Running Effective Marketing Meetings Daniel Kuperman, 2014-09-30 This book is for marketing professionals who want to gain a fresh perspective and need practical advice on how to run productive and creative meetings.

Traction Gabriel Weinberg, Justin Mares, 2015-10-06 Most startups don't fail because they can't build a product. Most startups fail because they can't get traction. Startup advice tends to be a lot of platitudes repackaged with new buzzwords, but Traction is something else entirely. As Gabriel Weinberg and Justin Mares learned from their own experiences, building a successful company is hard. For every startup that grows to the point where it can go public or be profitably acquired, hundreds of others sputter and die. Smart entrepreneurs know that the key to success isn't the originality of your offering, the brilliance of your team, or how much money you raise. It's how consistently you can grow and acquire new customers (or, for a free service, users). That's called traction, and it makes everything else easier—fund-raising, hiring, press, partnerships, acquisitions. Talk is cheap, but traction is hard evidence that you're on the right path. Traction will teach you the nineteen channels you can use to build a customer base, and how to pick the right ones for your business. It draws on inter-views with

more than forty successful founders, including Jimmy Wales (Wikipedia), Alexis Ohanian (reddit), Paul English (Kayak), and Dharmesh Shah (HubSpot). You'll learn, for example, how to:

- Find and use offline ads and other channels your competitors probably aren't using
- Get targeted media coverage that will help you reach more customers
- Boost the effectiveness of your email marketing campaigns by automating staggered sets of prompts and updates
- Improve your search engine rankings and advertising through online tools and research

Weinberg and Mares know that there's no one-size-fits-all solution; every startup faces unique challenges and will benefit from a blend of these nineteen traction channels. They offer a three-step framework (called Bullseye) to figure out which ones will work best for your business. But no matter how you apply them, the lessons and examples in Traction will help you create and sustain the growth your business desperately needs.

The One Week Marketing Plan Mark Satterfield, 2014-08-26 We're told marketing is hard. That it requires months of analysis, weeks of brainstorming, and years of consistent implementation. To succeed in marketing, you need the fortitude of General Patton, the genius of Don Draper, and the cash reserves of Warren Buffet. WRONG. One week. That's all it takes for most small and medium-sized businesses to dramatically improve their marketing. And let's face it, most business owners do very little marketing, and what they do is not particularly effective. Business owners often don't know how to best market

their company, or are too busy working to make time to promote it. What they don't realize is that effective marketing doesn't have to be complicated or time-consuming. Mark Satterfield's *The One-Week Marketing Plan* lays out a step-by-step system entrepreneurs can put in place in just five business days. This "set it and forget it" strategy works all day, every day to bring in new business. Tailored to each company's niche market, this innovative plan can generate a consistent stream of customers for an out-of-pocket expense of as little as \$300. Satterfield, founder and CEO of Gentle Rain Marketing, Inc., has more than two decades of experience helping clients in more than 75 niche industries grow their businesses without cold calling or hard selling. Now, in *The One-Week Marketing Plan*, his strategies and wisdom are accessible and realistic for entrepreneurs, self-employed professionals, and business owners looking to move in a new direction. One week. That's all it takes. So let's get started.

Marketing Campaign Development Mike Gospe,2008 This book is a practical, pragmatic how to book designed for hi-tech marketing operations, regional, and corporate marketing leaders at every level. This unique book takes you step-by-step through the disciplined, yet practical, process of architecting truly integrated marketing communications plans that work. In it, you will find a prescription for building a successful, repeatable campaign development process, including the necessary templates and helpful, practical techniques. This book is your guide that will show you how you can optimize your marketing efforts and achieve an even greater return on your marketing investment. While many of us will recognize a good, well-thought-out marketing campaign when we see one, the single, basic truth about world-class marketing campaign development is that it is easy to say, but hard to do. It is hard to do because we all like to take short-cuts. I hear the lament all too often: I'm over-worked don't have the time to think strategically or Planning is overrated. I just need to get these projects done. As a result, we take short-cuts like ready, fire, aim. Lack of planning is the slippery slope that leads to wasteful marketing. Then one day we get the call from the corner office to come and explain why our marketing efforts did not produce the desired results. Luckily, architecting world-class campaigns is achievable for any marketing team. Successful marketing requires following a disciplined, systematic approach to working cross-functionally and cross-regionally in order to prioritize marketing objectives, design a customer-engaging go-to-market strategy, and execute the plan.
