Missouri Secretary of State

Indiana Notary Public Guide Indiana Secretary of State,2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

Constitution of the State of Hawaii Government of Hawaii,2022-07-21 The 'Constitution of the State of Hawaii' is a compendium of the pivotal legal frameworks that have shaped governance across the dynamic history of the Hawaiian Islands. Chronicling documents from the island's monarchy period to the contemporary statehood, the compilation presents a unique perspective on Hawaii's legal and political evolution. The composition of these texts reflects the complex interplay of indigenous and Western influences, with the literary style varying from the directives penned by Kamehameha III to the more structured articulations of the subsequent American-influenced territorial and state constitutions. The documentation forms an essential chronicle of sociopolitical shifts affecting jurisdiction and the principles of authority central to the governance of Hawai'i, including the contentious 'Bayonet Constitution' and the politically charged 1893 constitution proposed by Queen Liliuokalani. In examining the authorship, 'Government of Hawaii' is an institutional entity encompassing the various leadership periods that contributed to Hawaii's constitution-making process. King Kamehameha III's efforts to balance the monarchy's traditional authority with modern statecraft underline the foundations of Hawaii's constitutional heritage. The 'Bayonet Constitution', under duress, marked a significant turn toward decreased monarchical power, reflecting the geopolitical pressures of the late 19th century and foreshadowing the strategic annexation of Hawaii by the United States. These documents embody the narrative of Hawaii and its leaders grappling with issues of sovereignty, colonialism, and self-determination. The 'Constitution of the State of Hawaii' is recommended for scholars, legal historians, and students of political science interested in the legalistic transformations of a unique polity. It serves as a vital reference point for understanding the legal and cultural journey of Hawaii, illuminating the diverse constitutional landmarks and providing rich fodder for discussions on governance, colonial impact, and the ongoing quest for an equitable balance between historical legacies and contemporary statehood. This compendium is a must-read for those who wish to grapple with the legal undercurrents that have and continue to define Hawaii's identity as a state within the broader American framework and its former kingdom.
