**Vengeance of the Iron Dwarf** R. A. Salvatore, 2015-03-03 The War of the Silver Marches rages across the Forgotten Realms in this unforgettable final episode in the Companions Codex The reunited Companions of the Hall are separated once more—thrown to the far corners of a war that’s bigger than any of them realized. They fight for the safety of Mithral Hall, but it’s their own souls, and the soul of Faerûn itself, that truly hangs in the balance. In the dreaded depths of the Underdark, Regis and Wulfgar seek shelter in the fabled Silverymoon, from which they can launch a series of daring new raids. The rest of the Companions reside at the besieged Mithral Hall, where new friends arrive on a mission of mercy—if such an emotion can rest in the heart of a dragon. Meanwhile, the orc warlord Hartusk turns his savage horde on Everlund, one of the great cities of the Silver Marches. Though it stretches his forces thin, it’s a move that could help him achieve his goal of becoming the master of the North. But Hartusk’s treacherous drow allies have a different goal. They want nothing except the death of Drizt Do’Urden—even if it comes at the cost of human, dwarf, elf, and orc lives. The world is cloaked in darkness and blood runs in rivers across the North; orc hordes rage on and cities fall under brutal siege; old friendships are tested and new alliances are forged. But in the end, it may come down to a single dark elf choosing life over death, forgiveness over vengeance, law over chaos . . . peace over war. *Vengeance of the Iron Dwarf* is the third book in the Companions Codex and the thirtieth book in the Legend of Drizzt series.

*Western Imperialism in the Middle East 1914-1958* D. K. Fieldhouse, 2006-04-06 The term 'Fertile Crescent' is commonly used as shorthand for the group of territories extending around the Rivers Tigris and Euphrates. Here it is assumed to consist of Syria, Lebanon, Jordan, Iraq and Palestine. Much has been written on the history of these countries which were taken from the Ottoman empire after 1918 and became Mandates under the League of Nations. For the most part the histories of these countries have been handled either individually or as part of the history of Britain or France. In the first instance the emphasis has normally been on the development of nationalism and local resistance to alien control in a particular territory, leading to the modern successor state. In the second most studies have concentrated separately on how either France or Britain handled the great problems they inherited, seldom comparing their strategies. The aim of this book is to see the region as a whole and from both the European and indigenous points of view. The central argument is that the mandate system failed in its stated purpose of establishing stable democratic states out of what had been provinces or parts of provinces within the Ottoman empire. Rather it generated basically unstable polities and, in the special case of Palestine, one totally unresolved, and possibly unsolvable, conflict. The result was to leave the Middle East as perhaps the most volatile part of the world in the later twentieth century and beyond. The main purpose of the book is to examine why this was so.
