Co-Teaching and Technology Marilyn Friend, Brian S. Friedlander, 2016-07-01 With the expansion of co-teaching as a means to improve student outcomes, technology can be an invaluable resource. Co-teachers need to plan collaboratively, jointly implement lesson plans, and cooperatively assess student progress. This reference guide provides practical strategies on how technology can facilitate co-planning, expedite sharing of student data, and streamline many other tasks that ultimately assist in accomplishing co-teaching's goal: improved student outcomes. Whatever your preferred computer platform, co-teachers can apply these strategies and applications to accommodate all learners' needs. Written by the nation's foremost authority on co-teaching, Marilyn Friend, and Brian Friedlander, an expert in the use of instructional and assistive technologies, this handy tool features an overview of co-teaching fundamentals, along with recommendations of over two dozen free and low-cost applications and programs for: Expediting co-planning; Improving communication; Streamlining data collection; Augmenting assessment; Simplifying data analysis; Creating guided notes; Facilitating differentiated instruction; Increasing student engagement; Enhancing note-taking skills; Implementing electronic scaffolding.

Lesson Planning with Purpose Christy McConnell, Bradley Conrad, P. Bruce Uhrmacher, 2020 When teachers and students are both engaged in the educational enterprise, every day has the potential to be transformative. *Lesson Planning with Purpose* takes readers on a journey through many pathways to engaging and meaningful educational experiences. The text first discusses Perceptive Teaching: the belief that teachers must know themselves and their students while cultivating culturally sensitive, safe, and inviting spaces for learning for all students. Next, five unique approaches to lesson planning are explored: behaviorist, constructivist, aesthetic, ecological, and integrated social-emotional learning. Each chapter provides the rationale for the approach, its theoretical background, practical applications, and critiques and considerations. Chapters end with a sample lesson that can be compared across approaches. Book Features: A comprehensive examination of multiple approaches to lesson planning. Guidance for teachers on when to choose various approaches, as well as how they might mix and match and blend ideas. User-friendly lesson plan templates, sample lessons, and discussion questions. An appendix with lesson plan examples written by practicing teachers across content areas and age groups.

The Hybrid Teacher Emma Pass, 2021-07-14 A practical, educational technology resource for educators teaching remotely or in the classroom The most effective hybrid teachers are those that have a vast knowledge of instructional

strategies, technologies, tools, and resources, and can masterfully build meaningful relationships with students in-person and through a screen. The Hybrid Teacher: Using Technology to Teach In-Person and Online will teach educators to leverage the technology they have access to both in their traditional brick-and-mortar classrooms and in remote learning environments, including established online and hybrid schools; emergency response models for pandemics, natural disasters; rural education; and connecting with students who can't make it to school. Many of us had to adapt to online teaching during the COVID-19 pandemic, but we still need resources for optimizing our instruction and becoming the best teachers we can be. This book is a practical guide for teachers who want to prepare for current and future remote instruction or leverage the best practices of remote instruction and EdTech tools to bring back to their brick-and-mortar classrooms. Inside, you'll learn about the impact of social and economic differences on classroom technology, and you'll find strategies and advice for maximizing success in each situation. Learn how best to leverage technology in traditional brick-and-mortar and remote classrooms, with case studies of the hybrid school model Gain tips and techniques to ensure that your teachers, students, and parents have the skills to succeed with technology Discover strategies for setting norms and expectations and transitioning between online and traditional learning Put into place proven methods for accountability and assessment of classroom successes Gain resources to the most effective educational technologies available today in multiple subject areas including English language arts, science, math, social studies, visual arts, dance, drama, music, and general education View sample lesson plans for how to implement tools into your classroom, build culture and community, and adapt for different learners Given the current push to remote teaching during the pandemic and the uncertainty over what the return to school and the traditional brick-and-mortar classroom will look like, The Hybrid Teacher will be an invaluable resource on the shelves of teachers and administrators alike.

Going Google Jared J. Covili, 2016-09-08 Unique ideas for authentic, 21st-century learning! There's no denying it, 21st Century skills are essential to prepare students for college and careers. How do you manage the avalanche of information and activities required to help students become skilled communicators and collaborators? Prepare your students for the modern workplace with this newly updated guide to Google's latest tech tools. New chapters and a companion website include teacher vignettes, screen casts, step-by-step project tutorials, and classroom management and technology tips. Beginning and veteran K-12 teachers can quickly scan to any section for detailed guidance and practical implementation strategies. You'll learn: Which tools help you meet 21st century skills and the new ISTE Standards for Students The latest versions of Google Classroom, Google Drive, Google Chrome, Google Earth, YouTube, and more 5 major points to consider before using each tool How to create quizzes, parent contract forms, student writing groups, and more How to use technology-related activities to facilitate creativity, promote innovation, and enhance communication skills Includes a handy glossary of tech terms. Use this engaging, skills-boosting guide to discover exactly how and why to use Google's latest tools

as part of an effective teaching strategy! Google's presence in our nation's schools is a big one and is only going to increase. Jared Covili has put together an excellent guide—useful for those who are tech savvy and those who are not—for how teachers and students can use these tools for teaching and learning. Larry Ferlazzo, Advice Columnist Education Week Teacher Jared Covili does an excellent job diving into the intricacies of Google so everyone can get the most out of the suite of apps. If you are not 'Going Google,' you might as well just 'Ask Jeeves' for support. Nick Provenzano, Author of Classroom in the Cloud The Nerdy Teacher

