The Cakebread Cellars American Harvest Cookbook Dolores Cakebread, Jack Cakebread, Brian Streeter, 2011-08-16 Every September during harvest season, the Cakebread family invites five up-and-coming chefs and a host of local farmers to their winery for a weekend of tasting, talking, cooking, and sharing. A whirlwind short course in winemaking, viticulture, and artisan food production, the American Harvest Workshop heats up as the sun goes down. Each evening, the chefs come together to plan and execute two multicourse dinners using a market basket of ingredients from the Cakebreads' favorite purveyors. In *The Cakebread Cellars American Harvest Cookbook*, Jack, Dolores, and culinary director Brian Streeter present 100 recipes and wine pairings developed by workshop chefs and the winery in honor of the twenty-fifth anniversary of this groundbreaking annual event. These spectacular dishes—from appetizers to entrees and desserts—are adapted for home cooking in this delicious exploration of Napa Valley's food and wine culture. Many of the world's leading chefs have attended the workshop and their recipes are here, including Gary Danko's Mediterranean Summer Vegetable Gratin, Nancy Oakes's Warm Chopped Liver Crostini with White Truffle Oil, Hubert Keller's Provençal Garlic and Saffron Soup, and Alan Wong's Pan-Seared Sturgeon with Thai Red Curry. For dessert, just try to choose between Charlie Trotter's Chocolate-Praline Bread Pudding with Cinnamon Cream and Marcel Desaulnier's Caramel-Banana-Chocolate Chip Ice Cream. Guidelines for wine and food pairing are presented along with profiles of the winery's finest purveyors, from Cowgirl Creamery and Hog Island Oyster Company to Liberty Ducks, Broken Arrow Ranch, and Fatted Calf. This unique collection celebrates a quarter century of workshops—and the chefs, winemakers, and farmers who come together each year to cook, eat, and drink from the bounty of Napa's vibrant wine country.

Sacred Pathways Gary Thomas, 2020-09-08 *Sacred Pathways* reveals nine distinct spiritual temperaments--and their strengths, weaknesses, and tendencies--to help you improve your spiritual life and deepen your personal walk with God. It's time to strip away the frustration of a one-size-fits-all spirituality and discover a path of worship that frees you to be you. Experienced spiritual directors, pastors, and church leaders recognize that all of us engage with God differently, and it's about time we do too. In this updated and expanded edition of *Sacred Pathways*, Gary Thomas details nine spiritual temperaments and--like the Enneagram and other tools do with personality--encourages you to investigate the ways you most naturally express yourself in your relationship with God. He encourages you to dig into the traits, strengths, and pitfalls in your devotional approach so you can eliminate the barriers that keep you locked into rigid methods of worship and praise. Plus, as you begin to identify and understand your own temperament, you'll soon learn about the temperaments that aren't necessarily you but that may help you understand the spiritual tendencies of friends, family, and others around you. Whatever temperament or blend of temperaments best describes you, rest assured it's not by accident. It's by the design of a Creator who knew what he was doing when he made you according to his own unique intentions. If your spiritual walk is not

what you'd like it to be, you can change that, starting here. Sacred Pathways will show you the route you were made to travel, marked by growth and filled with the riches of a close walk with God. A Sacred Pathways video Bible study is also available for group or individual use, sold separately.

Chinese Globalization Jiaming Sun, William Scott Lancaster, 2013 This book examines the explicit effects of global connectivity on local culture and society in post-reform mainland China. It focuses on individual level globalization in China and how global socialization impacts local residents' behaviors, lifestyle, value orientation and the consequence of local transformation. Asking questions such as: What types of individual global connections have emerged and developed in China over the last three decades? What aspects of local transformations are influenced by such global connections? How does the impact of global connections vary across different aspects of local communities and institutions? Jiaming Sun uses an original micro-level relational approach to analyse how different types of individual global connections may make a difference and constitute certain outcomes of local transformation, the outcome being that global connections are capable of facilitating local transformation across different spatial, economic, and cultural settings.

