The Emerald Tablets of Thoth-The-Atlantean ,2002 The Spiritual, Occult and Historical significance of the Emerald Tablets is almost beyond belief of modern man. Written around 36,000 B.C. by Thoth, an Atlantean priest-king, this manuscript dates far back beyond reach of any Egyptian writings ever found. The author, Thoth, a Master-Teacher of the early Egyptians, put this treatise to writing in his native Atlantean language and Dr. Doreal, by use of his expertise as an Occultist and Master of time and space, was given the directive to retrieve these Tablets and translate them into English for the edification of modern man. The powerful and rhythmic verse of Thoth is wonderfully retained in Doreal's translation. Contained within the pages of Thoth's masterpiece of Spiritual and Occult Wisdom is the synthesis of the Ancient Wisdom

Teachings, the guideline for initiates of all ages, revealing the Knowledge and Wisdom hitherto held secret, but now in this New Age, revealed to all Seekers on the Path of Light. Dr. M. Doreal, Ms.D., Psy.D., is the Spiritual; Teacher of a multitude of Seekers of Light, having founded a Metaphysical Church and College - The Brotherhood of the White Temple, Inc. He is the author of all of the Organization's writings and teachings, having been given permission for the Esoteric Wisdom to be remitted in a public forum by the Great White Lodge, the Elder Brothers of mankind who shape and form the Spiritual evolution of earth's inhabitants. The Brotherhood of the White Temple, Inc. is a correspondence school, accredited through the State of Colorado, and mails out to its world-wide membership weekly Lessons of Truth. Its four and one-half year College Course unveils the secrets of the Symbolism of all Mystery Schools, giving precisely and beautifully, the step by step progression all Seekers have searched for in their quest for Oneness with God, and for attainment of Cosmic Consciousness. Read, Believe or not, but read, and the vibration found therein will awaken a response in your soul.' - Doreal

History of the Persian Empire A. T. Olmstead,2022-08-29 Out of a lifetime of study of the ancient Near East, Professor Olmstead has gathered previously unknown material into the story of the life, times, and thought of the Persians, told for the first time from the Persian rather than the traditional Greek point of view. The Roman Empire and the Indian Ocean Raoul McLaughlin,2014-09-11 This study of ancient Roman shipping and trade across continents reveals the Roman Empire's far-reaching impact in the ancient world. In ancient times, large fleets of Roman merchant ships set sail from Egypt on voyages across the Indian Ocean. They sailed from Roman ports on the Red Sea to distant kingdoms on the east coast of Africa and southern Arabia. Many continued their voyages across the ocean to trade with the rich kingdoms of ancient India. Along these routes, the Roman Empire traded bullion for valuable goods, including exotic African products, Arabian incense, and eastern spices. This book examines Roman commerce with Indian kingdoms from the Indus region to the Tamil lands. It investigates contacts between the Roman Empire and powerful African kingdoms, including the Nilotic regime that ruled Meroe and the rising Axumite Realm. Further chapters explore Roman dealings with the Arab kingdoms of southern Arabia, including the Saba-Himyarites and the Hadramaut Regime, which sent caravans along the incense trail to the ancient rock-carved city of Petra. The first book to bring these subjects together in a single comprehensive study, *The Roman Empire and the Indian Ocean* reveals Rome's impact on the ancient world and explains how international trade funded the legions that maintained imperial rule.

Sufism and Taoism Toshihiko Izutsu,2016-07-15 In this deeply learned work, Toshihiko Izutsu compares the metaphysical and mystical thought-systems of Sufism and Taoism and discovers that, although historically unrelated, the two share features and patterns which prove fruitful for a transhistorical dialogue. His original and suggestive approach opens new doors in the study of comparative philosophy and mysticism. Izutsu begins with Ibn 'Arabi, analyzing and isolating the