Going Google Jared Covili, 2012-03-19 Google your way to greatness! This book for K-12 educators explores the wide array of Google tools and shows how to use them in the classroom. Appropriate for experienced Googlers as well as novices, the text is organized into parts according to the 21st-century skills each tool promotes. Included are specific classroom activities that teachers can use with students immediately. An interactive website offers video tutorials that support the instructions and an online community for sharing successes.

Mobile Learning Devices Kipp D. Rogers, 2011-11-01 Do you share doubts with parents about the use of mobile learning devices (MLDs) in the classroom? Learn exactly what mobile learning is, how to introduce MLDs into your school, and how to ensure that teachers and students use them appropriately to enhance 21st century learning. Logistical implementation tips and examples of effective lesson plans are included.

Massive Open Online Courses and Higher Education Rebecca Bennett, Mike Kent, 2017-04-21 Since the first MOOC was launched at the University of Manitoba in 2008, this new form of the massification of higher education has been a rollercoaster ride for the university sector. The New York Times famously declared 2012 to be the year of the MOOC. However, by 2014, the number of academic leaders who believed the model was unsustainable doubled to more than 50%. While the MOOC hype has somewhat subsided, the attitudes and anxieties of this peak time can still be seen influencing universities and their administrations. This is the first volume that addresses Massive Open Online Courses from a post-MOOC perspective. We move beyond the initial hype and revolutionary promises of the peak-MOOC period and take a sober look at what endures in an area that is still rapidly growing, albeit without the headlines. This book explores the future of the MOOC in higher education by examining what went right, what went wrong and where to next for the massification of higher education and online learning and teaching. The chapters in this collection address these questions from a wide variety of different backgrounds, methodologies and regional perspectives. They explore learner experiences, the move towards course for credit, innovative design, transformations and implications of the MOOC in turn. This book is valuable reading for students and academics interested in education, eLearning, globalisation and information services.

Teaching Generation Text Lisa Nielsen, Willyn Webb, 2011-10-18 Mobilizing the power of cell phones to maximize students' learning power Teaching Generation Text shows how teachers can turn cell phones into an educational opportunity

instead of an annoying distraction. With a host of innovative ideas, activities, lessons, and strategies, Nielsen and Webb offer a unique way to use students' preferred method of communication in the classroom. Cell phones can remind students to study, serve as a way to take notes, provide instant, on-demand answers and research, be a great vehicle for home-school connection, and record and capture oral reports or responses to polls and quizzes, all of which can be used to enhance lesson plans and increase motivation. Offers tactics for teachers to help their students integrate digital technology with their studies Filled with research-based ideas and strategies for using a cell phone to enhance learning Provides methods for incorporating cell phones into instruction with a unit planning guide and lesson plan ideas This innovative new book is filled with new ideas for engaging learners in fun, free, and easy ways using nothing more than a basic, text-enabled cell phone.

Quick Hits for Teaching with Technology Robin K. Morgan, Kimberly T. Olivares, 2012-02-29 "A wealth of good ideas" for using technology in education, from increasing student engagement to managing hybrid and distance learning (Teachers College Record). How should I use technology in my courses? What impact does technology have on student learning? Is distance learning effective? Should I give online tests and, if so, how can I be sure of the integrity of the students' work? These are some of the questions that instructors raise as technology becomes an integral part of the educational experience. In *Quick Hits for Teaching with Technology*, award-winning instructors representing a wide range of academic disciplines describe their strategies for employing technology to achieve learning objectives. They include tips on using just-in-time teaching, wikis, clickers, YouTube, blogging, and GIS, to name just a few. An accompanying interactive website enhances the value of this innovative tool.

Moving INTO the Classroom Stacia C Miller, Suzanne F Lindt, 2017-09-06 This textbook focuses on research in movement integration and the benefits of physical activity to the child's physical, cognitive, emotional, and social development. It includes research on and suggestions for integrating movement into English-language arts, mathematics, science and social studies for lower and upper elementary students. Though the textbook is specifically aimed at elementary-level teachers, secondary teachers and pre-service teachers can modify the activities to fit their lessons as well.
