**Dear Data** Giorgia Lupi, Stefanie Posavec, 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, *Dear Data* celebrates the infinitesimal, incomplete, imperfect, yet exquisitely human details of life, in the words of Maria Popova (*Brain Pickings*), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. *Dear Data* reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book

for designers, artists, correspondents, friends, and lovers everywhere.

**Homo Britannicus** Chris Stringer,2006 Homo Britannicustells the epic history of life in Britain, from man's very first footsteps to the present day. Drawing on all the latest evidence and techniques of investigation, Chris Stringer describes times when Britain was so tropical that man lived alongside hippos and sabre tooth tiger, times so cold we shared this land with reindeer and mammoth, and times colder still when we were forced to flee altogether. This is the first time we have known the full extent of this history- the Ancient Human Occupation of Britain project, led by Chris, has made discoveries that have stunned the world, pushing back the earliest date of arrival to 700,000 years ago. Our ancestors have been fighting a dramatic battle for survival here ever since.

**Creativitree** Tony Matthews,2009-06 In deciding which books and articles to include in this collection, the compiler's rule of thumb was to include family histories whose progenitors and early descendants, at least, could be documented as having Huguenot ancestry. About 700 titles are cited in all, and they are arranged in alphabetical order of the principal family of the genealogy. In each case the citation gives the full title of the work, the author, year and sometimes place of publication, and, in the case of articles from journals, the volume and issue of the periodical.
