Legislative Drafting Frederick Reed Dickerson,1954

*Solving the World's Problems* Robert Lee Brewer,2013-09-01 The World in Robert Lee Brewer's *Solving the World's Problems* is a slippery world ... where chaos always hovers near, where we are (and should be) splashing around in dark puddles. And one feels a bit dizzy reading these poems because (while always clear, always full of meaning) they come at reality slantwise so that nothing is quite the same and the reader comes away with a new way of looking at the ordinary objects and events of life. The poems are brim-full of surprises and delights, twists in the language, double-meanings of words, leaps of thought and imagination, interesting line-breaks. There are love and relationship poems, dream poems, poems of life in the modern world. And always the sense (as he writes) of pulling the world closer to me/leaves falling to the ground/ birds flying south. I read these once, twice with great enjoyment. I will go back to them often. -Patricia Fargnoli, former Poet Laureate of New Hampshire and author of *Then, Something*

*Legislative Drafter's Deskbook* Tobias A. Dorsey,2006 The Legislative Drafter's Deskbook offers practical advice and insight for those engaged in legislative drafting, those more interested in policy than drafting itself, or those interested in reading and interpreting the law. The Legislative Drafter's Deskbook helps anyone understand why laws are drafted the way they are. This book explains why laws are drafted the way they are. Legislative drafting is - to the extent it is writing at all - the form of writing used for legislative measures, a category that covers original bills and resolutions as well as amendments. Ultimately, legislative drafting is the form of writing used for enacted law. The focus of this book is on legislative drafting for

the Congress of the United States, but many, if not most, of the principles described here apply just as well to drafting for other legislatures. As forms of writing go, drafting is not freewheeling like poetry, nor showy like rhetoric, nor personal like a novel. Drafting is disciplined, rigorous, and analytical. Done well, drafting can also be creative, elegant, and clever. (Unfortunately, drafting is not always done well.) The purpose of this book is to provide practical advice on drafting to anyone who does, or may, engage in drafting, and indirectly to provide insight into the drafting process to other interested people. For example, this book is for people who are more interested in policy than in drafting, but want to understand why drafters operate the way they do. It is also for people who are more interested in reading and interpreting the law than in drafting, but want to understand why laws are drafted the way they are. It is hoped that this book will be accessible to beginners while remaining valuable to veterans. The traditional method of training drafters is to train them on the job; the consensus is that drafting is best learned holistically, on a case-by-case basis. For that reason this book is best used as a resource, not a course. It is a supplement to, not a substitute for, the learning that comes from experience. The author designed this book to answer the variety of questions about drafting that arise daily in the work of individuals with a professional interest in how bills, resolutions, and laws are drafted. The approach used here is pragmatic: You will find no linguistic theories or esoteric conundrums discussed here. What you will find is solid advice for everyday drafting projects. A masterful work. It is comprehensive and exceptionally well written. It is an essential tool for anyone who drafts legislation or interprets the law. -- William K. Suter, Clerk of the United States Supreme Court An essential and indispensable book, both as a reference work and as a thorough introduction to Federal legislative drafting. -- Frank Burk, Legislative Counsel of the United States Senate 1991-1998 The succinct and thorough assessment of good legislative drafting techniques provides a set of 'best practices' for drafters at all levels of government. -- Elizabeth Garrett, Sydney M. Irmas Professor of Public Interest Law, University of Southern California State legislative drafters will also greatly appreciate this work. -- Bruce Feustel, Senior Fellow, NCSL Summary of Contents 1.
