Welcome to Step 1 of GratiTous' 3-Step Proven Process of Learning FL Studio Students have told me this book has been pivotal in their understanding when it came to actually getting hands-on with the FL Studio software. They were already aware of my favorite keyboard shortcuts, and enabling certain features in FL Studio which DO NOT come default when you first install it! Book Description: FL Studio Beginner's Book by GratiTous When I first started producing music, it was at a time where there were few tutorials to help me jumpstart and accelerate at this craft of music production. I wrote this book to share my fast workflow, favorite keyboard shortcuts, and how to use FL Studio with best practices. FL Studio is an amazing DAW, but at times, can be a bit quirky in how certain tasks are approached. But, FL Studio is not to be taken lightly (being used by MANY famous music producers!) If you're wanting to learn how to use FL Studio, I teach you how to learn faster, where to look and find the information you need, and how to apply these tricks in a real world practice. We break down the Channel Rack, Playlist, Piano Roll, and Mixer, while revealing my favorite options to enable which make music production more enjoyable within Image-Line's software, FL Studio. More topics covered are how audio signal flow works inside FL Studio's mixer with series and parallel processing (to get the perfect mix), different ways you can approach making a beat, and how to get the best performance out of the FL Studio software! Finally, you are shown why creating your own dedicated music production folder is so important if you're wanting to take this endeavor of music production seriously. Missing files and a poor folder structure pull you away from your creativity and focus of learning this software. Beginners and advanced producers alike, come learn how GratiTous uses FL Studio. I've worked with a GRAMMY-Nominated recording artist, and have created many music production video courses! Filled with in-depth descriptions and images, you can learn FL Studio, too! # GratiTous
