Landscape Architecture Documentation Standards Design Workshop,2015-10-26 SUPERB EXECUTION RELIES UPON RIGOROUS PROJECT DOCUMENTATION A project will only be built as well as it is documented. This publication focuses on the key documentation needs of the landscape architectural design and construction documentation process. That includes both design documentation and construction documentation as well as all that which occurs in the transition from one phase to the other. Documentation requirements include those components necessary to explore and define design intent, logic, physical proposals, and ultimately, the specific components included within construction and bid documents. Discover how proper documentation facilitates every stage of the design process from pre-planning to construction, and leads to a highly resolved built outcome. Understand the principles behind these documentation practices. Implement best practices specific to each documentation phase and drawing, from title block and cover sheet design to soil plans and plant protection. Organize keynoting systems, cross-referencing and interdisciplinary coordination amongst multiple consultants and vendors. Study sample project documents from a leading landscape architecture firm to better understand the elements and benefits of complete and well-coordinated project documentation. These standards have been time-tested by over 150 designers at the industry leading landscape architecture firm Design Workshop, reflecting a range of project types, including parks, streetscapes, urban spaces and over-structure construction. This guide shares the methods behind the success, to facilitate exceptional built outcomes through principled documentation practices.

Plan Graphics for the Landscape Designer Tony Bertauski, 2018-01-03 Many landscape architects and designers embrace an artistic approach to design. Maintaining that loose, aesthetic appeal requires landscape-design students to not only master the essentials of design but also fundamental drawing skills. Tony Bertauski introduces aspiring designers to the techniques of drawing, leading them from no knowledge of the craft to a final plan drawing of professional quality. Throughout, he emphasizes that a drawn landscape plan has not only aesthetic value but also communicates effectively with clients. With step-by-step illustrations, readers will learn to: • use drafting tools to set up drawings • letter professionally • draw symbols and textures to illustrate plants and hardscapes • label plan drawings accurately and draw to scale • develop section drawings to communicate vertical design elements • enhance drawings using design software

Veg in One Bed Huw Richards,2019-10-29 Gardening YouTube sensation Huw Richards shows how to inexpensively grow year-round vegetables from just one raised bed. Keyed to a temperate coastal climate but adaptable to variations in temperature and rainfall, Huw's clear, practical advice will help you produce a bountiful harvest with minimal space and effort. In just one raised bed, green thumb wunderkind Huw Richards shows you how to grow vegetables easily, organically, abundantly, and inexpensively so you have something to harvest every month of the year. Month by month, discover what you need to do and how to do it. Try it in your yard, a small garden, or even on a roof terrace. Everything is explained in clear, photographed steps: building your bed, growing from seed, planting, feeding, and harvesting. Huw shows how to guarantee early success by starting off young plants on a windowsill. He suggests what to grow in each part of the bed and provides alternative vegetables to swap in or out depending on what you like eating. No-dig gardening methods remove most of the back-breaking work, too. *Veg in One Bed* goes beyond the inspiring demonstrations on his YouTube channel Huw's Nursery. In this book, he organizes all of his ideas and suggestions into a blueprint for growing your own vegetables month by month. Very little growing experience? Only a small space? No matter--with *Veg in One Bed*, you can still eat food you have grown throughout the year.

Deer-Resistant Design Karen Chapman,2019-07-23 “Fear deer no more! The best source I’ve seen on the topic!” —Tracy DiSabato-Aust, award-winning garden designer and best-selling author Deer are one of the most common problems a gardener can face. These cute but pesky animals can quickly devour hundreds of dollars’ worth of plants. And common solutions include the use of unattractive fencing and chemicals. In *Deer-Resistant Design*, Karen Chapman offers another option—intentional design choices that result in beautiful gardens that coexist with wildlife. *Deer-Resistant Design* showcases real home gardens across North America—from a country garden in New Jersey to a hilltop hacienda in Texas—that have successfully managed the presence of deer. Each homeowner also shares their top ten deer-resistant plants, all welcome additions to a deer-challenged gardeners shopping list. A chapter on deer-resistant container gardens provides suggestions for making colorful, captivating, and imaginative containers. Lushly illustrated and filled with practical advice and inspiring design ideas, *Deer-Resistant Design* is packed with everything you need to confidently tackle this

challenging problem.

