Fair Play: Reese's Book Club Eve Rodsky, 2021-01-05 AN INSTANT NEW YORK TIMES BESTSELLER • A REESE'S BOOK CLUB PICK Tired, stressed, and in need of more help from your partner? Imagine running your household (and life!) in a new way... It started with the Sh*t I Do List. Tired of being the “shefault” parent responsible for all aspects of her busy household, Eve Rodsky counted up all the unpaid, invisible work she was doing for her family—and then sent that list to her husband, asking for things to change. His response was...underwhelming. Rodsky realized that simply identifying the issue of unequal labor on the home front wasn't enough: She needed a solution to this universal problem. Her sanity, identity, career, and marriage depended on it. The result is Fair Play: a time- and anxiety-saving system that offers couples a completely new way to divvy up domestic responsibilities. Rodsky interviewed more than five hundred men and women from all walks of life to figure out what the invisible work in a family actually entails and how to get it all done efficiently. With 4 easy-to-follow rules, 100 household tasks, and a series of conversation starters for you and your partner, Fair Play helps you prioritize what's important to your family and who should take the lead on every chore, from laundry to homework to dinner. “Winning” this game means rebalancing your home life, reigniting your relationship with your significant other, and reclaiming your Unicorn Space—the time to develop the skills and passions that keep you interested and interesting. Stop drowning in to-dos and lose some of that invisible workload that's pulling you down. Are you ready to try Fair Play? Let's deal you in.

Legions of Rome Stephen Dando-Collins, 2013-09-03 No book on Roman history has attempted to do what Stephen Dando-Collins does in Legions of Rome: to provide a complete history of every Imperial Roman legion and what it achieved as

a fighting force. The author has spent the last thirty years collecting every scrap of available evidence from numerous sources: stone and bronze inscriptions, coins, papyrus and literary accounts in a remarkable feat of historical detective work. The book is divided into three parts: Part 1 provides a detailed account of what the legionaries wore and ate, what camp life was like, what they were paid and how they were motivated and punished. The section also contains numerous personal histories of individual soldiers. Part 2 offers brief unit histories of all the legions that served Rome for 300 years from 30BC. Part 3 is a sweeping chronological survey of the campaigns in which the armies were involved, told from the point of view of particular legions. Lavish, authoritative and beautifully produced, *Legions of Rome* will appeal to ancient history enthusiasts and military history buffs alike.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Dare to Lead Brené Brown,2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part Max docuseries Brené Brown: Atlas of the Heart! ONE OF BLOOMBERG'S BEST BOOKS OF THE YEAR Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and

experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In *Dare to Lead*, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

The Art of Game Design Jesse Schell, 2008-08-04 Anyone can master the fundamentals of game design - no technological expertise is necessary. *The Art of Game Design: A Book of Lenses* shows that the same basic principles of psychology that work for board games, card games and athletic games also are the keys to making top-quality videogames. Good game design happens when you view your game from many different perspectives, or lenses. While touring through the unusual territory that is game design, this book gives the reader one hundred of these lenses - one hundred sets of insightful questions to ask yourself that will help make your game better. These lenses are gathered from fields as diverse as psychology, architecture, music, visual design, film, software engineering, theme park design, mathematics, writing, puzzle design, and anthropology. Anyone who reads this book will be inspired to become a better game designer - and will understand how to do it.

Game Production Geoffrey Engelstein,2020-12-21 Description: Many new games are from first-time designers or are self-published, so there is a tremendous thirst for information about the nuts and bolts of tabletop game design. While there are many books about the design process in terms of mechanisms and player experience, there are no books that cover the arts and crafts aspects of how to create a prototype, software and physical tools that can be used, graphic design and rules writing, and considerations for final production. *Gamecraft: Prototyping and Producing Your Board Game* presents this information in a single volume which will be invaluable for up-and-coming designers and publishers. Key Features: The text compiles information from many websites, blogs, Facebook groups, subreddits, and the author's extensive experience in an easy-to-read volume. The text illustrates how to lay out and assemble the physical aspects of an effective board game. The book is divided into two sections for readability and covers a large array of different techniques. Geoffrey Engelstein is the designer of many tabletop games, including *The Ares Project*, the *Space Cadets* series, *The Dragon & Flagon*, and *The Expanse*. He is the founder of *Ludology*, a bi-weekly podcast about game design, and a contributor to the *Dice Tower* podcast with his bi-weekly *GameTek* segments that discuss the math, science, and psychology of games. He has also published several books, including *GameTek: The Math and Science of Gaming*, *Achievement Relocked: Loss Aversion and Game Design*, and *Building Blocks of Tabletop Game Design*. He is on the faculty of the NYU Game Center as an adjunct professor for Board Game Design and has been invited to speak at PAX, GenCon, Metatopia, and the Game Developers Conference.