major ontological concepts of this most challenging of Islamic thinkers. Then, in the second part of the book, Izutsu turns his attention to an analysis of parallel concepts of two great Taoist thinkers, Lao-tzu and Chuang-tzu. Only after laying bare the fundamental structure of each world view does Izutsu embark, in the final section of the book, upon a comparative analysis. Only thus, he argues, can he be sure to avoid easy and superficial comparisons. Izutsu maintains that both the Sufi and Taoist world views are based on two pivots—the Absolute Man and the Perfect Man—with a whole system of ontological thought being developed between these two pivots. Izutsu discusses similarities in these ontological systems and advances the hypothesis that certain patterns of mystical and metaphysical thought may be shared even by systems with no apparent historical connection. This second edition of *Sufism and Taoism* is the first published in the United States. The original edition, published in English and in Japan, was prized by the few English-speaking scholars who knew of it as a model in the field of comparative philosophy. Making available in English much new material on both sides of its comparison, *Sufism and Taoism* richly fulfills Izutsu's motivating desire to open a new vista in the domain of comparative philosophy.

Border Management Modernization Gerard McLinden, Enrique Fanta, David Widdowson, Tom Doyle, 2010-11-30 Border clearance processes by customs and other agencies are among the most important and problematic links in the global supply chain. Delays and costs at the border undermine a country's competitiveness, either by taxing imported inputs with deadweight inefficiencies or by adding costs and reducing the competitiveness of exports. This book provides a practical guide to assist policy makers, administrators, and border management professionals with information and advice on how to improve border management systems, procedures, and institutions.

Welcome to Your Designer Planet! Richard Leviton, 2007-09 We now live in the time of the Gaian hierophant. This is the one who reveals and shows us how to relate to the sacred aspects of Gaia, our planet. Who is this hierophant? Each of us, when we join the campaign with Gaia against the desecration of our natural environment. But first we have to discover what the Earth really is. The Earth's thousands of sacred sites hold a secret: they are functional parts of the planet's geomantic body, consciousness nodes in the Earth's subtle body. Each veils a Light temple, each once known widely and remembered in myth, and *Welcome to Your Designer Planet!* documents 165 different kinds. The Earth is not an accident of the cosmos, but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness. And the designers intended that humans help maintain it. Want to help the ecosystem and modulate global warming and

climate change? Plug yourself into the Earth's Light grid through your nearest sacred site and start helping. Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research. The world's myths are the doorway into this fantastic domain of the Earth's visionary geography, showing us where to go and what to do and even what kinds of spiritual beings to expect to see. The future of the Earth is in our hands. Here are some pages from its design manual showing us how to fine-tune our wonderful host planet.

Gods and Goddesses in Love Agapi Stassinopoulos,2007-11-01 In ancient times, the Greeks created the gods and goddesses to represent the various personalities of human nature. In *Gods and Goddesses in Love*, Agapi Stassinopoulos tells the stories of the primary goddesses and gods, and how their myths can provide insight into your own romantic relationships. Included are two fun and fascinating quizzes: one for women to determine their own dominant personality type and which goddess she most embodies; and a second that will help every woman understand more about the god she is involved with, or searching for. Financing Pulp Mills: An Appraisal of Risk Assessment and Safeguard Procedures Machteld Spek,2005-01-01 This study analyses the risk assessment and socio-environmental safeguard procedures associated with the financing of pulp mill projects. The type and cost of the fibre source is clearly key to the economic competitiveness of any pulp mill. Nevertheless, investment institutions often carry out only limited assessment of the fibre source of the proposed mill. Although a growing number of financial institutions have adopted policies to employ social and environmental safeguard screening for investments in developing countries and transitioning economies, the scope of such screenings is in fact quite limited and they are often implemented ineffectively. Natural Resources and Violent Conflict Ian Bannon,Paul Collier,2003-01-01 Research carried out by the World Bank on the root causes of conflict and civil war finds that a developing country's economic dependence on natural resources or other primary commodities is strongly associated with the risk level for violent conflict. This book brings together a collection of reports and case studies that explore what the international community in particular can do to reduce this risk.; The text explains the links between natural resources and conflict and examines the impact of resource dependence on economic performance, governance, secessionist movements and rebel financing. It then explores avenues for international action - from financial and resource reporting procedures and policy recommendations to commodity tracking systems and enforcement instruments, including sanctions, certification requirements, aid conditionality, legislative and judicial instruments.
