The Kindle Publishing Bible Tom Corson-Knowles, 2013 How To Sell More Kindle Ebooks In 7 Days I Believe Kindle Publishing Should Be Fun, Profitable And Very, Very Easy If you want your book to become a Kindle best seller I can show you how! In this best selling book with over 25,000 copies sold, you will learn how to: Increase Your Book's Amazon And Google Search Traffic By 423% In 30 Minutes If you're a self-published author without a large platform or following, you will never be able to promote more than the published authors with huge marketing budgets. But you can outrank them on Amazon search every time! Why? Because 99% of Kindle authors don't know how to increase their search engine rankings in Amazon and Google. But I do - and I'm going to show you how in this book (it won't cost you a dime to implement these strategies). Most authors (even the ones with publishers and big marketing budgets) have no idea how to do keyword research, tag their book, add the right search keywords when they publish their book or insert keywords in their book description without it sounding like it was written by a robot. For New Authors: Step-By-Step Instructions With Picture Tutorials If you're a first-time Kindle publisher or technologically challenged then this book is for you! I even had my Grandma Ann Knowles follow the instructions step by step and she gave it a big thumbs up for easy to use instructions. The playing field has been leveled with ebook publishing - and if my Grandma can do it I guarantee you can too! For Existing Authors: How To Sell More Books In 5 Days Than You Did Last Month I'm going to share with you my KDP Select Free Promotion Marketing Formula for getting tens of thousands of readers to download your book in just 5 days. All you have to do is read the Marketing Formula instructions and follow them (it takes about 3 hours of work to get thousands of new readers). How To Sell On Kindle Using Your Book Description If you think your book is going to sell itself think again! If you're a fiction author or novelist, you have to show your readers the story and engage them in it or they won't buy a book from an unknown author. And if you're a non-fiction author, you have to tell potential readers how your book is going to help them solve their problem fast or they'll click away without buying. I'm going to show you the Show And Tell system for selling more books on Kindle by giving you readers what they want and overcoming objections in your book description! Kindle marketing isn't about having a big marketing budget or publisher behind you - but you still need exposure and a great offer. This book will help you get more exposure with Amazon search and other great marketing tips. You also have to make buying your book an irresistible offer so that when browsers get done reading your book description they say, I have to buy this book! You can't do that without a strategic plan and a well-written book description. Bonus! Video interviews with best-selling Kindle authors as they share their coveted book marketing strategies. About The Author My poetry was first published

at age 16 in Teen Ink magazine and I started writing books at age 19 but had no idea how to get my message out to anyone other than my friends and family. Finally, I discovered Amazon's Kindle Publishing platform and published my first book on Kindle on February 10, 2012. Since then, I've sold tens of thousands of ebooks on Kindle and now earn a full-time income as a part-time Kindle author. I've since helped hundreds of self-published authors like myself sell more books on Kindle. If I can do it you can too! Learn how to sell more books on Amazon today. Quick Guideline to Prepare Paperback Book Interior and Cover Files Using Different Applications Dr. Hidaia Mahmood Alassouli, 2021-11-17 In order to publish and sell a Book on any publishing website, you need a ready-to-print PDF layout that supports all the requirements of the publisher system. You can create the PDF independently or use other production software like InDesign, or you can buy a paid professional production service. Book cover creation is the very last creative step when publishing a book. That's because almost everything about the anatomy of a book cover is controlled by the final, edited version of the book: the trim size, paper color and number of pages all determine your cover's dimensions. You need to design the cover after the final draft is finished. Book cover design is comprised of text and images. You must note: the front cover, back cover, spine, layout, picture, fonts, and other elements of the cover. The book consists of manuscript and cover. On the publishing website, you can upload your manuscript. The publishing website will automatically convert the manuscript to proofed PDF prior to publishing/printing. Depending on the publishing website, you can create your book cover using Cover Creator tool or submit your book cover in a PDF. Publishing Print books at KDP amazon kdp.amazon.com, Lulu.com and notionpress.com is straightforward, as you can just upload your manuscript as a PDF, DOC, DOCX, RTF, HTML, or TXT file. Kdp.amazon.com, notionpress.com and Lulu.com will automatically convert these file types to PDF prior to publishing/printing. You can create your book cover using Cover Creator tool within the websites. The free Cover Creator helps you to create and customize your eBook, paperback, or hardcover cover with a variety of layouts and fonts. Cover Creator uses the book details you enter during title setup and adds your book's ISBN to the barcode area on the back cover But other publishing websites such as streetlib.com, ingramspark.com, blurb.com, press.barnesandnoble.com and feiyr.com requires from the authors to prepare the Paperback book manuscript in PDF format, and to design and submit the book cover in a PDF format according to their specifications. So, the author must have good knowledge on the formatting

requirements for the book interior, and needs to create a paperback cover, using design software to be able to publish in such websites. So, when you create a paperback book, you need to format and upload two files: a manuscript file, which is the interior of your book, and a cover file, which is the outside of your book including the front, back, and spine. Here I will provide the steps on how to format both files, plus tools and resources to help you get started. The report consists from the following sections: 1. Book spine width calculator. 2. Online cover calculators. 3. Creating Barcode for the book ISBN. 4. Interior and cover files specifications for publishing at KDP amazon and using the online cover creator at KDP amazon. 5. Interior and cover files specifications for publishing at Lulu.com and using the online cover creator at Lulu.com. 6. Quick guideline for creating a bleed for your publication on Microsoft Word. 7. Quick guideline for creating a bleed for your publication on Adobe applications and other applications. 8. Configuring Word so that it doesn't compress images. 9. Streetlib.com Paperback book specifications. 10. Feiyr.com cover templates for print on demand books. 11. Creating paper cover using Canva.com. 12. Creating paper cover using Adobe Illustrator. 13. Creating paperback cover using Paint.net Application. 14. Creating paperback cover using Adobe Photoshop Application. 15. Creating paperback cover using Adobe InDesign Application. 16. Creating paperback interior document using Adobe InDesign Application. 17. Creating paperback interior and cover using Adobe InDesign blurb book creator. 18. References.
