Communications, Media and the Imperial Experience Chandrika Kaul, 2014-07-31 Presenting a communicational perspective on the British empire in India during the 20th century, the book seeks to examine how, and explain why, British proconsuls, civil servants and even the monarch George V, as well as Indian nationalists, interacted with the media, primarily British and American, and with what consequences.

Media Events Bianca Mitu, Stamatis Poulakidakos, 2016-05-23 Media Events: A Critical Contemporary Approach proposes an interdisciplinary and multicultural approach of Dayan and Katz's theory of media events (1992) by applying it to contemporary situations. The contributing authors come from a range of countries (UK, USA, Mexico, Germany, Finland, Italy, Greece, Portugal, Ukraine) and analyse the theory of media events from different perspectives, incorporating social media and offering a re-positioning of Dayan and Katz's theory of media events. By bringing new perspectives into this field, the proposed volume is an important contribution as it grounds the intervention and rethinking of the theory into further empirical research. This volume has the potential to function as a 'cross-generational' link between one of the 'early classics' of media and communication studies on the one hand and the present generation of researchers on the other.

Remapping Cold War Media Alice Lovejoy, Mari Pajala, 2022-06-21 Why were Hollywood producers eager to film on the other side of the Iron Curtain? How did Western computer games become popular in socialist Czechoslovakia's youth paramilitary clubs? What did Finnish commercial television hope to gain from broadcasting Soviet drama? Cold War media cultures are typically remembered in terms of an East-West binary, emphasizing conflict and propaganda. *Remapping Cold War Media*, however, offers a different perspective on the period, illuminating the extensive connections between media industries and cultures in Europe's Cold War East and their counterparts in the West and Global South. These connections were forged by pragmatic, technological, economic, political, and aesthetic forces; they had multiple, at times conflicting, functions and meanings. And they helped shape the ways in which media circulates today—from film festivals, to satellite networks, to coproductions. Considering film, literature, radio, photography, computer games, and television, *Remapping Cold War Media* offers a transnational history of postwar media that spans Eastern and Western Europe, the Nordic countries, Cuba, the United States, and beyond. Contributors draw on extensive archival research to reveal how media traveled across geopolitical boundaries; the processes of translation, interpretation, and reception on which these travels depended; and the significance of media form, content, industries, and infrastructures then and now.

West African Screen Media Boukary Sawadogo, 2019-05-01 The culturally rooted comic traditions of koteba theater and joking kinship have shaped West African comedies through various forms of humor. *Débrouillardise* (hustle) has turned the urban scene into a comic scene, a site for individual realization. To highlight the ever-growing production and success of comedies and other popular genres, *West African Screen Media: Comedy, TV Series, and Transnationalization* explores the distribution and reception of selected productions by emphasizing the public's strong resonance with local stories and a character-based comedy involving popular comedians. In contrast to art films or "auteur films" that tend to be confined to the festival circuit, comedies and popular genres reach a far wider audience through local distribution networks, satellite TV channels, pirated DVDs, and online distribution platforms. This book engages a discussion of contemporary African media productions as seen outside the usual frameworks of *cinéma engagé*, the art house, or auteur approaches. While examining production and distribution through the lenses of proximity, appropriation, and transnationalization, this volume invites readers to reconsider the way genre films, as well as other kinds of productions, have been previously evaluated and in doing so addresses the critical neglect of comedy and other popular genres in the scholarship on African cinema.

Jimmy Carter and the Birth of the Marathon Media Campaign Amber Roessner, 2020-05-20 With the rise of Jimmy Carter, a former Georgia governor and a relative newcomer to national politics, the 1976 presidential election proved a transformative moment in U.S. history, heralding a change in terms of how candidates run for public office and how the news media cover their campaigns. Amber Roessner's *Jimmy Carter and the Birth of the Marathon Media Campaign* chronicles a change in the negotiation of political image-craft and the role it played in Carter's meteoric rise to the presidency. She contends that Carter's underdog victory signaled a transition from an older form of party politics focused on issues and platforms to a newer brand of personality politics driven by the manufacture of a political image. Roessner offers a new perspective on the production and consumption of media images of the peanut farmer from Plains who became the thirty-ninth president of the United States. Carter's miraculous win transpired in part because of carefully cultivated publicity and advertising strategies that informed his official political persona as it evolved throughout the Democratic primary and general-election campaigns. To understand how media relations helped shape the first post-Watergate presidential election, Roessner examines the practices and working conditions of the community of political reporters, public relations agents, and advertising specialists associated with the Carter bid. She draws on materials from campaign files and strategic memoranda; radio and TV advertisements; news and entertainment broadcasts; newspaper and magazine coverage; and recent interviews with Carter, prominent members of his campaign staff, and over a dozen journalists who reported on the 1976 election and his presidency. With its focus on the inner workings of the bicentennial election, *Jimmy Carter and the Birth of the Marathon Media Campaign* offers an incisive view of the transition from the yearlong to the permanent campaign, from New Deal progressivism to New Right conservatism, from issues to soundbites, and from objective news analysis to partisan commentary.

