**The Art of Asking** Amanda Palmer,2014-11-11 Rock star, crowdfunding pioneer, and TED speaker Amanda Palmer

knows all about asking. Performing as a living statue in a wedding dress, she wordlessly asked thousands of passersby for their dollars. When she became a singer, songwriter, and musician, she was not afraid to ask her audience to support her as she surfed the crowd (and slept on their couches while touring). And when she left her record label to strike out on her own, she asked her fans to support her in making an album, leading to the world's most successful music Kickstarter. Even while Amanda is both celebrated and attacked for her fearlessness in asking for help, she finds that there are important things she cannot ask for—as a musician, as a friend, and as a wife. She learns that she isn't alone in this, that so many people are afraid to ask for help, and it paralyzes their lives and relationships. In this groundbreaking book, she explores these barriers in her own life and in the lives of those around her, and discovers the emotional, philosophical, and practical aspects of The Art of Asking. Part manifesto, part revelation, this is the story of an artist struggling with the new rules of exchange in the twenty-first century, both on and off the Internet. The Art of Asking will inspire readers to rethink their own ideas about asking, giving, art, and love.

**Fair Play: Reese's Book Club** Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh\*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Ageless Nation Michael G. Zey, 2017-07-05 In this intriguing volume, futurist and author Michael G. Zey imagines a time in which technology has stretched human life spans to four hundred years or more. Genetic engineering, cloning, and stem-cell technology will eradicate diseases and allow for nanoscopic repair and maintenance of the body. Smart drugs and caloric restriction programs will largely stop aging and ensure healthy bodies and sharp minds indefinitely. Grounding his speculation in contemporary scientific research, Zey's optimistic vision sees retirement replaced by hiatuses between careers, and leisure time spent in multi-generational homes. Key players in the debate include supporters like Cambridge University scientist Aubrey de Grey, who envisions five-thousand-year life spans, and the radical futurist author Ray Kurzweil, who foresees the merging of humans and computers. Organizations such as the Coalition to Extend Life lobby the government for immortality research funding and find opposition in the President's Council on Bioethics and deep ecologists advocating zero-population growth. Criticizing current environmental trends as anti-progress and anti-human, Zey's own solutions include controversial measures like human control of weather, colonization of outer space, and genetically modifying food. He concludes that the eventuality of a modern Fountain of Youth is closer than we think. Zey's predictions about the future are thoughtful and fascinating.
