**Present! a Techie's Guide to Public Speaking** Poornima Vijayashanker, Karen Catlin, 2015-11-02 The ultimate interactive public speaking guide from tech speakers Poornima Vijayashanker and Karen Catlin that prepares and encourages techies to discover their expertise, confidently share it, and successfully level up in their careers. Techies around the world can now jump start and grow their speaking careers with the book, Present! A Techie's Guide to Public Speaking, written by tech leaders, Poornima Vijayashanker and Karen Catlin. The book serves as a resource for technology professionals who want or need to develop the skills to communicate their expertise effectively, whether in a meeting at work or delivering an engaging talk at a conference. Poornima, who is the founder of Femgineer and the founding engineer of Mint.com, collaborated with former Adobe vice president and founder of Karen Catlin Consulting, Karen Catlin, to compile and share their lessons, tips, and techniques learned from their own experiences as professional tech speakers. Karen and I wanted to write this book so that our fellow techies would have a comprehensive resource to help them with their own public speaking endeavors. So many folks in the tech industry have amazing ideas and experience, but they often feel stuck on how to present them effectively. Also, our hope is that more women will be inspired by our stories and encouraged to get out there and share their own valuable expertise through public speaking in order to boost representation of women tech speakers, Poornima said. Present! covers public speaking from A to Z. Through stories, examples, and interactive exercises, Poornima and Karen dive into topics including, overcoming stage fright, exploring personal speaking style, creating the right talk for the right audience, polishing presence and delivery, and nailing any type of talk, whether it's a lightning or long-form talk or being part of a panel. Karen said, Even though Poornima and I are professional speakers, we felt it was important to

share our own feelings of nerves and uncertainty, and bumps we've had along the way - and sometimes continue to experience. It was important for us to communicate that no one is perfect and it really is okay when talks don't always go according to plan. Our hope is that by being open, we'll be able to give others the confidence and the techniques to handle situations when they arise, deliver an amazing presentation, and most importantly, have FUN!

Trust Me Nick Morgan, 2008-12-31 Nick Morgan shows how anyone can be an effective speaker by presenting an image of authenticity and respect for their audience, whether in a group presentation or a one-on-one conversation. He presents a four-step process, perfected in his teaching at Harvard, that enables the reader to use their own personal speaking style while becoming a more persuasive and charismatic communicator and leader. The basis of this process is the fact that when words and body language are in conflict, body language wins every time. This isn't easy to overcome, because normally body language is immediate, while the words lag slightly behind, and even a momentary conflict is perceptible to the audience. The key to success is to train your body language to unconsciously align with your message. The four steps: Form the attitude and intent to be open, and then let your body naturally express that intent. This feeling of openness will naturally affect the content of what you are saying, and it's that natural evolution that is at the heart of the process. Become connected to your audience. This creates a mutual energy, and you will naturally begin to think in terms of what the audience wants and needs in shaping your content. Ask yourself, what's my underlying emotion? Why does this matter to me? Becoming passionate about what you have to say naturally makes your audience care about it too. Really listen to the audience. Understanding their needs and reactions will enable you to direct your communication in mutually beneficial ways.

**Wild Animus** Rich Shapero,2004-09-01 How far would you go to find yourself? Wild Animus tracks the reckless quest of Ransom Altman, a young Berkeley graduate who—roused by his literary heroes and love for his girlfriend, Lindy—resolves to live in a new world of “inexhaustible desire.” Ransom’s deepening identification with the wild mountain ram, whose passion and wisdom he seeks, drives the young lovers north—first to Seattle, then to the remote Alaskan wilderness. Alone on the unforgiving ridges of Mt. Wrangell, his imagination increasingly unhinged, Ransom begins to devise and act out a dangerous animal mythos, which he documents in a first-person manuscript, and in songs or “chants” that detail his transformation and pursuit by a pack of strangely familiar wolves. The feverish hunt leads from the wilds to civilization and back again. And when the lovers return to brave the perilous mountain together, the truth behind Ransom’s imagined transformation emerges. What they discover in those frozen heights threatens their love as well as their sanity and their lives. Is Ransom inspired by a transcendent truth, or prey to a misguided fantasy? As his grip on reality weakens, the reader shares Ransom’s fears, his hopes, and his extraordinary discoveries. Wild Animus, Shapero’s debut novel, is a search for the primordial and a journey to the breaking point. It is a story of love and surrender, of monomania—of striving, at all costs, for a bliss beyond fear.
