The Shooting Star Shivya Nath,2018-09-14 Shivya Nath quit her corporate job at age twenty-three to travel the world. She gave up her home and the need for a permanent address, sold most of her possessions and embarked on a nomadic journey that has taken her everywhere from remote Himalayan villages to the Amazon rainforests of Ecuador. Along the way, she lived with an indigenous Mayan community in Guatemala, hiked alone in the Ecuadorian Andes, got mugged in Costa Rica, swam across the border from Costa Rica to Panama, slept under a meteor shower in the cracked salt desert of Gujarat and learnt to conquer her deepest fears. With its vivid descriptions, cinematic landscapes, moving encounters and uplifting adventures, *The Shooting Star* is a travel memoir that maps not just the world but the human spirit.

The Book of Fatal Errors Dashka Slater,2020-07-07 Award-winning author Dashka Slater spins a tale of friendship, magic, and eternal life in *The Book of Fatal Errors*, an evocative and witty middle-grade fantasy. Rufus and his snooty cousin Abigail soon become entangled in the tantalizing world of the feylings, mischievous fairy-like creatures desperate to find their way home. In helping the feylings, Rufus tumbles down a dark path rich with age-old secrets and difficult truths. Any move he makes might be his final fatal error. Or perhaps, his most spectacular beginning.

Elsewhere, Home Leila Aboulela,2019-02-12 The renowned Sudanese-Egyptian author explores the lives of immigrants at home and abroad in this "earnest and engrossing" story collection (Publishers Weekly, starred review). A young woman's encounter with a former classmate elicits painful reminders of her old life in Khartoum. A wealthy young Sudanese woman studying in Aberdeen begins an unlikely friendship with one of her Scottish classmates. A woman experiences an evolving relationship to her favorite writer, whose portrait of their shared culture both reflects and conflicts with her own sense of identity. Shuttling between the dusty, sun-baked streets of Khartoum and the university halls and cramped apartments of Aberdeen and London, *Elsewhere, Home* explores, with subtlety and restraint, the profound feelings of yearning, loss, and

alienation that come with leaving one's homeland in pursuit of a different life.

Mean Baby Selma Blair,2023-05-09 Selma Blair has played many roles: Ingenue in *Cruel Intentions*. Preppy ice queen in *Legally Blonde*. Muse to Karl Lagerfeld. Advocate for the multiple sclerosis community. But before all of that, Selma was known best as ... a mean baby. In a memoir that is as wildly funny as it is emotionally shattering, Blair tells the captivating story of growing up and finding her truth. Blair is a rebel, an artist, and it turns out: a writer.—Glennon Doyle, Author of the #1 New York Times Bestseller *Untamed* and Founder of Together Rising The first story Selma Blair Beitner ever heard about herself is that she was a mean, mean baby. With her mouth pulled in a perpetual snarl and a head so furry it had to be rubbed to make way for her forehead, Selma spent years living up to her terrible reputation: biting her sisters, lying spontaneously, getting drunk from Passover wine at the age of seven, and behaving dramatically so that she would be the center of attention. Although Selma went on to become a celebrated Hollywood actress and model, she could never quite shake the periods of darkness that overtook her, the certainty that there was a great mystery at the heart of her life. She often felt like her arms might be on fire, a sensation not unlike electric shocks, and she secretly drank to escape. Over the course of this beautiful and, at times, devastating memoir, Selma lays bare her addiction to alcohol, her devotion to her brilliant and complicated mother, and the moments she flirted with death. There is brutal violence, passionate love, true friendship, the gift of motherhood, and, finally, the surprising salvation of a multiple sclerosis diagnosis. In a voice that is powerfully original, fiercely intelligent, and full of hard-won wisdom, Selma Blair's *Mean Baby* is a deeply human memoir and a true literary achievement.

Bird Summons Leila Aboulela,2020-02-11 Three Muslim women search for freedom and happiness in the Scottish Highlands in this novel of “psychological acuity [and] rich characterization” (Washington Post). When Salma, Moni, and Iman—friends and active members of their local Muslim Women's group—decide to take a road trip together to the Scottish Highlands, they leave behind lives often dominated by obligation, frustrated desire, and dull predictability. Each wants something more out of life, but fears the cost of taking it. Salma is successful and happily married, but tempted to risk it all when she's contacted by her first love back in Egypt; Moni gave up a career in banking to care for her disabled son without the help of her indifferent husband; and Iman, in her twenties and already on her third marriage, longs for the freedom and autonomy she's never known. When these women are visited by the Hoopoe, a sacred bird from Muslim and Celtic literature, they are compelled to question their relationships to faith and femininity, love, loyalty, and sacrifice.

