Spanning both concept and practice, Kelly offers a holistic assessment framework suitable to a variety of collections and contexts. With a structure that makes it applicable as both a training tool for practicing librarians and a useful course text for library students, this manual - introduces foundational assessment methodologies then provides concrete guidance on how to contextualize those methodologies within a holistic collections assessment program; - covers topics such as assessment goals, assessment stakeholders, selecting data and methodologies, working through project constraints, and project planning; - includes sample assessment program structures and other useful templates; - provides step-by-step instructions for more than a dozen specific methodologies, describing which aspect of the collection is being measured, what goals the methodology can address, technological requirements, recommended visualizations, and other helpful pointers; and - shares best practices for communicating effectively with internal and external stakeholders about assessment projects, with sample communication plans that can be easily adapted. Bridging the divide between the big picture and the nitty gritty, this manual guides the reader through the development and implementation of a collections assessment program tailored to local needs and resources.

of their grounds as they should? Do you know how to make the most of your outdoor teaching and learning spaces? Drawing on Learning through Landscapes' experience in working with thousands of primary schools, it provides practical support to improve the use, design and management of your outdoor area. This toolkit helps them assess what they already have, work through what their needs are, and inspires them to take the next steps forward to make physical and practical improvements to their grounds. Featuring downloadable resources with a comprehensive and fully adaptable audit tool, plus activities and case study resources to support your work, the handy toolkit provides: An overview of what your school grounds can do for you; A step-by-step process to work through; Advice on how to involve the whole school community in planning changes; Guidance on managing your school grounds project; Practical activity ideas to involve children and adults. This illustrated resource which contains over 140 full colour photos will make it as easy as possible for teachers, parents and school governors to plan and manage a playground improvement project, involving children at the core of the work and linking the process and improved school grounds to curriculum learning objectives.
