Ditch That Textbook Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

**Life Kitchen** Ryan Riley,2020-03-05 'Life Kitchen is a celebration of food' Lauren, Sunderland 'The recipes are just really simple, really easy and delicious' Carolyn, Newcastle 'His book is better than a bunch of flowers because it's going to last forever' Gillian, Sunderland Ryan Riley was just eighteen years old when his mum, Krista, was diagnosed with cancer. He saw first-hand the effect of her treatment but one of the most difficult things he experienced was seeing her lose her ability to enjoy food. Two years after her diagnosis, Ryan's mother died from her illness. In a bid to discover whether there was a way to bring back the pleasure of food, Ryan created Life Kitchen in his mum's memory. It offers free classes to anyone affected by cancer treatment to cook recipes that are designed specifically to overpower the dulling effect of chemotherapy on the taste buds. In Life Kitchen, Ryan shares recipes for dishes that are quick, easy, and unbelievably delicious, whether you are going through cancer treatment or not. With ingenious combinations of ingredients, often using the fifth taste, umami, to heighten and amplify the flavours, this book is bursting with recipes that will reignite the joy of taste and flavour. Recipes include: Carbonara with peas & mint Parmesan cod with salt & vinegar cucumber Roasted harissa salmon with fennel salad Miso white chocolate with frozen berries With an introduction from UCL's taste and flavour expert Professor Barry Smith, this inspiring cookbook focusses on the simple, life-enriching pleasure of eating, for everyone living with cancer and their friends and family too. 'This book is a life changer: this is not gush, but a statement of fact' Nigella Lawson

**Drawdown** Paul Hawken,2017-04-18 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of

practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

**To Pleasure a Prince** Sabrina Jeffries, 2005-03-01 The sizzling and passionate Royal Brotherhood series from the New York Times bestselling author of *Never Seduce a Scoundrel* returns with this sexy story featuring three illegitimate sons of the Prince of Wales and the women who snare them. Beautiful Lady Regina Tremaine has turned down so many suitors that she’s known as *La Belle Dame Sans Merci*. The truth: she won’t marry because she carries a dark secret. She sees no good reason, however, why her brother shouldn’t court the lovely Louisa North—even if the girl’s brother, the notorious “Dragon Viscount,” objects. Marcus North, Viscount Draker—bastard son of the Prince of Wales—is rumored to be a monster who holds women captive in his dark castle to have his way with them. He has been exiled from polite society for years. But when Lady Regina makes a plea on her brother’s behalf, Marcus proposes an outrageous deal: her brother can court Louisa so long as Marcus can court Regina. Can the beauty and the beast survive a proper courtship when the devastatingly improper passion between them threatens to cause the scandal of the century?

**The Writing Revolution** Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it *The Writing Revolution (TWR)* provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as *The Hochman Method*, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, *The Writing Revolution* can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities *The Writing Revolution* is as much a method of teaching content as it is a method of teaching writing. There’s no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to

their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

**The Back of the Napkin (Expanded Edition)** Dan Roam, 2009-12-31 The acclaimed bestseller about visual problem solving—now bigger and better There is no more powerful way to prove that we know something well than to draw a simple picture of it. And there is no more powerful way to see hidden solutions than to pick up a pen and draw out the pieces of our problem. So writes Dan Roam in *The Back of the Napkin*, the international bestseller that proves that a simple drawing on a humble napkin can be more powerful than the slickest PowerPoint presentation. Drawing on twenty years of experience and the latest discoveries in vision science, Roam teaches readers how to clarify any problem or sell any idea using a simple set of tools. He reveals that everyone is born with a talent for visual thinking, even those who swear they can't draw. And he shows how thinking with pictures can help you discover and develop new ideas, solve problems in unexpected ways, and dramatically improve your ability to share your insights. Take Herb Kelleher and Rollin King, who figured out how to beat the traditional hub-and-spoke airlines with a bar napkin and a pen. Three dots to represent Dallas, Houston, and San Antonio. Three arrows to show direct flights. Problem solved, and the picture made it easy to sell Southwest Airlines to investors and customers. Now with more color, bigger pictures, and additional content, this new edition does an even better job of helping you literally see the world in a new way. Join the teachers, project managers, doctors, engineers, assembly-line workers, pilots, football coaches, marine drill instructors, financial analysts, students, parents, and lawyers who have discovered the power of solving problems with pictures.
