*Advance Translation as a Means of Improving Source Questionnaire Translatability?* Brita Dorer, 2020-01-20 It is widely recognised that optimum translation quality is often difficult to achieve owing to problems in the source text. For large-scale cross-cultural surveys source questionnaires need to be translated into multiple target languages in order to produce comparable data across participating countries and cultures. 'Advance translations' have been applied in such surveys to improve the translatability of source questionnaires. The author used a think-aloud study to test the usefulness of advance translation into French and German. The study involved experienced professional questionnaire translators and applied qualitative and quantitative analysis. The study confirmed the usefulness of advance translation, at least for the languages and source texts used.

*Reembedding Translation Process Research* Ricardo Muñoz Martín, 2016-10-03 Reembedding Translation Process Research is a rich collection of empirical research papers investigating important new facets of the relationship between translation and cognition. The common thread running through the collection is the notion of "re-embedding" the acts of translating and interpreting—and the ways we understand them. That is, they all aim to re-situate these acts within what we now know about the brain, the powerful relationship of brain and body, and the complex interaction between cognition and the environment in which it is embedded. Each chapter focuses on a particular aspect of the overall notion of re-embedding, thereby expanding the breadth of empirical research about translating. This book refuses Descartes' distinction between mind and brain, and reaffirms the highly dynamic, emergent, and interactive nature of cognitive processes in translation. The overarching conclusion is that translation studies should reconsider, re-embed, any model of translation processes that arises without properly accommodating the interdependence of brain, body, and environment in the emergence of cognition.

**Translating Official Documents** Roberto Mayoral Asensio, 2014-07-16 Official translations are generally documents that serve as legally valid instruments. They include anything from certificates of birth, death or marriage through to academic transcripts or legal contracts. This field of translation is now as important as it is fraught with difficulties, for it is only in a few areas that the cultural differences are so acute and the consequences of failure so palpable. In a globalizing world, our official institutions increasingly depend on translations of official documents, but little has been done to elaborate the skills and dilemmas involved. Roberto Mayoral deals with the very practical problems of official translating. He points out

the failings of traditional theories in this field and the need for revised concepts such as the virtual document, pragmatic constraints, and risk analysis. He details aspects of the social contexts, ethical norms, translation strategies, different formats, fees, legal formulas, and ways of solving the most frequent problems. Care is taken to address as wide a range of cultural contexts as possible and to stress the active role of the translator. This book is intended as a teaching text for the classroom, for self-learning, or for professionals who want to reflect on their practice. Activities and exercises are suggested for each chapter, and information is included on professional associations and societies across the globe.

**Unsettling Translation** Mona Baker, 2022-05-30 This collection engages with translation and interpreting from a diverse but complementary range of perspectives, in dialogue with the seminal work of Theo Hermans. A foundational figure in the field, Hermans's scholarly engagement with translation spans several key areas, including history of translation, metaphor, norms, ethics, ideology, methodology, and the critical reconceptualization of the positioning of the translator and of translation itself as a social and hermeneutic practice. Those he has mentored or inspired through his lectures and pioneering publications over the years are now household names in the field, with many represented in this volume. They come together here both to critically re-examine translation as a social, political and conceptual site of negotiation and to celebrate his contributions to the field. The volume opens with an extended introduction and personal tribute by the editor, which situates Hermans's work within the broader development of critical thinking about translation from the 1970s onward. This is followed by five parts, each addressing a theme that has been broadly taken up by Theo Hermans in his own work: translational epistemologies; historicizing translation; performing translation; centres and peripheries; and digital encounters. This is important reading for translation scholars, researchers and advanced students on courses covering key trends and theories in translation studies, and those engaging with the history of the discipline. *The Invoice* Jonas Karlsson,2016-07-12 A heartfelt exploration of the cost of life and love—and the importance of the little things—from the author of the international bestseller, *The Room* Hilarious, profound, and achingly true-to-life, *The Invoice* explores the true nature of happiness through the eyes of hero you won't soon forget. A passionate film buff, our hero's life revolves around his part-time job at a video store, the company of a few precious friends, and a daily routine that more often than not concludes with pizza and movie in his treasured small space in Stockholm. When he receives an astronomical invoice from a random national bureaucratic agency, everything will tumble into madness as he calls the hotline night and day to find out why he is the recipient of the largest bill in the entire country. What is the price of a cherished memory? How much would you pay for a beautiful summer day? How will our carefree idealist, who is content with so little and has no chance of paying it back, find a way out of this mess? All these questions pull you through *The Invoice* and prove once again that Jonas Karlsson is simply a master of entertaining, intelligent, and life-affirming work.

