China's Digital Civilization Michael Filimowicz,2023-05-31 This book focuses on the "algorithmic turn" in state surveillance and the development of new platforms that allow the Chinese Communist Party (CCP) to shape human behavior in all areas of life through its widespread social credit system. Perhaps no country has gone further than China in setting up overt systematic tracking, surveillance and constant computational evaluation of its citizens. Everyday life is saturated with a pervasive digitization that affects social mobility, economic opportunities and personal freedoms. Global organizations operating in China have to take account of the ramifications of these systems for data protection within the CCP's explicit project of forming a digital civilization. The volume covers the new technological practices that have transformed how states acquire and analyze personal data, the "TikTok-ification" of society as social credit platforms built on the familiarity with this popular app's interaction paradigm and the fast expansion of the digital economy that followed the new legal status of data as a production component in 2019. Scholars and students from many backgrounds, as well as policy makers, journalists and the general reading public, will find a multidisciplinary approach to questions posed by research into China's digital

civilization project from media, journalism, communication and global studies.

[A Northern Lad](#) Graham Sutcliffe,2014-09-03 This is the story of a child of the post war baby boom growing up in those far off non-PC days of the fifties and early sixties. The scene is a northern textile town, a town thrown up by the industrial revolution. A town who's seemingly permanent way of life was about to vanish for ever, as the post imperial world arrived. The book ends as the author leaves, tantalisingly close to that threatened day of reckoning that would see the place change forever. He would never return as anything more than a casual visitor. The tale is told tongue in cheek. It pokes fun at much and embroiders much, rather than keeping to the strict facts and figures. In this way school teachers and the like are often described rather unkindly and their pupils are mostly shown as awkward and uncouth. This is definitely not a story of the swinging sixties; this is about a northern town where the mini-skirt wouldnt appear until long after Londoners abandoned it.

Curly Locks is a good-hearted girl, but she's an awful cook. All the townspeople of Toadsuck Swamp know to steer clear of her peculiar dishes—like batwing brownies and toad eye toffees. So it's quite a mystery when one of her dishes goes missing from her windowsill. Next morning, chaos breaks out in town and word spreads how the Scares of Toadsuck Swamp are running wild and terrorizing the town at mealtime. They shriek Gitchey Boo, Gitchey Bon! Gitchey Goo, Gitchey Gone! and send folk running for their lives! But Curly Locks isn't frightened, and she has an inkling her unsavory cooking can help corral those Scares for good. Exercising tremendous narrative skill, internationally known storyteller Donna L. Washington breathes a spirited new life into an old classic.
