This follow-up text expands on its predecessor with wisdom from more than 360 interviews with the world's best editors (including nearly every Oscar winner from the last 30 years). That is why this book compares and contrasts methodologies from a wide array of diverse voices and organizes that information so that it is easily digested and understood. There is no one way to approach editorial problems, so this book allows readers to see multiple solutions from multiple editors. The interviews contained within are carefully curated into topics that are most important to film editors and

those who aspire to become film editors. The questions asked, and the organization of the book, are not merely an academic or theoretical view of the art of editing but rather the practical advice and methodologies of actual working film and TV editors, bringing benefits to both students and professional readers. The book is supplemented by a collection of downloadable online exclusive chapters, which cover additional topics ranging from Choosing the Project to VFX. In addition to the supplementary chapters, access to the full-color, full-resolution images printed in the book—and other exclusive images—is included.
