are filled by the appropriate individuals. Written for EMS supervisors and shift supervisors, paramedics, and lieutenants, Incident Command for EMS looks in detail at the overall ICS structure, specifically the positions related to the EMS provider, and uses scenarios to ensure that readers understand the application of ICS principles for every response, from the single patient to the mass casualty incident.

Special Event Production: The Process Doug Matthews, 2015-08-27 This must-have guide to special event production looks deep behind the scenes of an event and dissects what it is that creates success. It analyses the process - the planning and business aspects - to provide a unique guide to producing a variety of events from weddings to festivals. It explains thoroughly budgeting and resource concerns, planning and cost projections and the role of the well-crafted proposal. This new edition has been significantly updated to include: Three new chapters: Event Design, Information Technology and Sustainability and Event Production. Updated and new case studies from USA, Canada, India, Russia and Malaysia. New Industry Voice feature, including an interview with industry experts from around the world commenting on their experiences of event planning and production. New content on: technology, volunteers, venues and PR and marketing. Enhanced online resources including: PowerPoint lecture slides, checklists, glossaries, additional questions and challenges, web links, sample contract templates, production schedule templates, and evaluation forms. Incorporating pedagogical features, this easy-to-read book is packed with photographs, diagrams, flow charts, checklists, sample forms, and real-life examples. It steps through the whole process from the creativity and proposal at the outset, to budgeting, the contract and risk management with event follow up to conclude. A must have resource for event planners, managers, caterers and students. This text is part two of a two book set - also available is Special Events Production: The Resources (978-1-138-78567-0). This book offers an in-depth guide to the technical aspects of a big event such as lighting and audio systems, visual presentation technology, special effects and temporary outdoor venues.