Mitch - The Real Story John Mitchell, 2014-10-05 He is one of the most highly regarded coaches in international rugby, but also one of the most controversial. Now you can read why ... John Mitchell's rugby coaching career spans many years, several teams and various countries. He was assistant to Clive Woodward, who spearheaded England's 2003 World Cup-winning campaign, for four years in the pioneering days of professional rugby coaching, and he took charge of the All Blacks and the Chiefs in New Zealand, the Western Force in Australia and the Lions in South Africa. Indisputably one of the most experienced coaches on the circuit, he has arguably also been one of the most controversial. For although he made a success of all his tenures, he has challenged the structures and powers-that be, resulting in several premature departures. This book reveals why, and also why Mitchell has successfully defended every disciplinary hearing he has been subjected to. For the first time, the rugby public will learn the truth behind the newspaper headlines: from his painful axing as All Black coach to his fall-out with the Western Force and his disciplinary hearing at the Lions, whom he had guided to their first Currie Cup

trophy, Mitchell sets out the reasons for his successes as well as his failures, and gives his opinion on what the future holds for South African rugby. Honest, gripping and revealing, this book is a must-read for every rugby fan.

The War in Iraq and Why the Media Failed Us David Dudge, 2006-07-30 Polls show that a sizeable portion of the American population believes that troops found WMD in Iraq and that Saddam Hussein was somehow responsible for the attacks of September 11. Even after the 9/11 Commission Report and numerous other reports have concluded that our intelligence was flawed, people in the freest nation on earth continue to be misinformed about something that could not be more vital to understand—the reasons for sending troops into harm's way. This insightful analysis argues that the media should have done a better job of performing its traditional role of skeptic and watchdog, and it examines what went wrong. There are, of course, many people whose support for going to war in Iraq was not contingent on the existence of WMD or a connection to al-Qaeda. But many others based their support for the war on misinformation. Dudge explores why the media did not aggressively investigate the claims made by the administration and intelligence agencies; in short, why they did not do their job: to fully inform the citizenry to the best of their ability. He examines pressures from the Bush administration, pressures from corporate consolidation of media ownership, patriotism and self-censorship, and other factors. He concludes with recommendations for ways in which the media can improve their reporting on government.

Brand Command Alex Marland, 2016-03-15 The pursuit of political power is strategic as never before. Ministers, MPs, and candidates parrot the same catchphrases. The public service has become politicized. And decision making is increasingly centralized in the Prime Minister's Office. What is happening to our democracy? In this persuasive book, Alex argues that political parties and government are beholden to the same marketing principles used by the world's largest corporations. Called branding, the strategy demands repetition of spoken, written, and visual messages, predetermined by the leader's inner circle. Marland warns that public sector branding is an unstoppable force that will persist no matter who is in power. It also creates serious problems for parliamentary democracy that must be confronted. This book will fascinate anyone who is interested in how Ottawa works and where Canadian politics is headed.

Voicing Diasporas Nabil Echchaibi, 2011-09-16 The events of 9/11 have cast a shadow of suspicion on Muslims in Western Europe and fostered a public discourse of arbitrary associations with violence and resistance to social and cultural integration. The antagonistic ascendancy of militant Islam globally and the anxiety this has engendered are animating day-to-day debates on the place and loyalty of Muslims in Western societies. Exploring the neglected reality of ethnic radio in Paris and Berlin, *Voicing Diasporas: Ethnic Radio in Paris and Berlin Between Cultural Renewal and Retention* examines how Muslim minorities of North African descent in France and Germany resist these glaring generalizations and challenge bounded narratives and laws of cultural citizenship in both countries. Through an analysis of Beur FM in Paris and Radio Multikulti in Berlin, this book also questions the reductionist view of diasporic media as expressions of longing, nostalgia, and

cultural dislocation. This ground-breaking study is as essential read for not only scholars and higher educational students in various fields, but for those interested in this ever-changing, topical issue.

Indian Popular Fiction Prem Kumari Srivastava, Mona Sinha, 2021-11-25 The scholarly essays in this book open up experimental and novel spaces and genres beyond the traditional and the literary world of Indian Popular Fiction as it existed

towards the end of the last millennium. They respond to the possibilities opened up by the technology-driven and internet-savvy reading and writing world of today. Contemporaneous and bold, most of the essays resonate with the racy and fast-paced milieu and social media space inhabited by today's youth. Combative in its drift, this book makes possible an attempt to disband hierarchies and dismantle categories that have engulfed the expansive landscape of Indian Popular Fiction for too long. It facilitates discussion on graphic novels, microfiction, popular-entertainment and political satire on television and celluloid, social media-driven romances existing in the domain of the 'real' rather than that of 'fantasy' and mythological readings against the backdrop of gender and politics. Aimed at facilitating further research by scholars and enthusiasts of Indian Popular Fiction, this book is also an ode to the current trends generated by social and internet media cosmos. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.
