[Design Portfolios](#) Mark W. Smith, 2023-03-08 Unique perspective of a seasoned designer and veteran A/E industry recruiter regarding what design industry recruiters actually look for in a Design Portfolio *Design Portfolios: A Recruiter's View* provides a student-friendly guide, written from the perspective of a designer and design industry recruiter, on what recruiters look for as they review a design portfolio. It shows students how to create a professional-quality portfolio that will get them to that all-important next step in the recruiting process—the interview. Using a unique plan of action, “The Four S’s”, the book presents an organizational mindset focused on the added value of telling your Story, revealing your Style, proclaiming your Substance, and Sharing your uniqueness effectively. In today’s competitive market, a winning portfolio is much more than a simple accounting of digital skills and volumes of high-resolution graphics. This book shows students what recruiters really value and how to ensure their portfolios make the right impression. *Design Portfolios: A Recruiter's View* explains: How to develop a memorable organizational approach around story, style, substance, and sharing and create a winning portfolio Answers to the key questions students ask to fill in gaps in their academic instruction Real examples of resumes, cover letters, and portfolios that reveal what is needed for success Years of “big picture” insight gained from actual portfolio reviews during the author’s time as a designer and recruiter Aimed at the inexperienced design student rather than the practicing professional, *Design Portfolios: A Recruiter's View* is an easy-to-understand and constructive guide that is incredibly helpful to young designers with project histories that consist only of academic and internship work.

Natural Pattern Forms Richard L. Dubé, 1997-01-13 *Natural Pattern Forms* A Practical Sourcebook for Landscape Design Richard L. Dubé Here for the first time is a practical guide to naturalistic landscape design. With the aid of easy-to-

use templates, author Richard L. Dubé introduces you to 48 natural pattern forms, and shows you how to apply these natural solutions to everyday outdoor design problems. Imagine drawing from a palette as varied as an arcing river, receding hills—even clouds and frost. This book provides the inspiration you need to break away from staid design solutions and discover design solutions that are creative and natural. All 48 original templates include a sketch, a photo, and a discussion of the structure, aesthetic attributes, and underlying emotional tone of the pattern form. In addition, Mr. Dubé shows how each form can be reconfigured to meet the needs of specific spaces. Further, each template is cross-referenced to specific design applications, demonstrating practical ways to incorporate natural pattern forms in real designs. This book is a unique and invaluable visual resource for professionals and a creative guide for students who are learning to see the natural landscape in a new way. In addition to expanding any existing repertoire of design solutions, this important new resource: Looks at specific design problems. Offers a range of possible solutions for each problem. Explains how and where to look for natural patterns. Presents information in a clear and concise manner. Provides beautiful visual examples. Author Richard L. Dubé is uniquely qualified to create the first practical guide to naturalistic landscape design. A practicing landscape designer for 17 years, Mr. Dubé is a professional interpretive naturalist with extensive knowledge of Japanese landscape design and construction. In this book he draws upon his knowledge of the conscious use of natural pattern forms in the world-renowned gardens of Japan.

SURFACEDESIGN James A. Lord, Roderick Wyllie, Geoff di Girolamo, 2019-10-29 The first book to present the work of Surfacedesign, an innovative San Francisco landscape architecture and urban design firm with major public and private projects throughout the Bay Area and in Hawaii, Mexico, and New Zealand. This monograph explores the design philosophy of the three partners of Surfacedesign, who are committed to solutions that emerge from the site itself and challenge conventional approaches to landscape. The work is informed by the vast openness and frontier spirit of the West, expressed in rugged materials and sustainable planting. Surfacedesign focuses on cultivating a sense of connection to the built and natural world, pushing people to engage with the landscape in new ways. The design approach emphasizes and celebrates the unique context and imaginative potential of each project. The studio's process is rooted in asking novel questions and listening to a site and its users, a process that has led to engaging and inspiring landscapes that are rugged, contemporary, and crafted. Twenty-five projects are presented, ranging in scale from the landscape approach to Auckland International Airport in New Zealand to intimate residential gardens in San Francisco and Los Angeles. Featured are Anaha, a Honolulu residential complex overlooking the Pacific Ocean, Land's End Lookout in the Golden Gate National Recreation area, Barnacles, a community gathering space on the Embarcadero, restoration of the Buena Vista Winery in Sonoma, the first commercial winery in California, and the landscape for the Museum of Steel in Monterrey, Mexico, a repurposed foundry that

now incorporates the largest green roof in Central America.
