Event Planning and Management Ruth Dowson,David Bassett,2018-11-03 Event Planning and Management, second edition, is an ideal resource for those seeking a step by step formula to plan and deliver a successful event. With the vital balance of professional experience behind them, the authors teach the next generation of event planners with unrivalled knowledge, ensuring an effective event process from start to finish. This book delivers practical understanding of the theory

and practice needed to activate each stage of planning, from initial venue selection, budgeting and programme content, to managing stakeholders and sponsors, promotion, risk assessment, safety and post-event evaluation. Fully revised, the second edition of Event Planning and Management expands on managing events on the day, and explores the PR and experiential marketing boom for live brand experiences. Including updated real-world case studies from around the globe, it also features an invaluable toolkit of templates, planning checklists and budget sheets. Accompanied by a host of downloadable resources, this book is the ideal end to end resource for both event planning modules and certifications, plus busy marketing and PR professionals facing the new wave of live brand and customer experiences.

Financial Transaction Manager Technical Overview Craig Bryce,Sean Dunne,Prasad Edlabadkar,Peter McGrath,Sandesh Udupa,IBM Redbooks,2014-03-21 Dramatic forces of change continue to sweep the financial services industry. The age of the empowered customer is here and are changing the way financial products are delivered, sold, and serviced, which are making relationships more complex than ever. The explosion of data and intense competition, which is combined with slow or inconsistent economic conditions, makes it imperative for financial institutions to find new and cost effective ways to increase market share, renew customer trust, and drive profitable growth. In this new business environment, the transaction processing arm of the industry is facing increased pressure to reduce float, better manage liquidity, and provide regulators and clients with increased transparency. At the same time, the industry must effectively manage the risks that are associated with introducing customer-focused and regionalized products and services. Financial Transaction Manager enables the management, orchestration, and monitoring of financial transactions during their processing lifecycle. Financial Transaction Manager provides the capability to integrate and unify financial transactions in various industry formats (including ISO 20022, SWIFT, NACHA, EDIFACT, ANSI X12 and others). By using Financial Transaction Manager, financial institutions gain visibility into message processing, balance financial risk, and facilitate effective performance management. This IBM® Redbooks® publication outlines how Financial Transaction Manager is deployed to realize the benefits of transaction transparency, increase business agility, and allow for innovation that is built on a robust and high-performance environment.

Advances in Cross-Cultural Decision Making Sae Schatz,Mark Hoffman,2016-07-26 This book reports on the latest advances in understanding human cognition and its interplay with various cultural constructs, such as geographical, historical, sociological, and organizational cultures. It addresses researchers, scholars, and industry practitioners from diverse backgrounds, including sociology, linguistics, business, military science, psychology, human factors, neuroscience, and education. The book covers a wealth of topics, such as the analyses of historical events and intercultural competence, commercial applications of social-cultural science, the study of decision-making similarities (and differences) across cultures, Human, Social, Cultural Behavioral (HSCB) modeling and simulation technology, as well as social networks and studies on

group communication. It also reports on real-world case studies relevant to cross-cultural decision making. The book aims at combining neurocognitive studies with studies from other relevant disciplines to develop a more holistic understanding of the decisions that people, groups, and societies make to improve the ability to forecast and plan for the future. The book is based on the AHFE 2016 International Conference on Cross-Cultural Decision Making (CCDM), held on July 27-31, 2016, in Walt Disney World®, Florida, USA.

Spatial Data Handling in Big Data Era Chenghu Zhou,Fenzhen Su,Francis Harvey,Jun Xu,2017-05-04 This proceedings volume introduces recent work on the storage, retrieval and visualization of spatial Big Data, data-intensive geospatial computing and related data quality issues. Further, it addresses traditional topics such as multi-scale spatial data representations, knowledge discovery, space-time modeling, and geological applications. Spatial analysis and data mining are increasingly facing the challenges of Big Data as more and more types of crowd sourcing spatial data are used in GIScience, such as movement trajectories, cellular phone calls, and social networks. In order to effectively manage these massive data collections, new methods and algorithms are called for. The book highlights state-of-the-art advances in the handling and application of spatial data, especially spatial Big Data, offering a cutting-edge reference guide for graduate students, researchers and practitioners in the field of GIScience.