*Making Another World Possible* Corina L. Apostol, Nato Thompson, 2019-10-11 *Making Another World Possible* offers a broad look at an array of socially engaged cultural practices that have become increasingly visible in the past decade, across diverse fields such as visual art, performance, theater, activism, architecture, urban planning, pedagogy, and ecology. Part I of the book introduces the reader to the field of socially engaged art and cultural practice, spanning the past ten years of dynamism and development. Part II presents a visually striking summary of key events from 1945 to the present, offering an expansive view of socially engaged art throughout history, and Part III offers an overview of the current state of the field, elucidating some of the key issues facing practitioners and communities. Finally, Part IV identifies ten global issues and, in turn, documents 100 key artistic projects from around the world to illustrate the various critical, aesthetic and political modes in which artists, cultural workers, and communities are responding to these issues from their specific local contexts. This is a much needed and timely archive that broadens and deepens the conversation on socially engaged art and culture. It includes commissioned essays from noted critics, practitioners, and theorists in the field, as well as key examples that allow insights into methodologies, contextualize the conditions of sites, and broaden the range of what constitutes an engaged culture. Of interest to a wide range of readers, from practitioners and scholars of performance to curators and historians, *Making Another World Possible* offers both breadth and depth, spanning history and individual works, to offer a unique insight into the field of socially engaged art.

**End-to-end Integration with IBM Sterling B2B Integration and Managed File Transfer solutions** James

Ballentine, Claudemir Braghirolli, Vasfi Gucer, Rahul Gupta, James B Herry, Richard Kinard, Gianluca Meloni, Bala Sivasubramanian, Eduardo Ribeiro de Souza, Frank Strecker, Gang Yin, IBM Redbooks, 2012-07-21 Across numerous vertical industries, enterprises are challenged to improve processing efficiency as transactions flow from their business communities to their internal systems and vice versa, simplify management and expansion of the external communities, accommodate customer and supplier preferences, govern the flow of information, enforce policy and standards, and protect sensitive information. Throughout this process, external partners must be on-boarded and off-boarded, information must flow across multiple communications infrastructures, and data must be mapped and transformed for consumption across multiple applications. Some transactions require synchronous or real-time processing while others are of a more periodic nature. For some classes of customer or supplier, the enterprise might prefer a locally-managed, on-premise solution. For some types of communities (often small businesses), an as-a-Service solution might be the best option. Many large enterprises combine the on-premise and as-a-Service approach to serve different categories of business partners (customers or suppliers). This IBM® Redbooks® publication focuses on solutions for end-to-end integration in complex value chains and presents several end-to-end common integration scenarios with IBM Sterling and IBM WebSphere® portfolios. We believe that this publication will be a reference for IT Specialists and IT Architects implementing an integration solution architecture involving IBM Sterling and IBM WebSphere portfolios.

**Censoring an Iranian Love Story** Shahriar Mandanipour, 2009-05-05 A NEW YORKER BEST BOOK OF THE YEAR • "One of Iran's most important living fiction writers" (The Guardian) shows what it's like to live and love there today. A haunting portrait of life in the Islamic Republic of Iran. —The New York Times In a country where mere proximity between a man and a woman may be the prologue to deadly sin, where illicit passion is punished by imprisonment, or even death, telling that most redemptive of human narratives becomes the greatest literary challenge. If conducting a love affair in modern Iran is not a simple undertaking, then telling the story of that love may be even more difficult. Shahriar Mandanipour (author of

Moon Brow) evokes a pair of young lovers who find each other—despite surreal persecution and repressive parents—through coded messages and internet chat rooms; and triumphantly their story entwines with an account of their creator’s struggle. Inventive, darkly comic and profoundly touching, *Censoring an Iranian Love Story* celebrates both the unquenchable power of the written word and a love that is doomed, glorious, and utterly real.
