Presentation Zen challenges the conventional wisdom of making slide presentations in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Better Posters Zen Faulkes, 2021-05-24 Better posters mean better research. Distilling over a decade of experience from the popular Better Posters blog, Zen Faulkes will help you create a clear and informative conference poster that delivers maximum impact. Academics have used posters to share research for more than five decades, and tens of thousands of posters are presented at conferences every year. Despite the popularity of the format, no in-depth guide has been available on how to create and deliver compelling conference posters. From over-long titles, tiny text and swarms of logos, to bad font choices, chaotic colour schemes and blurry images - it's easy to leave viewers confused about your poster's message. The solution is Better Posters: a comprehensive guide to everything you need to know - from writing a title and submitting an abstract, to designing the poster and finally presenting it in the poster session. Your conference poster will be one of your first research outputs, and the poster session is your first introduction to a professional community. Making a great poster develops the skills to create publications, reports, outreach and teaching materials throughout your career. This book also has material for conference organizers on how to make a better poster session for their attendees.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve

and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

"These Kids Are Out of Control" H. Richard Milner IV,Heather B. Cunningham,Lori Delale-O'Connor,Erika Gold Kestenber,2018-07-18 Today's classrooms reimagined If you're looking for a book on how to control your students, this isn't it! Instead, this is a book on what classroom learning could be if we aspire to co-create more culturally responsive and equitable environments—environments that are safe, affirming, learner-centered, intellectually challenging, and engaging. If we create the kind of places where our students want to be . . . A critically important resource for teachers and administrators alike, *These Kids Are Out of Control* details the specific practices, tools, beliefs, dispositions, and mindsets that are essential to better serving the complex needs of our diverse learners, especially our marginalized students. Gain expert insight on: What it means to be culturally responsive in today's classroom environments, even in schools at large How to decide what to teach, understand the curriculum, build relationships in and outside of school, and assess student development and learning The four best practices for building a classroom culture that is both nurturing and rigorous, and where all students are seen, heard, and respected Alternatives to punitive disciplinary action that too often sustains the cradle-to-prison pipeline Classroom management takes care of itself when you engage students, help them see links and alignment of the curriculum to their lives, build on and from student identity and culture, and recognize the many ways instructional practices can shift. *These Kids Are Out of Control* is your opportunity to get started right away!
