Document Mechanics Nicholas Barzelay,2013-02-01 Creating variable documents entails integrating graphic design, digital asset management, and applied information technology - each a study by itself. Managing work flows and automating processes adds intricacy. It just gets more and more convoluted! It's possible to produce a variety of sophisticated results and resolve many communication needs with some fundamental techniques and a few basic tools. That's what this book is all about - giving the reader a starting point, a small collection of essential details, and some examples to build upon. This book is aimed at a diverse audience. The approach throughout is show and tell. Early chapters deal with mechanics to lay the foundation for later chapters centered on process walkthroughs and document assessments. The intent is to provide a basic introduction to the technical interplay of digital assets, information management, and variable print,

Subpar Parks Amber Share,2021-07-13 **\*\*A New York Times Bestseller!\*\*** Based on the wildly popular Instagram account, Subpar Parks features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. Subpar Parks, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative, amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Millions of visitors each year enjoy Glacier National Park, but for one visitor, it was simply Too cold for me! Another saw the mind-boggling vistas of Bryce Canyon as Too spiky! Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well as have a good read (and laugh) once they come indoors.
