Using Technology with Classroom Instruction That Works Howard Pitler,Elizabeth R. Hubbell,Matt

Kuhn,2012-08-02 Technology is ubiquitous, and its potential to transform learning is immense. The first edition of Using Technology with Classroom Instruction That Works answered some vital questions about 21st century teaching and learning: What are the best ways to incorporate technology into the curriculum? What kinds of technology will best support particular learning tasks and objectives? How does a teacher ensure that technology use will enhance instruction rather than distract from it? This revised and updated second edition of that best-selling book provides fresh answers to these critical questions, taking into account the enormous technological advances that have occurred since the first edition was published, including the proliferation of social networks, mobile devices, and web-based multimedia tools. It also builds on the up-to-date research and instructional planning framework featured in the new edition of Classroom Instruction That Works, outlining the most appropriate technology applications and resources for all nine categories of effective instructional strategies: * Setting objectives and providing feedback * Reinforcing effort and providing recognition * Cooperative learning * Cues, questions, and advance organizers * Nonlinguistic representations * Summarizing and note taking * Assigning homework and providing practice * Identifying similarities and differences * Generating and testing hypotheses Each strategy-focused chapter features examples—across grade levels and subject areas, and drawn from real-life lesson plans and projects—of teachers integrating relevant technology in the classroom in ways that are engaging and inspiring to students. The authors also recommend dozens of word processing applications, spreadsheet generators, educational games, data collection tools, and online resources that can help make lessons more fun, more challenging, and—most of all—more effective.

Planning with Kids Nicole Avery,2011-05-04 The ultimate guide for parents who dream of having a little less chaos and a lot more time for the good things in life Written by mother of five, Nicole Avery, this book shows harried parents how, with just a bit of planning, family life can become easier to manage, less stressful, and decidedly more fun. Dream on, you say? I might as well try to herd cats as to get my kids to follow a lot of arbitrary rules! And Nicole would agree, which is why Planning with Kids isn't like any other parenting guide out there. It was inspired by Nicole's blog of the same name, which, over the past three years, has garnered a huge audience of likeminded parents who have achieved nothing short of miraculous results following her advice. While other prescriptive guides offer mums and dads cook-cutter solutions to the challenges of raising kids, this handbook focuses on one simple, straightforward idea: by implementing a few simple strategies for how you do things, you'll make more time for you to be you and your kids to be kids. You'll find strategies for streamlining and enhancing everything from the routines of daily life, to family relationships, to budgeting and finances, playtime and much more! Contains a full section on menus and cooking, including recipes, supported online by a planning-

with-family meal planner Divided into sections so that readers can dip-in and dip-out for information as they need it as their family expands and grows up!

Make Teaching Sustainable Paul Emerich France,2023-08-18 Rethink your teaching practice with six mindset shifts that will transform how you approach the job, ensuring that you can sustain your energy and effectiveness while empowering and supporting learners. Traditional approaches to the practice of teaching are unsustainable. Too many educators are

disengaging, burning out, and leaving the profession in response to stressors both inside and outside of schools. And high teacher turnover has a negative effect on our students. In Make Teaching Sustainable, Paul Emerich France explores six mindset shifts that you can implement to improve your educational environment—while also supporting and empowering the students you lead: * Humanity over industry * Collectivism over individualism * Empowerment over control * Minimalism over maximalism * Process over product * Flexibility over fixedness The goal of sustainable teaching is not simply to have teachers do less work, but also to help focus efforts on effective, efficient, and meaningful practices that make learning richer for students. Guided by recent research and interviews with practitioners in the field, France explores how mindset and practice shifts interact with themes of healing, regeneration, vulnerability, partnership, ritual, and simplicity. He also outlines tangible benefits to sustainable teaching, from a reduction in burnout to an increase in student engagement with learning. Whether you're a teacher, coach, or administrator, Make Teaching Sustainable will inspire you to embark on a practicable, action-oriented path to sustainability, ensuring that you can continue to be nurtured, supported, and effective in the profession that you love.

From Me to We Jason Griffith,2016-08-19 With this practical book, you'll learn effective ways to engage students in reading and writing by teaching them narrative nonfiction. By engaging adolescents in narrative, literary, or creative nonfiction, they can cultivate a greater understanding of themselves, the world around them, and what it means to feel empathy for others. This book will guide you to first structure a reading unit around a narrative nonfiction text, and then develop lessons and activities for students to craft their own personal essays. Topics include: Engaging your students in the reading of a nonfiction narrative with collaborative chapter notes, empathy check-ins, and a mini-research paper to deepen students' understanding; Helping your students identify meaningful life events, recount their experiences creatively, and construct effective opening and closing lines for their personal essays; Encouraging your students to use dialogue, outside research, and a clear plot structure to make their narrative nonfiction more compelling and polished. The strategies in this book are supplemented by examples of student work and snapshots from the author's own classroom. The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear. The appendices offer additional tips for using narrative nonfiction in English class, text and online resources for teaching narrative nonfiction, and a correlation chart between the activities in this book and the Common Core Standards.
