Why Do I Need a Teacher When I've got Google? Ian Gilbert, 2014-06-27 Why do I need a teacher when I've got Google? is just one of the challenging, controversial and thought-provoking questions Ian Gilbert poses in this urgent and invigorating book. Questioning the unquestionable, this fully updated new edition will make you re-consider everything you thought you knew about teaching and learning, such as: • Are you simply preparing the next generation of unemployed accountants? • What do you do for the 'sweetcorn kids' who come out of the education system in pretty much the same state as when they went in? • What's the real point of school? • Exams - So whose bright idea was that? • Why 'EQ' is fast becoming the new 'IQ'. • What will your school policy be on brain-enhancing technologies? • Which is the odd one out between a hamster and a caravan? With his customary combination of hard-hitting truths, practical classroom ideas and irreverent sense of humour, Ian Gilbert takes the reader on a breathless rollercoaster ride through burning issues of the twenty-first century, considering everything from the threats facing the world and the challenge of the BRIC economies to the link between eugenics and the 11+. As wide-ranging and exhaustively-researched as it is entertaining and accessible, this book is designed to challenge teachers and inform them - as well as encourage them - as they strive to design a twenty-first century learning experience that really does bring the best out of all young people. After all, the future of the world may just depend on it

Digital Content Creation in Schools Karen S. Ivers, Ann E. Barron, 2014-12-17 Discover how digital content creation

supports 21st-century learning, providing new insights into organizing, synthesizing, and evaluating information. This practical guide will make it easy for you to engage your students through this powerful communications medium. Digital content creation supports the Common Core State Standards (CCSS) and 21st-century learning skills by helping students use their knowledge to analyze, create, solve problems, communicate, collaborate, and innovate. This update of the popular *Multimedia Projects in Education, Fourth Edition* emphasizes digital content creation and the use of the CCSS as benchmarks to help you create cutting-edge classroom instruction. The book begins by presenting research on student learning through multimedia and digital content creation. This introduction is followed by outlines of each stage of the practical, easy-to-use Decide, Design, Develop, and Evaluate (DDD-E) model, which is designed specifically for classroom use. Content also includes discussion of multiple intelligences, constructivist learning, and cooperative grouping; blackline masters to guide you and your students through the DDD-E process; and assessment and management strategies. In addition, you'll find sample activities using an array of development tools, information on mobile and web apps, and numerous other resources to support digital projects in your classroom. The book, which is most applicable to students in grades 4 through 12, will also serve as an ideal resource for media specialists who work with teachers and students.

Simple Strategies for Teaching Children at Risk, K-5 Melissa Stormont,Cathy Newman Thomas,2013-12-03 Easy to implement strategies teachers can use right now While opinions differ on how to define students who are at risk. most teachers agree that they are seeing more children hit roadblocks due to limited academic experiences, challenging environments, ADHD, or behavioral problems. Teachers often feel underprepared to connect with these students and improve their learning experiences. In their latest work, Melissa Stormont and Cathy Newman Thomas draw upon their field experiences within special education and psychology to offer K-5 teachers practical tools for building relationships with these children. Readers will discover simple strategies for developing students' academic aptitude and social behavior as well as how to Identify who is at risk for failure and why Build positive teacher-student relationships and establish supportive groups among children Use data-based decision making Provide students with increased time to practice with feedback Incorporate technology supports Know when and how to involve professionals and families Moving well beyond mere theory, teachers who are working amid reforms and sweeping cuts can implement these strategies immediately and make a real difference in children's lives. Get started today! This is a great book with which to start because it covers the basics—the foundation that needs to be in place before the academics can take hold for a student at risk. The ideas are easy to follow and could be implemented with little or, in some cases, no additional prep—that's a bonus for an already busy teacher. —Barbara

EDUCATION IN RESURGENT INDIA Dr. Jakir Hussain Laskar , Dr. Reshma Khatun & Mr. Chiranjib Sarkar,2023-04-20 In the 21st century, to perform a given task in real life, we need to think beyond mere accumulation of knowledge from textbooks. The NEP 2020 calls for a shift from assessment system where rote learning is emphasized to competency-based education (CBE). Competency-based education is an approach to teaching, where learner is placed at the center (student centered learning) which promotes learning, development of high order skills such as conceptual analysis, critical thinking. It emphasizes knowledge based on experiential learning relevant to daily life. Competency-based education is a form of education that derives curriculum from an analysis of a prospective or actual role in modern society and that attempts to certify students' progress on the basis of demonstrated performance in some or all aspects of that role. According to the theory, such demonstrations of competence do not depend on the amount of time spent in formal education settings (Riesman, 1979).