The Fourth Industrial Revolution Klaus Schwab,2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital

and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Cold Brew Corpse Tara Lush, 2021-12-07 Espresso bar owner Lana Lewis returns in Tara Lush's second Coffee Lover's mystery, a stimulating read that fans of Cleo Coyle and Laura Childs will savor to the last drop. It's a steamy September, and business is brisk at Perkatory, the hottest coffee shop in Devil's Beach, FL. Much of the clientele pours in from Dante's

Inferno, the hot yoga studio next door. But the bright, sunny Gulf Coast days turn decidedly dark-roast when the body of the studio's owner turns up in a nearby swamp. Between running Perkatory and training Stanley, her golden Shih Tzu puppy, reporter-turned-barista Lana Lewis is too busy to go sleuthing. But when the editor of the local paper asks her to write about the murder, Lana's dreams of getting back into journalism start to percolate. Lana discovers that the yogi has a nefarious past and her share of mug shots, so grinding her way through the suspect list is a large task. She learns that the victim was fatally beamed by an SUV before she was dumped in the swamp. But was the killer one of her students? An envious yoga teacher? Or a local photographer who seems to know too much? But no one tells Lana Lewis what to do. Hunting the caf-fiend who killed the yogi puts Lana and Chief Noah's relationship--and Lana's life--in very hot coffee.

Thoughts on Design Paul Rand,2014-08-19 One of the seminal texts of graphic design, Paul Rand's Thoughts on Design is now available for the first time since the 1970s. Writing at the height of his career, Rand articulated in his slender volume the pioneering vision that all design should seamlessly integrate form and function. This facsimile edition preserves Rand's original 1947 essay with the adjustments he made to its text and imagery for a revised printing in 1970, and adds only an informative and inspiring new foreword by design luminary Michael Bierut. As relevant today as it was when first published, this classic treatise is an indispensable addition to the library of every designer.

The Kindness of Enemies Leila Aboulela,2015-08-13 The new novel from three times Orange Prize longlisted Leila Aboulela Natasha Wilson knows how difficult it is to fit in. Born to a Russian mother and a Muslim father, she feels adrift in Scotland and longs for a place which really feels like home. As their bond deepens, stories from Natasha's research come to life - tales of forbidden love and intrigue in the court of the Tsar. Proxies Dylan Mulvin, 2021-08-17 How those with the power to design technology, in the very moment of design, are allowed to imagine who is included--and who is excluded--in the future. Our world is built on an array of standards we are compelled to share. In *Proxies*, Dylan Mulvin examines how we arrive at those standards, asking, To whom and to what do we delegate the power to stand in for the world? Mulvin shows how those with the power to design technology, in the very moment of design, are allowed to imagine who is included--and who is excluded--in the future. For designers of technology, some bits of the world end up standing in for other bits, standards with which they build and calibrate. These proxies carry specific values, even as they disappear from view. Mulvin explores the ways technologies, standards, and infrastructures inescapably reflect the cultural milieus of their bureaucratic homes. Drawing on archival research, he investigates some of the basic building-blocks of our shared infrastructures. He tells the history of technology through the labor and communal practices of, among others, the people who clean kilograms to make the metric system run, the women who pose as test images, and the actors who embody disease and disability for medical students. Each case maps the ways standards and infrastructure rely on prototypical ideas of whiteness, able-bodiedness, and purity to control and contain the messiness of reality. Standards and infrastructures, Mulvin argues, shape and distort the possibilities of representation, the meaning of difference, and the levers of change and social justice.

El Lissitzky El Lissitzky, 2014 This is a fascinating and sumptuously illustrated overview of the work of El Lissitzky, one of the 20th-century's most influential and experimental artists. Eliezer (Lazar) Markovich Lissitzky, El Lissitzky (1890-1941) was one of the most experimental and controversial artists to work with the Russian and European avant-garde during the early twentieth century. Equally prolific as a painter, designer, architect and photographer, he connected countries and cultures as a leading ambassador between the Soviet and European avant-gardes of the 1920s, promoting Suprematist and Constructivist art in the West and European abstract movements in Russia. For El Lissitzky, art was conceived not as a personal expression and production of objects, but rather as a collective and social activity. Working with the Russian painter and theoretician Kazimir Malevich, he developed the new visual language of Suprematism (an abstract art based upon the supremacy of pure artistic feeling rather than on visual depiction of objects), which he applied not only to painting, but also to print and book works, architectural and theatre projects, ceramics, educational theory and propaganda. Fusing this array of media, his three-dimensional work *Proun Room* used the actual space of a room to merge painting, sculptural installation and architecture; similarly, with his students he adorned the trams and buildings of Vitebsk with Suprematist triangles and squares, and used his *Proun* motifs to design costumes and machinery for the stage (most famously for the 1920 Futurist opera, *Victory over the Sun*). This volume provides a comprehensive and superbly illustrated view of Lissitzky's influential career.
