Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Fifty Years of the Concept Album in Popular Music Eric Wolfson, 2023-12-28 The concept album is one of popular music's most celebrated--and misunderstood--achievements. This book examines the untold history of the rock concept album, from The Beatles to Beyoncé. The roots of the concept album are nearly as old as the long-playing record itself, as recording artists began using the format to transcend a mere collection of songs into a listening experience that takes the listener on a journey through its unifying mood, theme, narrative, or underlying idea. Along the way, artists as varied as the Moody Blues, Jimi Hendrix, Joni Mitchell, Pink Floyd, Parliament, Donna Summer, Iron Maiden, Radiohead, The Notorious B.I.G., Green Day, Janelle Monáe, and Kendrick Lamar created albums that form an extended conversation of art and music. Limits were pushed as the format grew over the subsequent eras. Seminal albums like the Beatles' Sgt. Pepper's Lonely Hearts Club Band, the Who's Tommy, Marvin Gaye's What's Going On, stand alongside modern classics like Liz Phair's Exile in Guyville,

Kendrick Lamar's good kid, m.A.A.d city, and Beyoncé's Lemonade. Mixing iconic albums with some newer and lesser-known works makes for a book that ventures into the many sides of a history that has yet to be told-until now.

The Television Entrepreneurs Raymond Boyle, Lisa W. Kelly, 2016-03-03 With business seemingly everywhere on television, from the risks of the retail and restaurant trade to pitching for investment or competing to become the next 'apprentice', *The Television Entrepreneurs* draws upon popular business-oriented shows such as *The Apprentice* and *Dragons' Den* to explore the relationship between television and business. Based on extensive interviews with key industry and business figures and drawing on new empirical research into audience perceptions of business, this book examines our changing relationship with entrepreneurship and the role played by television in shaping our understanding of the world of business. The book identifies the key structural shifts in both the television industry and the wider economy that account for these changing representations, whilst examining the extent to which television's developing interest in business and entrepreneurial issues is simply a response to wider social and economic change in society. Does a more commercial and competitive television marketplace, for instance, mean that the medium itself, through a particular focus on drama, entertainment and performance, now plays a key role in re-defining how society frames its engagements with business, finance, entrepreneurship, risk and wealth creation? Mapping the narratives of entrepreneurship constructed by television and analysing the context that produces them, *The Television Entrepreneurs* investigates how the television audience engages with such programmes and the possible impact these may have on public understanding of the nature of business.

The Bullet Journal Method Ryder Carroll, 2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of *The Miracle Morning* In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls intentional living: making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has

been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***

It analyzes the ways in which traditional mechanics have been reimaged to give them more variety and complexity, and reviews the unprecedented mechanics found and perfected. Crafting Interpreters Robert Nystrom,2021-07-27 Despite using them every day, most software engineers know little about how programming languages are designed and implemented. For many, their only experience with that corner of computer science was a terrifying compilers class that they suffered through in undergrad and tried to blot from their memory as soon as they had scribbled their last NFA to DFA conversion on the final exam. That fearsome reputation belies a field that is rich with useful techniques and not so difficult as some of its practitioners might have you believe. A better understanding of how programming languages are built will make you a stronger software engineer and teach you concepts and data structures you'll use the rest of your coding days. You might even have fun. This book teaches you everything you need to know to implement a full-featured, efficient scripting language. You'll learn both high-level concepts around parsing and semantics and gritty details like bytecode representation and garbage collection. Your brain will light up with new ideas,

and your hands will get dirty and calloused. Starting from main(), you will build a language that features rich syntax, dynamic typing, garbage collection, lexical scope, first-class functions, closures, classes, and inheritance. All packed into a few thousand lines of clean, fast code that you thoroughly understand because you wrote each one yourself.

The Breakaways Cathy G. Johnson, 2019-03-05 Quiet, sensitive Faith starts middle school already worrying about how she will fit in. To her surprise, Amanda, a popular eighth grader, convinces her to join the school soccer team, the Bloodhounds. Having never played soccer in her life, Faith ends up on the C team, a ragtag group that's way better at drama than at teamwork. Although they are awful at soccer, Faith and her teammates soon form a bond both on and off the soccer field that challenges their notions of loyalty, identity, friendship, and unity. The Breakaways from Cathy G. Johnson is a raw, and beautifully honest graphic novel that looks into the lives of a diverse and defiantly independent group of kids learning to make room for themselves in the world.
