On a first date or job interview, at a sales presentation or therapy appointment, with family or friends, we are constantly narrating events and interpreting emotions and actions. In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). **Near & Far** Heidi Swanson,2015-09-15 Known for combining natural foods recipes with evocative, artful photography, New York Times bestselling author Heidi Swanson circled the globe to create this mouthwatering assortment of 120 vegetarian dishes. In this deeply personal collection drawn from her well-worn recipe journals, Heidi describes the fragrance of flatbreads hot off a Marrakech griddle, soba noodles and feather-light tempura in Tokyo, and the taste of wild-picked greens from the Puglian coast. Recipes such as Fennel Stew, Carrot & Sake Salad, Watermelon Radish Soup, Brown Butter Tortelli, and Saffron Tagine use healthy, whole foods ingredients and approachable techniques, and photographs taken in Morocco, Japan, Italy, France, and India, as well as back home in Heidi’s kitchen, reveal the places both near and far that inspire her warm, nourishing cooking.

The Bullet Journal Method Ryder Carroll,2021-12 THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of *The Miracle Morning* In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: \* TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. \* ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. \* PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly.

By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls intentional living: making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. \*\*\* This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. \*\*\*

Guerrilla Publishing Derek Murphy, 2017-01-24 TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. FAST AND EFFECTIVE BOOK MARKETING This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. LAUNCH BIG EVEN IF YOU'RE STARTING SMALL Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of surprise and harass I will focus on surprise and delight. First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.

*Experimenting with Emerging Media Platforms* Dan Pacheco, 2023-06-01 Experimenting with Emerging Media Platforms teaches students in media tracks - journalism, advertising, film, and public relations - how to independently field test and evaluate emerging technologies that could impact how media is produced, consumed, and monetized in the future. Taking a unique trial-and-error approach, the author encourages students to go against their desire for perfection and instead plunge into exercises with the full expectation that they will fail many times before they succeed. Through focused assignments, this book provides pointers on how to familiarize oneself with current technology, including extended reality (XR, VR, AR, and MR), open-source coding, photogrammetry, aerial imagery using drones, automation, and artificial intelligence. Readers are invited to create and test their own hypotheses and work outside of their comfort zones to reach conclusions on how a technology could enhance storytelling for a particular audience. Through experimentation guided by workbook exercises, case studies from students and media practitioners, practical tips, and reminders about ethical decision-making, students will learn how to work like explorers and civic hackers to enact change in the media landscape. Readers are invited to share their final field test results online through the book's companion website and social media channels, where the author will post links to further reading, coding templates for simple projects, and short video tutorials. Built around an established course being taught by the author and informed by over 20 years' experience in media industries, Experimenting with Emerging

Media Platforms is essential reading for aspiring media professionals and students undertaking courses such as Emerging Media, Media Innovation, and Media Startups. For additional resources, please see the companion website: [www.emergingmediaplatforms.com](http://www.emergingmediaplatforms.com).

Book Marketing Is Dead Derek Murphy, 2013-12-31 How to sell a ton of books (even if you're starting with no platform). If you've found this book I'm assuming you have or will soon have a book out on the market, and are exploring ways to turn it into a best-selling powerhouse that will slaughter the competition and pay for your retirement. The indie publishing world is thrilling because of the possible returns, and I hope you and your book do well. You're probably searching for things like book marketing and book promotion so you can learn how to find readers and convince them to buy your book. But almost everything you read will be wrong. That's because marketing in general is dead. Advertising is dead. Selling and convincing people to buy: also dead. The new law of book sales is this: if you're talking about your book, promoting your book, sharing your book... you're screwing it all up. Don't make Old School marketing mistakes that will sabotage your efforts! This book will help you to... Avoid the common mistakes that kill book sales Set up an author platform quickly that will triple your results Use Social Media (like an expert) without being annoying Advertise for maximum impact (at the lowest cost) Make powerful friends online who can move thousands of books Before you spend a lot of money on book marketing services or author publicity... Make sure you've plugged all the holes in your sales funnel so you're not throwing money away. If you're looking for a Bestseller Campaign but don't have a big budget... This book will show you plenty of ways to improve sales without spending a dime.

**Creative SEL** Michele Haiken, Mark Gura, 2023-04-25 This collection of creative lessons offers ideas for integrating design thinking, literacy and STEAM to drive SEL skills including self-awareness, self-management, mindfulness, responsible decision-making and social awareness. Research shows that creativity can be beneficial for mental health and can help build critical skills such as empathy and introspection, while social-emotional learning (SEL) is an integral part of education and human development. This book bridges these two ideas with a series of creative projects that foster SEL learning by promoting growth mindset, supporting mindfulness, offering ways to cope with anxiety and stress, and encouraging and guiding positive social activism. Opening with an overview of research behind the integration of SEL and creativity, the book then features a variety of lessons based on the above themes, illustrating how to deepen SEL by integrating the arts and STEAM learning in creative and authentic ways. The activities are drawn from the work of the authors and a diverse group of educator contributors to provide engaging, insightful and culturally responsive learning opportunities appropriate for traditional or online/blended learning environments. The book: • Highlights a diverse array of educators, innovators and design-thinkers who share their insights on SEL, STEAM and creativity. • Offers an accessible and fun approach to teaching SEL, which is critical to education and human development. • Guides teachers in implementing the following ISTE Standards for Students: Creative Communicator, Innovative Designer and Knowledge Constructor. This book invites teachers to consider a variety of formats — print and digital, audio, video games and more — and shows how helping students become creators and design-thinkers can foster SEL.
