In this compelling book, storyteller extraordinaire Matthew Dicks presents wonderfully straightforward and engaging tips and techniques for constructing, telling, and polishing stories that will hold the attention of your audience (no matter how big or small). *The Irresistible Consultant's Guide to Winning Clients* David A. Fields, 2017-03-21 This deeply insightful guide to understanding what clients really want is “an indispensable resource for consultants” (Keith Ferrazzi, #1 New York Times bestselling author of *Never Eat Alone*). Independent consulting is a potentially lucrative enterprise—but the reality seldom

matches the dream. Most solo consultants and boutique consulting firms are perpetually within six months of bankruptcy due to the sputtering unreliability of their new business engines. The problem, according to international consulting expert David A. Fields, is twofold: 1) lack of a consistent, proven plan, and 2) fundamental misunderstanding about what clients want in a consultant. Fields, who has helped hundreds of consultants and boutique firms worldwide build profitable, sustainable practices, replaces the typical consultant's mindset of emphasizing expertise and differentiated processes with a focus on building relationships, engendering trust, and solving clients' existing problems. In *The Irresistible Consultant's Guide to Winning Clients*, Fields synthesizes his decades of experience into a step-by-step approach to winning more projects from more clients at higher fees. From nuts-and-bolts business advice and tactics to a deeply insightful breakdown of the human side of a very human profession, Fields, named one of Advertising Age magazine's "Marketing Top 100," delivers a comprehensive guidebook that is at once highly approachable and satisfyingly detailed. "If I could have just one book on client strategy, this book would be it." —Marshall Goldsmith, #1 New York Times–bestselling author of *Triggers*

Redeeming Productivity Reagan Rose, 2022-10-04 Feeling overwhelmed and unproductive? The answer isn't to do more. What image forms in your mind when you think of productivity? An assembly line? Spreadsheets? Business suits or workplace uniforms? In the ancient world, productivity didn't conjure images like these. Instead, it referred to crop yield and fruit bearing. This agrarian imagery helps us understand productivity through a biblical lens. Jesus taught, By this my Father is glorified, that you bear much fruit (John 15:8). Who doesn't want to have a truly productive life—to bear much fruit? But how does this happen in the places we hold dear—the home, workplace, and in our communities? We often feel overworked and overrun, defeated and discouraged. The world says be productive so that you can get all you can out of this life. The Bible says be productive so you can gain more of the next life. In *Redeeming Productivity*, author Reagan Rose explores how God's glory is the purpose for which He planted us. And he shows how productivity must be firmly rooted in the gospel. Only through our connection to Christ—the True Vine—are we empowered to produce good fruit. This book shows how we can maintain the vitality of that connection through simple, life-giving disciplines. Readers will discover manageable applications like giving God the first fruits of our days. Additionally, Reagan discusses how our perspective on suffering is transformed as we see trials as God's pruning for greater productivity.

**Getting Things Done** David Allen, 2015-03-17 The book *Lifhack* calls *The Bible of business and personal productivity*. A completely revised and updated edition of the blockbuster bestseller from 'the personal productivity guru'—Fast Company Since it was first published almost fifteen years ago, David Allen's *Getting Things Done* has become one of the most influential business books of its era, and the ultimate book on personal organization. "GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic text with important

perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. This new edition of Getting Things Done will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

**Designing Your Life** Bill Burnett, Dave Evans, 2016-09-20 #1 NEW YORK TIMES BEST SELLER • At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage • “Life has questions. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise.

**Architect + Entrepreneur** Eric W. Reinholdt, 2015 Part narrative, part business book; Architect + Entrepreneur is filled with contemporary, relevant, fresh tips and advice, from a seasoned professional architect building a new business. The guide advocates novel strategies and tools that merge entrepreneurship with the practice of architecture and interior design. The Problem: Embarking on a new business venture is intimidating; you have questions. But many of the resources available to help entrepreneur architects and interior designers start their design business lack timeliness and relevance. Most are geared toward building colossal firms like SOM and Gensler using outdated methods and old business models. If you're an individual or small team contemplating starting a design business, this is your field guide; crafted to inspire action. The Solution: Using the lean startup methodology to create a minimum viable product, the handbook encourages successive small wins that support a broader vision enabling one to, think big, start small, and learn fast. It's a unique take on design practice viewed through the lens of entrepreneurship and is designed to answer the questions all new business owners face, from the rote to the existential. Questions about: - Startup costs - Business models (old and new) - Marriage of business and design - Mindset - Branding & naming (exercises and ideas) - Internet marketing strategies - Passive income ideas - Setting your fee - Taxes - Standard Operating Procedures (SOPs) - Securing the work - Client relations - Software - Billing rates - Contracts Building a business isn't a singular act; it's a series of small steps. Using the outline found in Architect + Entrepreneur you can start today. The chapters are organized to guide you from idea to action. Rather than write a business plan you'll be challenged to craft a brand and you'll sell it using new technologies. Follow the guide sequentially and you'll have both the tools and a profitable small business.

battle-tested steps that jump-start your creativity and help you quickly map out your story.

**Conversations with God for Teens** Neale Donald Walsch,2012-10-01 Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling Conversations with God series had another conversation. Conversations with God for Teens is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. Conversations with God for Teens reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, Why can't I just have sex with everybody? What's the big deal?, the answer God offers her is: Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you? There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. Conversations with God for Teens is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.

**Why Evolution is True** Jerry A. Coyne,2010-01-14 For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. Why Evolution is True weaves together the many threads of modern work in genetics, palaeontology, geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

*Semitic Noun Patterns* Joshua Fox, 2018-08-14 This is the first complete study of Semitic internal noun patterns since that of Jacob Barth, over a century ago. Drawing on the earlier work of Semitists and linguists, this work presents a comprehensive new synthesis. This diachronic-comparative study presents the internal patterns individually and organizes them systematically. This study investigates the special role of noun patterns in isolated nouns and gives a complete list of reconstructible isolated nouns. This diachronic-comparative study presents the internal patterns individually and organizes them systematically. The roles of the patterns in the derivation of nouns from roots, and in nominal inflection, are shown as part of a reconstructed system. This study investigates the special role of noun patterns in isolated nouns, and gives a complete list of reconstructible isolated nouns. The heart of the book is devoted to studies of all individual reconstructible internal patterns with their Semitic reflexes, including mono- and bisyllabics and patterns with ungeminated or geminated second or third consonants. The book reaches conclusions on the structure of the Proto-Semitic pattern system, including categories of reconstructible and non-reconstructible patterns, semantic groups of patterns, and relationships between different patterns. Further, patterns merge and split diachronically, appearing in different roles in the attested languages, where new pattern systems are formed.