Essentialism Greg McKeown, 2014-04-15 THE LIFE-CHANGING NEW YORK TIMES BESTSELLER • MORE THAN TWO MILLION COPIES SOLD • Now in a 10th anniversary edition featuring a new introduction and bonus 21-day challenge. "Essentialism holds the keys to solving one of the great puzzles of life: How can we do less but accomplish more?"—Adam Grant, bestselling author of *Think Again* Essentialism isn't about getting more done in less time. It's about getting only the right things done. Have you ever found yourself stretched too thin? Are you often busy but not productive? Do you feel like your time is constantly being hijacked? If you answered yes to any of these, the way out is the Way of the Essentialist. Essentialism is more than a time-management technique. It is a systematic discipline for discerning what is absolutely essential, then eliminating everything that is not, so we can make the highest possible contribution toward the things that really matter. By forcing us to apply more selective criteria for where to spend our precious time and energy, the disciplined pursuit of less empowers us to reclaim control of our own choices, instead of giving others the implicit permission to choose for us. Essentialism is not one more thing to do. It's a whole new way of doing less, but better, in every area of our lives. Join

the millions of people who have used Essentialism to change their outlook on the world.

16 Cases of Mission Command Donald P., Donald Wright, Ph. D., Ph D Donald P Wright, 2013-12 For the US Army to succeed in the 21st Century, Soldiers of all ranks must understand and use Mission Command. Mission Command empowers leaders at all levels, allowing them to synchronize all warfighting functions and information systems to seize, retain, and exploit the initiative against a range of adversaries. This collection of historical vignettes seeks to sharpen our understanding of Mission Command philosophy and practice by providing examples from the past in which Mission Command principles played a decisive role. Some vignettes show junior officers following their commander's intent and exercising disciplined initiative in very chaotic combat operations. Others recount how field grade officers built cohesive teams that relied on mutual trust to achieve key operational objectives. Each historical account is complemented by an annotated explanation of how the six Mission Command principles shaped the action. For this reason, the collection is ideal for leader development in the Army school system as well as for unit and individual professional development. Mission Command places great responsibility on our Soldiers.

The Eagle's Talons - the American Experience at War Col Dennis M Drew, Dennis Drew, Donald Snow, 2012-08-01 Americans have traditionally viewed war as an aberration in the normal course of events. Although paying lip service to the Clausewitzian dictum that war and politics are two parts of a tightly knit whole, we have traditionally waged wars as great crusades divorced from political realities. Thus we have been nonplussed in the last half of the twentieth century by our involvement in limited wars waged for limited objectives. America's responsibilities as a superpower with worldwide interests forced upon us the unpleasant notion of using our armed forces as practical instruments of political policy. The reality of this notion has been difficult for many Americans to understand and accept. Col Dennis M. Drew and Dr. Donald M. Snow have performed a significant service by producing a volume that places the American experience at war in its proper political context. Going further, they have also placed the American experience in a technological context and analyzed how political and technological factors influenced the conduct of American wars. In addition, they have combined all of these factors and analyzed their influences on the outcomes of our wars, what Sir Basil Liddell Hart called the better state of peace, which is the fundamental objective of warfare. One can find a number of military, political, and technological histories that address

the American experience at war. However, I know of no other single volume that addresses all of these aspects in such a concise and readable fashion. But Eagle's Talons is much more than just a history of the American experience. If gaining insights about where we are going requires an understanding of where we have been, Colonel Drew and Dr. Snow provide a key to understanding how and why the United States might employ its military power in the future.

A Magic Carpet Ride Gina Kingsley,2016-07-03 A Magic Carpet Ride is more than just a travel memoir. It is a story within a story about personal journeys as well as travel journeys. Of the many themes, the strongest is the author's rediscovery of her mother's spirit while traveling Mother Earth. A cosmic theme unfolds, as well as a theme of preparing for the empty nest. The first generation Greek American author describes what it is like to take her own children back to her ancestral homeland to discover the essence of their roots, much like the author did in her childhood trips to Greece. Over 20 countries are described in A Magic Carpet Ride, as well as an educational unit that the author and her three sons designed to build their own trip itineraries and research components. This book is about travel, history, love, pain, goals, fears, risk, adventure, humor, understanding, letting go and faith. Come take a magic carpet ride!
