beautifully written and deeply researched study, Hannah Frank provides an original way to understand American animated cartoons from the Golden Age of animation (1920–1960). In the pre-digital age of the twentieth century, the making of cartoons was mechanized and standardized: thousands of drawings were inked and painted onto individual transparent celluloid sheets (called “cels”) and then photographed in succession, a labor-intensive process that was divided across scores of artists and technicians. In order to see the art, labor, and technology of cel animation, Frank slows cartoons down to look frame by frame, finding hitherto unseen aspects of the animated image. What emerges is both a methodology and a highly original account of an art formed on the assembly line.

**Warraparna Kurna!** Rob Amery, 2016-02-22 This book tells the story of the renaissance of the Kurna language, the language of Adelaide and the Adelaide Plains in South Australia, principally over the earliest period up until 2000, but with a summary and brief discussion of developments from 2000 until 2016. It chronicles and analyses the efforts of the Nunga community, and interested others, to reclaim and relearn a linguistic heritage on the basis of mid-nineteenth-century materials. This study is breaking new ground. In the Kurna case, very little knowledge of the language remained within the Aboriginal community. Yet the Kurna language has become an important marker of identity and a means by which Kurna people can further the struggle for recognition, reconciliation and liberation. This work challenges widely held beliefs as to what is possible in language revival and questions notions about the very nature of language and its development.

Defiant. Dangerous. Different. A

real pain-in-the-ass. The message? To be successful, you've got to fundamentally change. But what if -- instead of conforming - - you learned how to punch society's codes in the nose, run like a hooligan through the corridors of entrenched power, and succeed -- not by grinding down your prickly parts, but by going all-in on who you really are? "A guide for strategic rebellion." -- Mark Levy, founder of Levy Innovation and creator of Your Big Sexy Idea® Meet Sunny Bonnell and Ashleigh Hansberger, award-winning global brand consultants, founders of Motto, and authors of Rare Breed: A Guide to Success for the Defiant, Dangerous, and Different. In this book, you'll come face-to-face with seven controversial virtues that are typically seen as ladder-burning, career-ending personality traits that - convention says -- keep mavericks, oddballs, and visionaries like you from getting along, getting buy-in, and getting ahead. "A beautiful reminder that you are not alone." -- Charlamagne Tha God, New York Times bestselling author of Black Privilege Sunny and Ashleigh provide singular insight into how you can flip the script and turn your so-called "vices" into your virtues, transforming your most "undesirable" flaws into the high-octane fuel of your success. In a world that wants to own you, you'll finally learn how to own yourself, through embracing all your parts - not just the pretty ones. College dropouts and social misfits Sunny and Ashleigh provide front-row seats to their own counterintuitive rise from broke-ass outsiders to brand consultants for iconic brands. Success, they show you, is no longer the sole purview of the Harvard MBA graduate. Your ticket to ride resides within the side of you that's disorderly, independent, and rogue. Deep down, you've always been the kid to point out when the emperor has no clothes. Yet, time and time again you've been faced with the consequences of deviating from social expectations. This is a new conversation for a new era. What would happen if, starting today, you walked away from the sheeple? What could you build?
