*Leadership is Half the Story* Marc Hurwitz, Samantha Hurwitz, 2015-02-05 Can you imagine a choreographer only training one dancer to lead while his or her partner sits in the lobby staring at the wall? Yet we do this all the time in organizations. Half the partnership is missing. *Leadership is Half the Story* introduces the first model to seamlessly integrate leadership, followership, and partnerships. This research-backed, field-tested book contributes many new ideas and practical advice for everyone in an organization - from CEO to HR director to front-line manager to consultant. All of us lead, not just those with the formal title. All of us follow, not just front-line staff. In great collaborations, one moment we are leading and then we flip to following; in other words, the relationship between leadership and followership is dynamic, context-specific, and ever-evolving. This empowering perspective opens up leadership to everyone, normalizes followership, and enables more productive and innovative collaborations. Candid discussions about both roles allow for better coaching, mentoring, skill development, and interpersonal agility, and result in stronger teams. Marc and Samantha Hurwitz give us a category-busting book that “practically glows with energy and vision,” according to Marshall Goldsmith, executive coach and best-selling author of *What Got You Here Won't Get You There*.

*Document Processing and Retrieval* Qianhong Liu, Peter A. Ng, 2012-12-06 *Document Processing and Retrieval: TEXPROS* focuses on the design and implementation of a personal, customizable office information and document processing system called TEXPROS (a TEXt PROcessing System). TEXPROS is a personal, intelligent office information and document processing system for text-oriented documents. This system supports the storage, classification, categorization, retrieval and reproduction of documents, as well as extracting, browsing, retrieving and synthesizing information from a variety of documents. When using TEXPROS in a multi-user or distributed environment, it requires specific protocols for extracting, storing, transmitting and exchanging information. The authors have used a variety of techniques to implement TEXPROS, such as Object-Oriented Programming, Tcl/Tk, X-Windows, etc. The system can be used for many different purposes in many different applications, such as digital libraries, software documentation and information delivery. Audience: Provides in-depth, state-of-the-art coverage of information processing and retrieval, and documentation for such professionals as database specialists, information systems and software developers, and information providers.

**Developing Self-Confidence in Young Writers** Steve Bowkett, 2017-09-21 How many times as a teacher have you heard the cry 'But I don't know what to write'? This all too familiar fear of the blank page can be overcome by using the wealth of practical suggestions for helping children to feel more confident as they strive to master the complex combination of skills that make up the craft of writing. Steve Bowkett, an experienced author and writer, suggests a two-pronged attack:

giving children a toolkit of techniques for generating and organising ideas of their own, coupled with methods for perceiving themselves as writers - all designed to boost self-esteem and self-confidence. This book will help to motivate children (Primary and Lower Secondary) towards becoming more creative, confident and effective writers - an attitude that will lead to beneficial effects in many other areas of learning too.

**Wireless for the Newton** Julie McKeehan, Neil Rhodes, 1995 Picking up where Programming for the Newton left off, this book teaches the reader how to develop Newton software on the Macintosh. Editing Across Media Ross F. Collins, 2013-02-18 Requirements for professional media editing have undergone enormous technological change. Editors still edit copy. But today they do much more. Mass media editors must demonstrate skills from computerized pagination to social media monitoring, from image manipulation to Search Engine Optimization. The need for editing skills is reaching far beyond traditional journalism and into all areas of mass media, from newspapers to strategic communication. Public relations practitioners are expected to edit. Even advertising creative professionals must edit. And journalists taking on new roles as social media editors need to understand editing at the speed of digital media. This textbook aims to prepare university-level students for these expanded editing roles in an age of convergence. Thirteen authors representing many years of collective media experience examine both traditional editing roles and new editing needs. While many mass media students will not become professional editors, this textbook assumes nearly all will need competent editing knowledge to produce products of professional quality. Editing, the authors believe, remains a bedrock skill for all students who hope to be successful in the mass media. Instructors considering this book for use in a course may request an examination copy here.

You've Been Framed Ray Sclafani, 2015-09-23 Reframe wealth management to achieve sustainable success in financial services You've Been Framed™ is a step-by-step guide for achieving ultimate profitability and sustainability for your financial advisory firm. Whether you're a savvy entrepreneur ready to dominate your competitors, or a more experienced advisor moving toward selling your practice, this guide will help you proactively reframe your business. You'll learn how to grow your pipeline of prospects, win the next generation of clients, and deepen your business so it can thrive without you—leaving you free to pursue what matters to you. Build your business on a holistic foundation of wealth management and assemble the team that will take you to the top as you develop a whole new perspective from which to offer your services. Transform your role from directive advisor to trusted advocate. Completely shift the paradigm, and make yourself the de facto solution to your clients' wealth management issues. Whether it's the firm with which you're affiliated or the types of products and services you offer, you've been framed. As a wealth management advisor, your clients have little understanding of what you

do or why you do it. Even your team may have the wrong idea. This book helps you clarify and demonstrate the value of your knowledge and skills, so you can frame your work on your own terms. Build and showcase your enterprise value Renew client relationships and attract new demographics Become a leader with proven team-building tools Shift your role from advisor to advocate If you haven't effectively led discussions to co-create what your business stands for—and what differentiates it from competitors—you're losing talent, prospects, and business. *You've Been Framed™* gives you the perspective you need to thrive in the new financial environment, and achieve sustainable success.

**Vol. 29: Medium-Format Photography III: Mamiya C3 & C330** Shawn M. Tomlinson, 2018-12-22 There's something odd about twin-lens reflex (TLR) film cameras, but very appealing. I can't really explain it. TLR cameras are bulky, awkward to use and, well, kind-of weird. Still, I love picking one up and taking it out to shoot. Mamiya TLRs comprise a rare line of TLR cameras in that they were the only pro TLR cameras that had interchangeable lenses other than Contaflex. That fact alone made me long for one a long time. When I bought my Yashica Mat EM, there were Mamiya TLR cameras available, but usually at two to three times the cost. Like the other medium-format (MF) cameras - Hasselblad, Bronica, Pentax, etc. - the Mamiyas were far out of reach. That is until around 2003 when photographers were ditching their film cameras, and selling them cheap. They may not be as cheap now, but they're still worth the prices. As I said, shooting with a TLR is an odd experience, but one definitely worth experiencing.

**Interface Support for Creativity, Productivity, and Expression in Computer Graphics** Ursyn, Anna, 2018-10-05 Interfaces within computers, computing, and programming are consistently evolving and continue to be relevant to computer science as it progresses. Advancements in human-computer interactions, their aesthetic appeal, ease of use, and learnability are made possible due to the creation of user interfaces and result in further growth in science, aesthetics, and practical applications. *Interface Support for Creativity, Productivity, and Expression in Computer Graphics* is a collection of innovative research on usability, the apps humans use, and their sensory environment. While highlighting topics such as image datasets, augmented reality, and visual storytelling, this book is ideally designed for researchers, academicians, graphic designers, programmers, software developers, educators, multimedia specialists, and students seeking current research on uniting digital content with the physicality of the device through applications, thus addressing sensory perception.
