Tricky Vic Greg Pizzoli, 2015-03-10 A New York Times Book Review Best Illustrated Children's Book of 2015 In the early 1900s, Robert Miller, a.k.a. "Count Victor Lustig," moved to Paris hoping to be an artist. A con artist, that is. He used his ingenious scams on unsuspecting marks all over the world, from the Czech Republic, to Atlantic ocean liners, and across America. Tricky Vic pulled off his most daring con in 1925, when he managed to sell the Eiffel Tower to one of the city's most successful scrap metal dealers! Six weeks later, he tried to sell the Eiffel Tower all over again. Vic was never caught. For that particular scam, anyway. . . . Kids will love to read about Vic's thrilling life, and teachers will love the informational sidebars and back matter. Award-winner Greg Pizzoli's humorous and vibrant graphic style of illustration mark a bold approach to picture book biography.

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

There are no shortcuts to surviving your first day at a new school—you can't fix it with duct tape like you would your Chuck Taylors. dad, who now lives a thousand miles away, says things will get better as long as she remembers the first rule of punk: be yourself. The real Malú loves rock music, skateboarding, zines, and Soyriso (hold the cilantro, please). She'll do anything to preserve this, which includes standing up to an anti-punk school administration to fight for her right to express herself! Mislaid Nell Zink, 2015-05-19 **LONGLISTED FOR THE 2015 NATIONAL BOOK AWARD** A sharply observed, mordantly funny, and startlingly original novel from an exciting, unconventional new voice—the author of the acclaimed *The Wallcreeper*—about the making and unmaking of the American family that lays bare all of our assumptions about race and

racism, sexuality and desire. Stillwater College in Virginia, 1966. Freshman Peggy, an ingénue with literary pretensions, falls under the spell of Lee, a blue-blooded poet and professor, and they begin an ill-advised affair that results in an unplanned pregnancy and marriage. The two are mismatched from the start—she’s a lesbian, he’s gay—but it takes a decade of emotional erosion before Peggy runs off with their three-year-old daughter, leaving their nine-year-old son behind. Worried that Lee will have her committed for her erratic behavior, Peggy goes underground, adopting an African American persona for her and her daughter. They squat in a house in an African-American settlement, eventually moving to a housing project where no one questions their true racial identities. As Peggy and Lee’s children grow up, they must contend with diverse emotional issues: Byrdie deals with his father’s compulsive honesty; while Karen struggles with her mother’s lies—she knows neither her real age, nor that she is “white,” nor that she has any other family. Years later, a minority scholarship lands Karen at the University of Virginia, where Byrdie is in his senior year. Eventually the long lost siblings will meet, setting off a series of misunderstandings and culminating in a comedic finale worthy of Shakespeare.

The Art of Receiving and Giving Betty Martin, 2021-02-19 Why would most people endure unwanted or unsatisfying touch, rather than speak up for their own boundaries and desires? It's a question with a myriad of answers - and one that Dr. Betty Martin has explored in her 40+ years as a hands-on practitioner, first as a chiropractor and later as a Somatic Sex Educator, Certified Surrogate Partner and Sacred Intimate. In her client sessions, she noticed a pattern wherein many clients would allow or go along with discomfort or unease rather than speak up for what they wanted or didn't want. Betty discovered there was a major component missing for people -- the confidence that we have a choice about what is happening to us. In her framework, The Wheel of Consent(R) Betty traces the fundamental roots of consent back to our childhood conditioning. As children, we are taught that to be good we must ignore our body's discomfort and be compliant: to finish our food even if we're full, to go to bed - even if we're not tired, to let relatives hug and kiss us even if we don't want to. We learn that our feelings don't matter more than what is happening, and that we don't have a choice but to go along, whether or not we want it. As adults, this conditioning remains with us until we have an opportunity to unlearn it, which is why consent violations are often only called out after the violation has occurred - because we have not been taught or empowered to notice our boundaries, much less value or express our internal signals as the unwanted action is happening. In this book, Betty guides the reader through the Wheel of Consent framework, and shares practices to help us recover the ability to notice what we want and set clear boundaries. While the practices are based on exchanges of touch, they can also be learned without touch. In these practices, we discover that the Art of Giving includes knowing our own limits so we can be more generous within those limits, and not give beyond our capacity - a common problem which creates feelings of resentment or martyrdom. We also discover that the Art of Receiving invites us to notice and ask for what we really want, and not just what we think we are supposed to want. This knowledge, and its embodied practice, is foundational for creating clear agreements and bringing

more satisfaction into relationships. While much of consent education focuses on noticing what we don't want, or prevention of violation, Betty has developed a pleasure-forward approach to teaching consent. By first accessing and awakening (sometimes re-awakening) our bodies' relationship to pleasure and what we want, we can practice noticing and verbalizing what we don't want. Such an approach provides a more holistic frame in which to unlearn the childhood conditioning that taught us to be silent and compliant, and in which individuals can learn to ask for what they want and state what they don't, in a more empowered way. The implications of this approach to consent education extends beyond touch and intimate relationships. When we forget how to notice what we really want, we lose our inner compass. When we continue to go along with things we don't feel are right, we lose our ability to speak up against injustice. This has a profound effect on society. We allow all manner of inequality, corruption, theft of natural resources and our planet's future health - because going along with it feels normal. The Wheel of Consent offers a deeply nuanced way to practice consent as an agreement that brings integrity, responsibility, and empowerment into human interaction, starting with touch and relationships, and further expanding our understanding of consent to social issues of equality and justice.