Landscape Architecture Jamie Liversedge, Robert Holden, 2014-03-03 Aimed at prospective and new students, this book gives a comprehensive introduction to the nature and practice of landscape architecture, the professional skills required and the latest developments. After discussing the history of the profession, the book explains the design process through principles such as hierarchy, human scale, unity, harmony, asymmetry, colour, form and texture. It looks at how design is represented through both drawing and modelling, and through digital techniques such as CAD and the use of GIS (Geographic Information Systems). This is followed by an examination of project management and landscape management techniques. Finally, the book explores educational and employment opportunities and the future of the profession in the context of climate change and sustainability. Illustrated with international examples of completed projects, Landscape Architecture provides an invaluable, one-stop resource for anyone considering studying or a career in this field.

Modern Project Management Techniques for the Environmental Remediation Industry Timothy J. Havranek, 2017-11-01 Environmental remediation has brought significant improvements to industrial sites and surrounding communities throughout the nation. It's also become notorious for high budget overruns and frequent schedule delays, as environmental remediation's technological aspects become subject to political, managerial and economic concerns. Modern Project Management (MPM) Processes offer a new framework for remediation programs, geared to increased efficiency and precise troubleshooting. Environmental consultant and certified project management professional (PMP) Timothy J. Havranek has helped various companies put MPM into practice: now, he brings his techniques to the environmental remediation industry at large. Melding traditional project management structure and advanced strategic planning techniques to the needs of environmental remediation, *Modern Project Management Techniques for the Environmental Remediation Industry* presents this major innovation: a standardized planning process, applicable to all types of remediation projects. Every participant in an environmental remediation effort can mutually benefit from Modern Project Management Techniques for the Environmental Remediation Industry. Environmental consultants will discover precise budget and schedule-planning skills—quite an advantage in their increasingly competitive industry. Customers will also know what to consider when selecting an environmental services company, and discover advanced methods for reducing project costs and durations. MPM: it's bringing new vitality and purpose to environmental protection. Put it into practice with the benefit of Havranek's real-life experience.

Professional Practice for Landscape Architects Rachel Tennant, Nicola Garmory, Clare Wunsch, 2015-09-16 Professional

Practice for Landscape Architects third edition deals with the practical issues of being a successful landscape architect professional. Endorsed by the Landscape Institute, this book is an indispensable guide for licentiate members of the Institute on their Pathway to Chartership. A handy list of questions are included to aid with P2C revision, answers of which are found within the text.

SURFACEDESIGN James A. Lord, Roderick Wyllie, Geoff di Girolamo, 2019-10-29 The first book to present the work of Surfacedesign, an innovative San Francisco landscape architecture and urban design firm with major public and private projects throughout the Bay Area and in Hawaii, Mexico, and New Zealand. This monograph explores the design philosophy of the three partners of Surfacedesign, who are committed to solutions that emerge from the site itself and challenge conventional approaches to landscape. The work is informed by the vast openness and frontier spirit of the West, expressed in rugged materials and sustainable planting. Surfacedesign focuses on cultivating a sense of connection to the built and natural world, pushing people to engage with the landscape in new ways. The design approach emphasizes and celebrates the unique context and imaginative potential of each project. The studio's process is rooted in asking novel questions and listening to a site and its users, a process that has led to engaging and inspiring landscapes that are rugged, contemporary, and crafted. Twenty-five projects are presented, ranging in scale from the landscape approach to Auckland International Airport in New Zealand to intimate residential gardens in San Francisco and Los Angeles. Featured are Anaha, a Honolulu residential complex overlooking the Pacific Ocean, Land's End Lookout in the Golden Gate National Recreation area, Barnacles, a community gathering space on the Embarcadero, restoration of the Buena Vista Winery in Sonoma, the first commercial winery in California, and the landscape for the Museum of Steel in Monterrey, Mexico, a repurposed foundry that now incorporates the largest green roof in Central America.
