Template Mixing and Mastering Billy Decker, 2020-09-21 Audio production is an incredibly rewarding craft. To take the raw, basic tracks of a fledgling idea and shape them into one glorious stereophonic sound wave is an amazing feat. The transformation from analogue to digital dominance has brought many advances in sound quality and new techniques, but producing digital music with only a standard computer and DAW can be problematic, time-consuming and sometimes disappointing without the right approach and skills. In *Template Mixing and Mastering*, renowned mix engineer Billy Decker tackles the challenges of in-the-box production through his innovative template approach. He shares his passion and knowledge from over twenty years of industry experience, including an introduction to templates and a step-by-step guide to their set-up and a discussion of drum replacement technology. Channel and setting information for each of the drum, instrument and vocal sections of his template is discussed along with the master channel and his methodology of mixing and mastering. Finally, he gives professional advice and best practice.

Critical Perspectives in Canadian Music Education Carol A. Beynon, Kari K. Veblen, 2012-09-01 Music education in Canada is a vast enterprise that encompasses teaching and learning in thousands of public and private schools, community groups, and colleges and universities. It involves participants from infancy to the elderly in formal and informal settings. Nevertheless, as post-secondary faculties of music and programs are growing significantly, academic books and materials grounded in a Canadian perspective are scarce. This book attempts to fill that need by offering a collection of essays that

look critically at various global issues in music education from a Canadian perspective. Topics range from a discussion of the roots of music education in Canada and analysis of music education practices across the country to perspectives on popular music, distance education, technology, gender, globalization, Indigenous traditions, and community music in music education. Foreword by composer R. Murray Schafer.

Seeking Connections Janet Revell Barrett,2023 Music connects the lives of students, teachers, and school communities in many ways. Music is also integrally related to other art forms, history, culture, and other subjects commonly taught in schools. These relationships deserve critical attention, particularly as educators seek to reorient their curricula and pedagogy toward the pressing aims of social justice. *Seeking Connections* encourages interdisciplinarity as a capacity to be exercised-an orientation or habit of mind that teachers and students can develop. This capacity depends upon viewing music as permeable, recognizing that music influences related ways of knowing, just as related ways of knowing influence music. This book invites teachers to create educational experiences that engage students in exploring an expansive relationship with music. With imaginative examples drawn from diverse musical genres, visual art, poetry, and historical cases, *Seeking Connections* provides thoughtful principles, models, and instructional strategies to deepen students' understandings of musical works and inspire interdisciplinary inquiry throughout elementary and secondary music programs, as well as settings in music teacher education and professional development.
